Foreword

Decision-making requires reliable information to guide sound policies and development strategies. In order to support countries in monitoring and better understanding the impact and evolution of tourism across their economies, the World Tourism Organization (UNWTO) systematically gathers tourism statistics from countries and territories around the world into a vast database that is used to produce two key statistical publications every year: the *Compendium of Tourism Statistics* and the *Yearbook of Tourism Statistics*. Together, these two publications constitute the most comprehensive statistical information available on the tourism sector.

The UNWTO *Compendium of Tourism Statistics* provides data and indicators on inbound, outbound and domestic tourism, as well as on the number and types of tourism industries, the number of employees by tourism industry, and macroeconomic indicators related to international tourism. This is complemented by the *Yearbook of Tourism Statistics* which focuses specifically on data related to inbound tourism (total arrivals and overnight stays), broken down by country of origin.

The statistics presented in the 2019 editions of the *Compendium* and the *Yearbook* give an insight into tourism's multiple facets and its ever-growing importance and are an indispensable reference for all tourism stakeholders. Above all, they provide decision makers with the information needed for more evidence-based policymaking and, as a result, more sustainable tourism development and its contribution to advance the 2030 agenda and the Sustainable Development Goals (SDGs).

Zurab Pololikashvili
Secretary-General, World Tourism Organization (UNWTO)

Avant-propos

La prise de décision doit pouvoir s'appuyer sur des informations fiables permettant de définir des politiques et des stratégies de développement adéquates. Pour aider les pays à assurer le suivi de l'impact et de l'évolution du tourisme dans leurs économies et à en avoir une meilleure compréhension, l'Organisation mondiale du tourisme (OMT) procède à une collecte systématique de statistiques du tourisme auprès de pays et de territoires du monde entier. Ces statistiques sont rassemblées dans une vaste base de données qui permet, chaque année, de faire paraître deux publications statistiques clés : le *Compendium des statistiques du tourisme* et l'*Annuaire des statistiques du tourisme*. À elles deux, ces publications offrent les informations statistiques les plus complètes sur le secteur touristique.

Le *Compendium des statistiques du tourisme* préparé par l'OMT contient des données et des indicateurs sur le tourisme récepteur, émetteur et interne, sur le nombre et les types d'industries touristiques et le nombre de salariés par industrie touristique, ainsi que des indicateurs macroéconomiques liés au tourisme international. Ces données sont complétées par l'*Annuaire des statistiques du tourisme* qui se concentre spécifiquement sur les données liées au tourisme récepteur (nombre total d'arrivées et de nuitées), avec une ventilation par pays d'origine.

Les statistiques présentées dans les éditions 2019 du *Compendium* et de l'*Annuaire* apportent un éclairage sur les multiples facettes du tourisme et sur son importance croissante. Elles constituent un guide de référence incontournable pour toutes les parties prenantes du secteur touristique. Et par-dessus tout, elles fournissent aux décideurs les éléments d'appréciation dont ils ont besoin pour formuler des politiques en connaissance de cause et, partant, assurer un développement plus durable du tourisme et sa contribution à l'avancement du programme 2030 et des Objectifs de développement durable (ODD).

Zurab Pololikashvili
Secrétaire général, Organisation mondiale du tourisme (OMT)

Prólogo

La adopción de decisiones requiere información fiable que permita orientar adecuadamente las políticas y las estrategias de desarrollo. Con el fin de ayudar a los países a supervisar y entender mejor la incidencia y la evolución del turismo en su economía, la Organización Mundial del Turismo (OMT) compila sistemáticamente estadísticas de turismo de países y territorios de todo el mundo en una extensa base de datos que cada año da lugar a dos publicaciones estadísticas clave: el *Compendio de estadísticas de turismo* y el *Anuario de estadísticas de turismo*. Juntas, estas dos publicaciones constituyen la más completa información estadística disponible sobre el sector turístico.

El *Compendio de estadísticas de turismo* de la OMT proporciona datos e indicadores sobre turismo receptor, emisor e interno, sobre el número y los tipos de industrias turísticas, sobre el número de asalariados por industria turística y sobre aspectos macroeconómicos relacionados con el turismo internacional. Estos datos se complementan con el *Anuario de estadísticas de turismo* que se centra específicamente en los datos relacionados con el turismo receptor (totales de llegadas y de pernoctaciones) desglosados por país de origen.

Las estadísticas presentadas en las ediciones de 2019 del *Compendio* y del *Anuario* permiten explorar las múltiples facetas del turismo y su creciente importancia y son una guía de referencia indispensable para todos los agentes del turismo. Sobre todo, proporcionan datos fehacientes a los responsables públicos para que sus políticas tengan mayor fundamento y, como resultado, promuevan el desarrollo de un turismo más sostenible y su contribución al avance de la agenda 2030 y los Objetivos de Desarrollo Sostenible (ODS).

Zurab Pololikashvili
Secretario General, Organización Mundial del Turismo (OMT)

Introduction

The United Nations recognizes the World Tourism Organization (UNWTO) as the appropriate organization to collect, analyse, publish, standardize and improve statistics on tourism and to promote the integration of these statistics within the sphere of the United Nations system. Pursuant of this mandate, the UNWTO Statistics Department collects tourism statistics and disseminates them through two publications: the *Compendium of Tourism Statistics* and the *Yearbook of Tourism Statistics*.

The *Compendium of Tourism Statistics 2019* provides statistical information on tourism in 203 countries and territories for the period 2013–2017. This is a reference guide for the measurement and analysis of the tourism sector. Together with the *Yearbook of Tourism Statistics*, it constitutes the UNWTO's main dataset and publication of annual tourism statistics. Both publications are derived from UNWTO's tourism statistics database, which constitutes the most comprehensive statistical information available on the tourism sector.

The 2019 edition of the *Compendium* is the thirty-ninth in a series that began in 1975 as a biennial publication, and which has been produced annually since 1986. The structure of the *Compendium* is coherent with the internationally agreed system of definitions, concepts and classifications for tourism statistics, namely the *International Recommendations for Tourism Statistics 2008* (IRTS 2008), and therefore with the conceptual framework of the *Tourism Satellite Account* (TSA:RMF 2008).

The objective of the *Compendium* is to make readily available in one publication a comprehensive set of data on tourism. The *Compendium* contains 145 internationally-comparable basic data series and indicators on:

1. Inbound tourism
2. Domestic tourism
3. Outbound tourism
4. Tourism industries
5. Employment
6. Complementary (macroeconomic) indicators

The data included in the *Compendium* correspond to official statistics collected by governments or national tourism administrations and reported regularly to UNWTO through various questionnaires. The UNWTO Statistics Department disseminates the data after performing various data quality checks both in terms of data validation and data homogeneity with the historical series and related data as well as with the data set published in the *Yearbook of Tourism Statistics*. Not all countries and territories produce the complete data series requested in the questionnaires. For this reason you may not find data for all the 145 series for a specific country. The basic information framework underpinning the *Compendium* can be found in the Conceptual References and Technical Notes (Annex 1). The macroeconomic indicators are prepared by UNWTO.

The 2019 *Compendium* edition is available in English, with indicator names, conceptual references and country notes provided in English, French and Spanish. The figures included in this edition correspond to data entered in UNWTO's statistical database as of 31 December 2018. Therefore, any corrections or changes received after this date will only be included in the next edition.

INTRODUCTION

The *Compendium* is principally a database of regularly updated annual information per country available in electronic format (PDF, Excel) from 1995 in the UNWTO Elibrary (www.e-unwto.org). Users seeking the latest available statistics for shorter reference periods or regional aggregates are invited to consult other UNWTO publications available in the UNWTO Elibrary, notably the *UNWTO World Tourism Barometer*.

UNWTO wishes to express its sincere gratitude to all those who contributed to the information published (national tourism administrations, national statistical offices, central banks, the International Monetary Fund and the World Bank) for their valuable support, recognizing especially the crucial role of all contributing countries and territories for their continued commitment to the development and improvement of tourism statistics.

Madrid, January 2019

Introduction

L'Organisation des Nations Unies reconnaît l'Organisation mondiale du tourisme (OMT) comme étant l'organisation compétente pour recueillir, analyser, publier, unifier et améliorer les statistiques du tourisme et promouvoir l'intégration de ces statistiques au sein du système des Nations Unies. Conformément à cette mission, le département des Statistiques de l'OMT recueille les statistiques du tourisme et les diffuse au moyen de deux publications : le *Compendium des statistiques du tourisme* et l'*Annuaire des statistiques du tourisme*.

Le *Compendium des statistiques du tourisme 2019* fournit des informations statistiques sur le tourisme dans 203 pays et territoires pour la période 2013–2017. C'est un guide à usage de référence pour la mesure et l'analyse du secteur du tourisme. Avec l'*Annuaire des statistiques du tourisme*, il constitue le principal ensemble de données et la principale publication de l'OMT en matière de statistiques annuelles du tourisme. Ces deux publications sont préparées à partir de la base de données de l'OMT de statistiques du tourisme, laquelle représente le réservoir le plus complet d'informations statistiques disponibles sur le secteur du tourisme.

L'édition 2019 du *Compendium* est la trente-neuvième d'une série qui a commencé en 1975. L'ouvrage, d'abord publié tous les deux ans, paraît chaque année depuis 1986. La structure du *Compendium* suit le système adopté au niveau international de définitions, de concepts et de classifications pour les statistiques du tourisme, à savoir les *Recommandations internationales 2008 sur les statistiques du tourisme* (RIST 2008), et donc le cadre conceptuel du compte satellite du tourisme (*Compte satellite du tourisme : recommandations concernant le cadre conceptuel 2008*).

Le *Compendium* répond à l'objectif de mettre facilement à disposition, dans une seule publication, un ensemble complet de données sur le tourisme. Il contient 145 séries de données et indicateurs de base, comparables à l'échelon international, sur :

1. Tourisme récepteur
2. Tourisme interne
3. Tourisme émetteur
4. Industries touristiques
5. Emploi
6. Indicateurs (macroéconomiques) complémentaires

Les données incluses dans le *Compendium* correspondent aux statistiques officielles recueillies par les gouvernements ou par les administrations nationales du tourisme et communiquées à l'OMT, à intervalles périodiques, à l'aide de divers questionnaires. Le département des Statistiques de l'OMT diffuse les données après les avoir soumises à différents contrôles de qualité couvrant à la fois la validation des données et l'homogénéité des données avec les séries historiques et les données connexes ainsi qu'avec l'ensemble de données publié dans l'*Annuaire de statistiques du tourisme*. Tous les pays et territoires ne produisent pas les séries complètes de données qui sont demandées dans les questionnaires ; il se peut donc que vous ne trouviez pas, pour un pays en particulier, de données pour chacune des 145 séries. Le cadre d'informations de base sous-tendant le *Compendium* est fourni dans les Références conceptuelles et Notes techniques (Annexe 1). Les indicateurs macroéconomiques sont préparés par l'OMT.

INTRODUCTION

L'édition du *Compendium 2019* est disponible en anglais, les noms des indicateurs, les références conceptuelles et les notes sur les pays apparaissant en anglais, en espagnol et en français. Les chiffres inclus dans la présente édition correspondent aux données saisies dans la base de données statistiques de l'OMT en date du 31 décembre 2018. En conséquence, les éventuelles corrections ou modifications reçues après cette date n'apparaîtront que dans l'édition suivante.

Le *Compendium* est avant tout une base de données d'informations annuelles par pays, mise à jour régulièrement et disponible en version électronique (PDF, Excel), depuis 1995, dans la bibliothèque électronique de l'OMT (www.e-unwto.org). Les utilisateurs qui voudraient connaître les dernières statistiques disponibles pour des périodes de référence plus courtes ou des agrégats régionaux sont invités à consulter les autres publications de l'OMT dans la bibliothèque électronique de l'OMT, notamment le *Baromètre OMT du tourisme mondial*.

L'OMT exprime sa sincère gratitude, pour leur aide précieuse, à toutes celles et ceux qui ont permis de réunir ces informations (administrations nationales du tourisme, bureaux nationaux de statistique, banques centrales, Fonds monétaire international et Banque mondiale). L'Organisation tient à saluer plus spécialement tous les pays et territoires ayant apporté leur contribution pour leur rôle crucial et leur engagement constant en faveur du développement et de l'amélioration des statistiques du tourisme.

Madrid, janvier 2019

Introducción

Las Naciones Unidas reconocen que la Organización Mundial del Turismo (OMT) es la organización competente para recopilar, analizar, publicar, uniformar y mejorar las estadísticas de turismo y promover la integración de esas estadísticas en el marco del sistema de las Naciones Unidas. Siguiendo este mandato, el Departamento de Estadísticas de la OMT recopila estadísticas de turismo y las difunde a través de dos publicaciones: el *Compendio de estadísticas de turismo* y el *Anuario de estadísticas de turismo*.

El *Compendio de estadísticas de turismo 2019* ofrece información estadística sobre el turismo en 203 países y territorios para el periodo 2013–2017. Constituye una guía de referencia para la evaluación y el análisis del sector turístico. Junto con el *Anuario de estadísticas de turismo*, constituye el principal conjunto de datos de la OMT y la principal publicación de estadísticas anuales de turismo. Ambas publicaciones se alimentan de la base de datos de estadísticas de turismo de la OMT, que representa el más completo repositorio de información estadística disponible sobre el sector turístico.

La edición de 2019 del *Compendio* es la trigésima novena de una serie que comenzó en 1975 como publicación bienal y que lleva preparándose anualmente desde 1986. La estructura del *Compendio* es coherente con el sistema de definiciones, conceptos y clasificaciones para estadísticas de turismo acordado a escala internacional, concretamente el de las *Recomendaciones internacionales para estadísticas de turismo 2008* (RIET 2008), y por lo tanto, también con las recomendaciones sobre el marco conceptual de la *Cuenta satélite de turismo* (CST: RMC 2008).

El objetivo del *Compendio* es poner a disposición del público interesado, en una sola publicación, un conjunto exhaustivo de datos sobre turismo. El *Compendio* contiene 145 series de datos básicos e indicadores comparables a escala internacional sobre:

1. Turismo receptor
2. Turismo interno
3. Turismo emisor
4. Industrias turísticas
5. Empleo
6. Indicadores complementarios (macroeconómicos)

Los datos incluidos en el *Compendio* corresponden a las estadísticas oficiales recopiladas por los gobiernos o las administraciones nacionales de turismo, y comunicadas con regularidad a la OMT a través de diversos cuestionarios. El Departamento de Estadísticas de la OMT difunde los datos, después de aplicar varios controles de calidad en términos de validación de los datos y homogeneidad en relación con las series históricas y otros datos afines, así como con el conjunto de datos publicados en el *Anuario de estadísticas de turismo*. No todos los países y territorios producen todas las series de datos que se solicitan en los cuestionarios, razón por la cual es posible que no encuentre los datos de las 145 series para un determinado país. El marco de información básica que sustenta el *Compendio* se explica en las referencias conceptuales y las notas técnicas (Anexo 1). Los indicadores macroeconómicos los prepara la OMT.

La edición del *Compendio de 2019* se publica en inglés, pero los enunciados de los indicadores, las referencias conceptuales y las notas de los países figuran en español, francés e inglés. Las cifras que figuran en esta edición corresponden a los datos introducidos en la base de datos estadística de la OMT

INTRODUCCIÓN

a 31 de diciembre de 2018. Por lo tanto, cualquier corrección o cambio recibido después de esta fecha no aparecerá hasta la próxima edición.

El *Compendio* es principalmente una base de datos de información anual por países regularmente actualizada y puede consultarse también en formato electrónico (PDF, Excel) desde 1995 en la biblioteca virtual de la OMT (www.e-unwto.org). Los usuarios que busquen las últimas estadísticas disponibles para periodos de referencia más breves o agregados regionales pueden consultar otras publicaciones de la OMT disponibles también en biblioteca virtual, en particular el *Barómetro OMT del Turismo Mundial*.

La OMT desea expresar su sincero agradecimiento por su valioso apoyo a todos aquellos que han permitido, con sus aportaciones, reunir la información publicada (administraciones nacionales de turismo, oficinas nacionales de estadística, bancos centrales, el Fondo Monetario Internacional y el Banco Mundial) y reconocer especialmente el papel crucial de todos los países y territorios que mantienen su compromiso con el desarrollo y la mejora de las estadísticas del turismo.

CANADA

- (1) Data based on customs counts and adjusted using questionnaire surveys;
- (2) Travel Survey of Residents of Canada;
- (3) Departures are estimated from arrivals of Canadian residents returning from abroad;
- (4) Changes to the Canadian Business Registry introduced in 2014 resulted in a significant increase in the total number of businesses in Canada. Fluctuations in these figures from one reference period to another can come from methodological changes (for example, changes to the method for identifying inactive units or in business industrial classification strategies). As a result, these data do not represent changes in the business population over time. Statistics Canada advises users not to use these data as a time series.
See: http://www23.statcan.gc.ca/imdb-bmdi/document/1105_D16_T9_V1-eng.htm for more information on these changes;
- (5) 5.13 and 5.14 are calculated using average annual hours worked in full-time jobs by males and females respectively.

“Ministère du Tourisme”

CROATIA

- (1) Non-resident tourists staying in all tourist accommodation establishments providing, as a paid service, short-stay accommodation services.

Since 2010, nautical ports have no longer been considered reporting units or types of accommodation facilities in the monthly survey on tourist arrivals and nights. This happened because of the implementation on the new Sojourn Tax Act, which prescribes how to report sojourns on vessels. Due to the mentioned change in the methodology caused by the implementation of the new legal basis of monitoring the tourists, data from 2005 to 2009 were revised so they can be comparable with data from 2010 (nautical ports were excluded).

Since 2017, data on tourist traffic (number of tourist arrivals and nights) and accommodation capacities have been taken over from the administrative source of the eVisitor system. The Croatian Bureau of Statistics takes over the data from Croatian National Tourist Board’s administrative data source, eVisitor, and further processes it statistically.

Since 2017, the survey does not include business entities sleeping cars and couchettes and business entities in river and sea water transport (only scheduled lines).

Source: CBS, Monthly Survey on Tourist Arrivals and Nights ;

- (2) Includes road passengers in transit ;

- (6) Data includes total arrivals of non-resident passengers at national borders by road. Passengers in transit are included ;
- (7) Source: CBS, Survey on Tourist Activity of Population of Republic of Croatia ;
- (8) 2015 : provisional data ;
- (9) Resident tourists staying in all tourist accommodation establishments providing, as a paid service, short-stay accommodation services.

Since 2010, nautical ports have no longer been considered reporting units or types of accommodation facilities in the monthly survey on tourist arrivals and nights. This happened because of the implementation on the new Sojourn Tax Act, which prescribes how to report sojourns on vessels. Due to the mentioned change in the methodology caused by the implementation of the new legal basis of monitoring the tourists, data from 2005 to

COUNTRY NOTES

2009 were revised so they can be comparable with data from 2010 (nautical ports were excluded).

Since 2017, data on tourist traffic (number of tourist arrivals and nights) and accommodation capacities have been taken over from the administrative source of the eVisitor system. The Croatian Bureau of Statistics takes over the data from Croatian National Tourist Board's administrative data source, eVisitor, and further processes it statistically.

Since 2017, the survey does not include business entities sleeping cars and couchettes and business entities in river and sea water transport (only scheduled lines).

Source: CBS, Monthly Survey on Tourist Arrivals and Nights;

- (10) Data do not include number of households and private family farms that rendered accommodation services;
- (11) The application of the Regulation N° 692/2011 of the European Parliament and of the Council concerning European statistics on tourism caused changes in the methodology of the data collection method for the following types of accommodation facilities: rooms to let, apartments, studio-type apartments and summer houses.
 Since 2012, travel agencies have not been reporting units for the data on private accommodation services any longer, data on capacities in private accommodation services are not comparable with previous years. Reporting units for these facilities have been tourist boards, irrespective of whether they are rented by legal entities, tradesmen or households.
 Until 2016, data on tourist traffic (number of tourist arrivals and nights) and accommodation capacities had been collected on the Monthly Report on Tourist Arrivals and Nights (TU-11 form).
 In 2016, they were collected using two sources: on the Monthly Report on Tourist Arrivals and Nights and from the administrative source of the eVisitor system (on rooms to let, apartments, studio-type suits, summer houses and camping sites in households).
 Since 2017, data on tourist traffic (number of tourist arrivals and nights) and accommodation capacities have been taken over from the administrative source of the eVisitor system. The Croatian Bureau of Statistics takes over the data from Croatian National Tourist Board's administrative data source, eVisitor, and further processes it statistically;
- (12) Due to a process of re-categorization, changes in types and/or categories of accommodation establishments may occur in the course of a year;
- (13) According to the Ordinance on Classification, Minimum Standards and Categorization of Accommodation Establishments, data for hotels and similar establishments do not include Inns and Bed and Breakfast since 2006;
- (14) Since 2013, the method of presenting the capacities have been changed (they are no longer monitored with the situation as on 31 August), which is in line with the Regulation No 692/2011 of the European Parliament and of the Council concerning European statistics on tourism. The application of the Regulation No 692/2011 of the European Parliament and of the Council of European tourism statistics, the capacity of an accommodation establishment presented is taken over from a month when it reached its maximum;
- (15) Gross occupancy rate;
- (16) The classification used is NACE Rev. 2.

CYPRUS

- (1) Source: Passenger Survey, conducted by the Statistical Service of Cyprus;
- (2) Same-day visitors at airports and ports;
- (3) Data for 2013 refer only to eleven months since the data for January 2013 are not available;
- (4) Same-day visitors at ports;
- (5) Accommodation data (arrivals, overnight stays and occupancy rates) is collected from the licensed tourist accommodation establishments on a monthly basis and produced by the Cyprus Tourism Organization (C.T.O.);
- (6) Data concerning Hotels and Similar establishments from 2010 onwards has been revised to include tourist villas under "Similar establishments". Prior to this revision, tourist villas were included in "Other Collective Establishments" (under the "Holiday Dwellings" section);
- (7) 2016 and 2017: primary confidentiality (i.e. the number of Statistical units under a cell is less than 3 or the dominance of one or two units in the data cell is larger or equal to 90%). As a result, total inbound tourism expenditure for 2016 and 2017 does not include the passenger transport item. Consequently, any further calculations involving total inbound tourism expenditure elsewhere in the table are also affected;
- (8) Average expenditure per day calculated by dividing the relevant total expenditure (item 1.33) with the total number of inbound overnight visitors (item 1.2) and their average length of stay (item 1.40);
- (9) Data from 2012 onwards results from the Survey on Domestic and Outbound Trips of Residents of the Statistical Service of Cyprus, as extracted from the Eurostat website;
- (10) Average expenditure per day calculated by dividing the relevant Total Expenditure (item 3.4) with the total number of outbound overnight visitors (tourists) (item 3.2) and their average length of stay (item 3.10);

COUNTRY NOTES

- (11) Data extracted from the Hotels and Restaurants Statistics which result from the Services Survey conducted by the Statistical Service of Cyprus. It refers to NACE Rev. 2 code 55;
- (12) Data extracted from the Hotels and Restaurants Statistics which result from the Services Survey conducted by the Statistical Service of Cyprus.
 In items 4.3 and 5.2, data reported concerns tourist enterprises which fall under the NACE Rev.2 codes 55101 and 55102;
- (13) Data extracted from the Hotels and Restaurants Statistics which result from the Services Survey conducted by the Statistical Service of Cyprus. It refers to NACE Rev. 2 code 56;
- (14) Number of travel agencies (item 4.6) and monetary data (items 4.20–4.24): Data extracted from the Statistics on Business Services which result from the Services Survey conducted by the Statistical Service of Cyprus. It refers to NACE Rev. 2 code 79;
- (15) Monetary data reported in items 4.8–4.12 is extracted from the Hotels and Restaurants Statistics which result from the Services Survey conducted by the Statistical Service of Cyprus and it pertains to Hotels and Similar tourist enterprises which fall under the NACE Rev.2 codes 55101 and 55102;
- (16) Non-monetary data is compiled and produced by the C.T.O. and it concerns licensed hotels and similar tourist accommodation establishments. The data provided differs from the data shown in the items 4.2–4.3 and 4.8–4.12, which is extracted from the Hotels and Restaurants Statistics which result from the Services Survey conducted by the Statistical Service of Cyprus. The differences in the two sets of data, are due to reasons such as the fact that the Services Survey treats enterprises or persons owning/operating more than one tourist accommodation units (establishments) as one entity whereas the C.T.O. data counts individual tourist accommodation units regardless whether they belong to one owner or are managed by one operator;
- (17) Average length of stay calculations are based on overnight stays and arrivals at hotels and similar licensed tourist accommodation establishments (C.T.O. data);
- (18) Data extracted from the Hotels and Restaurants Statistics which result from the Services Survey conducted by the Statistical Service of Cyprus. It refers to NACE Rev. 2 codes 5520+, 5530+ and 5590).

Note for all the data supplied:

Information on real estate activities with own or leased property and real estate activities on a fee or contract basis is not included.

Solomon Islands National Statistics Office

SOUTH AFRICA

- (1) Since 2014 a new methodology has been applied and therefore, the information is not comparable to previous years. 2014–2017: excluding transit;
- (2) Source: Domestic Tourism Survey;
- (3) The large difference between 2012 and 2013 in the number of nights spent in paid accommodation can be explained by changes in the purpose of visit, i.e. a decrease in VFR trips in 2013 with an increase in holiday and business trips. Furthermore, there was a decrease in the average length of stay among all domestic tourists in 2013;
- (4) (Total size of travel party) / (Total number of trips);
- (5) Data concerns all paid accommodation;
- (6) Including visit friends and relatives and Church Halls;
- (7) Hotels;
- (8) Tourism Satellite Account (TSA) data.

Statistics South Africa and South African Tourism
www.statssa.gov.za/

SPAIN

- (1) Including nationals residing abroad;
- (2) 2016: break in the series. The data are not comparable with those of previous years;
- (3) Hotels, “hostales”, camping sites, tourism apartments and rural dwellings;
- (4) Hotels and “hostales” (accommodation establishments providing limited services);
- (5) Source: Annual survey on services.

Source of data:

Up to 2014 IET: FRONTUR – Survey on tourism movements at borders; EGATUR – Survey on tourism expenditure; FAMILITUR – Survey on tourism movements by Spaniards. Since 2015 INE: ETR/Familitur – Tourism survey of residents; FRONTUR and EGATUR – 2015 data calculated by extrapolating the data of Turespaña until September to calculate the data for October, November and December. Since October 2015 this operation is carried out by the National Statistics Institute – INE. 2016: break in the series. The data are not comparable with those of previous years. INE: Surveys on accommodation occupancy; DIRCE (Central Directory of Companies) – tourism supply – annual survey on services; Labour force survey.

UNITED STATES OF AMERICA

- (1) Beginning with 2014 data, automation changes in the methodology for tracking inbound visitors enabled the precise counting of one-night stays. This change likely added several percentage points to the 2014 performance, and therefore data from 2014 onwards is not comparable to previous years. 2015 changes (except Canada and Mexico) reflect a combination of additional records counted and market conditions;
- (2) Includes Mexico and Canada same-day trips only;
- (3) Overseas only; excluding Mexico and Canada (not available);
- (4) Questionnaire wording changed beginning in 2012;
- (5) Preliminary estimates;
- (6) The Bureau of Economic Analysis of the U.S. Department of Commerce completed a major overhaul of the trade accounts system to bring it closer into line with International Monetary Fund guidelines. Among the key changes is the inclusion of education, health care, and migrant or seasonal workers in the travel export and import accounts. Figures were revised going back to 1999 and are not comparable to previous years' data;
- (7) Represents mean average spending per overseas travel party divided by mean average stay length;
- (8) Source: U.S. Travel Association;
- (9) Includes all domestic trips of 50 or more miles from home one-way or any overnight trip;
- (10) Approximately 50%;
- (11) Source: NTTO, Statistics Canada, Banco de Mexico;
- (12) Represents mean average spending per U.S. resident travel party divided by mean average stay length;

Notes des pays

AFRIQUE DU SUD

- (1) À partir de 2014, une nouvelle méthodologie a été appliquée. L'information n'est donc pas comparable à celle des années précédentes. 2014–2017 : à l'exclusion du transit ;
- (2) Source : « Domestic Tourism Survey » ;
- (3) La grande différence entre 2012 et 2013 dans le nombre de nuitées passées en hébergement commercial s'explique par le fait qu'il y a eu des changements dans le motif principal des voyages, c'est-à-dire qu'il y a eu une diminution des visites à des parents et amis en 2013 avec une augmentation des voyages pour vacances et affaires. De plus, il y a eu une diminution de la durée moyenne du séjour parmi tous les touristes internes en 2013 ;
- (4) (Taille totale du groupe de voyageurs) / (Nombre total de voyages) ;
- (5) Les données se réfèrent à tous les hébergements marchands ;

Ministère du Tourisme

CANADA

- (1) Données élaborées à partir des inventaires douaniers et ajustées en fonction des résultats d'enquêtes;
- (2) Enquête sur les voyages des résidents du Canada;
- (3) Les départs sont estimés sur la base des arrivées de résidents canadiens revenant de l'étranger;
- (4) Les modifications apportées au Registre canadien des entreprises en 2014 ont entraîné une augmentation importante du nombre total d'entreprises au Canada. Les fluctuations de ces chiffres d'une période de référence à l'autre peuvent provenir de modifications méthodologiques (par exemple, modifications de la méthode d'identification des unités inactives ou des stratégies de classification industrielle). Par conséquent, ces données ne représentent pas les changements survenus dans la population des entreprises au fil du temps. Statistique Canada conseille aux utilisateurs de ne pas utiliser ces données sous forme de série chronologique.
Voir http://www23.statcan.gc.ca/imdb-bmdi/document/1105_D16_T9_V1-fra.htm pour plus de renseignements sur ces changements;
- (5) 5.13 et 5.14 sont calculés à l'aide du nombre d'heures annuelles moyennes travaillées dans des emplois à temps complet par les hommes et les femmes respectivement.

NOTES DES PAYS

CHINE

- (1) Y compris les arrivées de personnes d'origine ethnique chinoise en provenance de « Hong-Kong (Chine) », « Macao (Chine) », « Taïwan (Province de Chine) » et chinois de l'étranger, la plupart visiteurs de la journée (excursionnistes) en provenance de « Hong-Kong (Chine) » et de « Macao (Chine) »;
- (2) À partir de 2016: y compris les arrivées de visiteurs non-résidents à travers de zones frontalières en Chine. Les données ne sont pas comparables avec celles des années précédentes;
- (3) À l'exclusion des arrivées de personnes d'origine ethnique chinoise en provenance de « Hong-Kong (Chine) », « Macao (Chine) », « Taïwan (Province de Chine) » et chinois de l'étranger;
- (4) À pied;
- (5) Y compris les membres des équipages et autres membres des forces armées;
- (6) Hôtels classés par étoiles uniquement;
- (7) Tourisme récepteur uniquement.

« National Tourism Administration »

CHYPRE

- (1) Source: Enquête auprès des passagers, conduite par le Service statistique de Chypre « Statistical Service of Cyprus »;
- (2) Visiteurs de la journée dans les aéroports et les ports;
- (3) Les données de 2013 font référence uniquement à onze mois car les données du mois de janvier 2013 ne sont pas disponibles;
- (4) Visiteurs de la journée dans les ports;
- (5) Les données sur l'hébergement (arrivées, nuitées et taux d'occupation) ont été collectées tous les mois auprès des établissements hôteliers de tourisme agréés et fournies par la C.T.O.;
- (6) Les données concernant les hôtels et établissements assimilés à partir de 2010 ont été révisées afin d'inclure les villas touristiques dans la catégorie « établissements assimilés ». Avant cette révision, les villas étaient incluses dans « autres établissements collectifs » (sous la section « logements pour vacances »);
- (7) 2016 et 2017 : confidentialité primaire (c'est-à-dire que le nombre d'unités statistiques dans une cellule est inférieur à 3 ou que la prédominance d'une ou deux unités dans la cellule est supérieure ou égale à 90%). Par conséquent, les dépenses totales liées au tourisme récepteur en 2016 et 2017 n'incluent pas le transport de passagers. Par conséquent, tout calcul impliquant la dépense totale du tourisme récepteur dans le tableau sera également affecté;
- (8) La dépense moyenne par jour est obtenue en divisant le total des dépenses concernées (élément 1.33) par le nombre de visiteurs d'entrée qui passent la nuit (élément 1.2) et la durée moyenne de leur séjour (élément 1.40);
- (9) Les données à partir de 2012 sont le résultat de l'enquête sur les voyages internes et émetteurs de résidents du Service statistique de Chypre, extraite du site web d'Eurostat;
- (10) La dépense moyenne par jour est calculée en divisant le total des dépenses concernées (élément 3.4) par le nombre total des visiteurs à l'étranger qui passent la nuit (élément 3.2) et la durée moyenne de leur séjour (élément 3.10);

- (11) Données extraites des statistiques des hôtels et des restaurants provenant de l'enquête sur les services réalisée par le Service de statistique de Chypre. Référence: NACE Rev. 2 code 55;
- (12) Données extraites des statistiques des hôtels et des restaurants provenant de l'enquête sur les services réalisée par le Service de statistique de Chypre. Aux postes 4.3 et 5.2, les données indiquées concernent les entreprises touristiques au sens de la NACE Rev. 2 codes 55101 et 55102;
- (13) Données extraites des statistiques des hôtels et des restaurants provenant de l'enquête sur les services réalisée par le Service de statistique de Chypre. Référence: NACE Rev. 2 code 56;
- (14) Nombre d'agences de voyage (code 4.6) et données monétaires (postes 4.20–4.24): données extraites des statistiques sur les services commerciaux provenant de l'enquête sur les services réalisée par le Service de statistique de Chypre. Référence: NACE Rev. 2 code 79;
- (15) Les données monétaires indiquées aux postes 4.8–4.12 sont extraites des statistiques des hôtels et des restaurants provenant de l'enquête sur les services réalisée par le Service de statistique de Chypre. Elles se rapportent aux Hôtels et entreprises touristiques similaires au sens de la NACE Rev.2 codes 55101 and 55102;
- (16) Les données non monétaires sont rassemblées et élaborées par l'Organisation du tourisme de Chypre (CTO). Elles concernent les hôtels titulaires d'une licence et autres établissements similaires d'hébergement touristique. Les données fournies diffèrent des données apparaissant aux postes 4.2–4.3 et 4.8–4.12, qui sont extraites des statistiques des hôtels et des restaurants provenant de l'enquête sur les services réalisée par le Service de statistique de Chypre. Les différences dans les deux ensembles de données tiennent, entre autres, au fait que l'enquête sur les services traite les entreprises ou les personnes qui sont propriétaires/gérants de plus d'une unité d'hébergement touristique (établissement) comme une seule entité tandis que les données de la CTO comptent les unités individuelles d'hébergement touristique indépendamment de savoir si elles appartiennent à un seul propriétaire ou sont gérées par un seul gérant;
- (17) Les calculs de durée moyenne de séjour sont basés sur les nuitées et les arrivées dans les hôtels et autres établissements agréés similaires d'hébergement pour touristes (C.T.O.);
- (18) Données extraites des statistiques des hôtels et des restaurants provenant de l'enquête sur les services réalisée par le Service de statistique de Chypre. Référence: NACE Rev. 2 codes 5520+, 5530+ et 5590.
- (19) Remarque sur l'ensemble des données fournies: sont exclues les informations sur les activités immobilières en bien propre ou en location et les opérations immobilières basées sur une redevance ou un contrat.

Ministère du Tourisme

CROATIE

- (1) Touristes non résidents séjournant dans tous établissements d'hébergement touristique fournissant, en tant que service payant, des services d'hébergement pour des séjours de courte durée.
Depuis 2010, les ports de plaisance ne sont plus considérés comme des unités déclarantes ou des types de moyens d'hébergement dans l'enquête mensuelle sur les arrivées de touristes et les nuitées. Ce changement fait suite à l'application de la nouvelle loi sur la taxe de séjour, qui prescrit les modalités de fourniture des informations sur les séjours à bord de bateaux. En raison de ce changement de méthodologie résultant de l'application des nouvelles dispositions juridiques régissant le suivi des touristes, les données de 2005 à 2009 ont été révisées pour qu'elles soient comparables avec les données de 2010 (les ports de plaisance ont été exclus).
Depuis 2017, les données sur les flux de touristes (nombre d'arrivées de touristes et nuitées) et la capacité d'hébergement proviennent d'une source administrative, le système eVisitor. Le Bureau croate de la statistique obtient les données de la source administrative du Bureau national croate du tourisme, eVisitor, et en assure le traitement statistique.
Depuis 2017, l'enquête n'inclut pas les wagons-lits et couchettes d'entités commerciales et les entités commerciales de transport fluvial et maritime (uniquement les lignes régulières). Source: CBS, Enquête mensuelle sur les arrivées de touristes et les nuitées;
- (2) Inclut les voyageurs par route en transit;
- (3) Données tirées de l'enquête sur la circulation dans les aéroports, toutes arrivées internationales;
- (4) Données tirées de l'enquête sur la circulation dans les ports maritimes, toutes arrivées internationales. Inclut les passagers des navires de croisière;
- (5) Données tirées de l'enquête sur le transport de voyageurs par chemin de fer, inclut toutes les arrivées internationales par chemin de fer;

NOTES DES PAYS

(6) Données comprenant les arrivées totales de voyageurs non résidents aux frontières nationales par la route. Les passagers en transit sont inclus;

(7) Source: « CBS, Survey on Tourist Activity of Population of Republic of Croatia »;

(8) 2015: données provisoires;

(9) Touristes résidents séjournant dans tous établissements d'hébergement touristique fournissant, en tant que service payant, des services d'hébergement pour des séjours de courte durée.

Depuis 2010, les ports de plaisance ne sont plus considérés comme des unités déclarantes ou des types de moyens d'hébergement dans l'enquête mensuelle sur les arrivées de touristes et les nuitées. Ce changement fait suite à l'application de la nouvelle loi sur la taxe de séjour, qui prescrit les modalités de fourniture des informations sur les séjours à bord de bateaux. En raison de ce changement de méthodologie résultant de l'application des nouvelles dispositions juridiques régissant le suivi des touristes, les données de 2005 à 2009 ont été révisées pour qu'elles soient comparables avec les données de 2010 (les ports de plaisance ont été exclus).

Depuis 2017, les données sur les flux de touristes (nombre d'arrivées de touristes et nuitées) et la capacité d'hébergement proviennent d'une source administrative, le système eVisitor. Le Bureau croate de la statistique obtient les données de la source administrative du Bureau national croate du tourisme, eVisitor, et en assure le traitement statistique.

Depuis 2017, l'enquête n'inclut pas les wagons-lits et couchettes d'entités commerciales et les entités commerciales de transport fluvial et maritime (uniquement les lignes régulières).

Source: CBS, Enquête mensuelle sur les arrivées de touristes et les nuitées;

(10) Les données n'incluent pas le nombre de ménages et de fermes familiales privées ayant fourni des services d'hébergement;

(11) L'application du Règlement (UE) n°692/2011 du Parlement européen et du Conseil concernant les statistiques européennes sur le tourisme a entraîné des changements méthodologiques de la méthode de collecte des données pour les types de moyens d'hébergement suivants: chambres à louer, appartements, studios et maisons d'été.

Depuis 2012, les agences de voyages ne sont plus des unités déclarantes pour les données relatives aux services d'hébergement privé et les données sur la capacité des services d'hébergement privé ne sont pas comparables à celle des années précédentes. Les unités déclarantes pour ces places d'hébergement sont les bureaux de tourisme, indépendamment du fait que ces places soient louées par des entités constituées en personne morale, des professionnels ou des ménages.

Jusqu'en 2016, les données relatives aux flux de touristes (nombre d'arrivées de touristes et nuitées) et à la capacité d'hébergement étaient collectées dans le rapport mensuel sur les arrivées de touristes et les nuitées (formulaire TU-11).

En 2016, elles ont été collectées à partir de deux sources: d'une part, le rapport mensuel sur les arrivées de touristes et les nuitées; d'autre part, la source administrative du système eVisitor (sur les chambres à louer, appartements, studios, maisons d'été et terrains de camping chez des particuliers).

Depuis 2017, les données relatives aux flux de touristes (nombre d'arrivées de touristes et nuitées) et à la capacité d'hébergement proviennent de la source administrative du système eVisitor. Le Bureau croate de la statistique obtient les données de la source administrative du Bureau national croate du tourisme, eVisitor, et en assure le traitement statistique;

(12) En raison d'un processus de reclassement, des changements au niveau des types et/ou des catégories d'établissements d'hébergement sont susceptibles d'intervenir dans le courant de l'année;

(13) Conformément à l'ordonnance sur la classification, les normes minimales et la catégorisation d'établissements d'hébergement, les données relatives aux hôtels et établissements assimilés ne comprennent pas les auberges et chambres d'hôtes depuis 2006;

(14) Depuis 2013, la méthode de présentation des capacités a changé (elles ne sont plus suivies par rapport à la situation au 31 août), ce qui est conforme au Règlement 692/2011 du Parlement européen et du Conseil concernant les statistiques européennes sur le tourisme. En application du Règlement 692/2011 du Parlement européen et du Conseil concernant les statistiques européennes sur le tourisme, la capacité d'un établissement d'hébergement est celle du mois où elle a atteint son maximum;

(15) Taux brut d'occupation;

(16) La classification utilisée est NACE Rev. 2.

ÉTATS-UNIS D'AMÉRIQUE

- (1) À partir des données de 2014, l'automatisation introduite dans la méthodologie de suivi des visiteurs d'entrée a permis un comptage précis des séjours d'une nuit. Ce changement a vraisemblablement ajouté plusieurs points de pourcentage aux chiffres de 2014, de sorte que les données de 2014 et suivantes ne sont pas comparables avec celles des années précédentes. Les changements en 2015 (sauf Canada et Mexique) sont dus à la fois au comptage de registres supplémentaires et aux conditions du marché;
- (2) Inclut uniquement les excursions d'une journée en provenance du Mexique et du Canada;
- (3) Outre-mer uniquement; à l'exclusion du Mexique et du Canada (les données ne sont pas disponibles);
- (4) La formulation du questionnaire a changé à compter de 2012;
- (5) Estimations préliminaires;
- (6) Le Bureau d'analyse économique du Ministère du commerce des États-Unis d'Amérique a procédé à une vaste refonte du système de comptabilité commerciale pour qu'il soit plus en adéquation avec les directives du Fonds monétaire international. Parmi les principaux changements figure l'inclusion de l'éducation, des soins

de santé ainsi que des travailleurs migrants et saisonniers dans les comptes d'exportations et d'importations des voyages. Les chiffres ont été révisés en remontant jusqu'à 1999. Ils ne sont pas comparables avec les données des années précédentes;

CHIPRE

- (1) Fuente: Encuesta de pasajeros, realizada por el Servicio estadístico de Chipre “Statistical Service of Cyprus”;
- (2) Visitantes del día en aeropuertos y puertos;
- (3) Los datos de 2013 se refieren únicamente a once meses ya que los datos de enero 2013 no están disponibles;
- (4) Visitantes del día en puertos;
- (5) Los datos sobre alojamiento (llegadas, pernoctaciones y tasas de ocupación) los recopila mensualmente entre los establecimientos de alojamiento turístico autorizados y los produce la C.T.O.;
- (6) Los datos relativos a los hoteles y establecimientos asimilados han sido revisados a partir de 2010 para incluir

NOTAS DE LOS PAÍSES

- la categoría de villas turísticas bajo “establecimientos asimilados”. Antes de esta revisión, las villas turísticas estaban incluidas en “otros establecimientos colectivos” (bajo la sección “alojamiento de vacaciones”);
- (7) 2016 y 2017: confidencialidad primaria (es decir, el número de unidades estadísticas en una celda es menor que 3 o el predomino de una o dos unidades en la celda es mayor o igual al 90%). Como resultado, el gasto total del turismo receptor para 2016 y 2017 no incluye transporte de pasajeros. En consecuencia, cualquier cálculo que implique el gasto total del turismo receptor en la tabla también se verá afectado;
- (8) Gasto medio por día calculado dividiendo el gasto total (punto 1.33) por el número total de visitantes receptores que pernoctan (punto 1.2) y la duración media de su estancia (punto 1.40);
- (9) Los datos a partir de 2012 son el resultado de la Encuesta de viajes internos y emisores de residentes del Servicio de Estadística de Chipre, extraída del sitio web de Eurostat;
- (10) Gasto medio por día calculado dividiendo el gasto total (punto 3.4) por el número total de visitantes emisores que pernoctan (punto 3.2) y la duración media de su estancia (punto 3.10);
- (11) Datos extraídos de las estadísticas de hoteles y restaurantes, derivadas de la encuesta sobre servicios llevada a cabo por el Servicio de Estadísticas de Chipre. Se refieren al código 55 de la NACE Rev. 2;
- (12) Datos extraídos de las estadísticas de hoteles y restaurantes, derivadas de la encuesta sobre servicios llevada a cabo por el Servicio de Estadísticas de Chipre. En los puntos 4.3 y 5.2, los datos comunicados se refieren a empresas turísticas que se integran en los códigos 55101 y 55102 de la NACE Rev. 2;
- (13) Datos extraídos de las estadísticas de hoteles y restaurantes, derivadas de la encuesta sobre servicios llevada a cabo por el Servicio de Estadísticas de Chipre. Se refieren al código 56 de la NACE Rev. 2.;
- (14) Número de agencias de viaje (código 4.6) y datos monetarios (puntos 4.20–4.24): datos extraídos de las estadísticas sobre servicios empresariales, derivadas de la encuesta sobre servicios llevada a cabo por el Servicio de Estadísticas de Chipre. Se refiere al código 79 de la NACE Rev. 2;
- (15) Los datos monetarios comunicados para los puntos 4.8–4.12 proceden de las estadísticas de hoteles y restaurantes, derivadas de la encuesta sobre servicios que lleva a cabo el Servicio de Estadísticas de Chipre y corresponden a hoteles y empresas turísticas similares incluidas en los códigos 55101 y 55102 de la NACE Rev.2.;
- (16) Los datos no monetarios los compila y produce la Organización de Turismo de Chipre (C.T.O.) y se refieren a hoteles con licencia y establecimientos similares de alojamiento turístico. Los datos suministrados difieren de los datos que se muestran en los puntos 4.2–4.3 y 4.8–4.12, que están extraídos de las estadísticas de hoteles y restaurantes, derivadas de la encuesta sobre servicios llevada a cabo por el Servicio de Estadísticas de Chipre. Las diferencias entre los dos conjuntos de datos obedecen a razones tales como el hecho de que la encuesta sobre servicios trata a las empresas o a las personas que poseen u operan más de una unidad de alojamiento turístico (establecimientos) como una entidad, mientras que los datos de la C.T.O. cuentan las unidades de alojamiento, independientemente de que pertenezcan a un propietario o estén dirigidas por un operador;
- (17) Los cálculos de la duración media de la estancia se basan en las pernoctaciones y las llegadas registradas en hoteles y en establecimientos de alojamiento turístico similares autorizados (C.T.O.);
- (18) Datos extraídos de las estadísticas de hoteles y restaurantes, derivadas de la encuesta sobre servicios llevada a cabo por el Servicio de Estadísticas de Chipre. Se refieren a los códigos 5520+, 5530+ y 5590 de la NACE Rev. 2.
- Nota para todos los datos suministrados:
No está incluida la información sobre las actividades inmobiliarias realizadas con bienes propios o arrendados y las actividades inmobiliarias realizadas a cambio de una retribución o por contrato.

“Ministère du Tourisme”

CROACIA

- (1) Turistas no residentes albergados en todos los establecimientos de hospedaje turístico que prestan servicio de alojamiento de corta estancia como servicio de pago.
Desde 2010, los puertos náuticos son unidades que ya no se incluyen en los informes, ni se consideran tipos de instalaciones de alojamiento en la encuesta mensual sobre llegadas y pernoctaciones de turistas. Ello se debe a la aplicación de la nueva Ley de tasas por estancia, que determina las pautas para el registro de las estadias en embarcaciones. A raíz del cambio en la metodología, dimanante de la aplicación de la nueva base jurídica para el seguimiento de turistas, se revisaron los datos de 2005 a 2009, al objeto de poderlos comparar con los de 2010 (puertos náuticos excluidos).

sDesde 2017, los datos sobre el tráfico turístico (número de llegadas y pernoctaciones de turistas) y la capacidad de alojamiento se sacan de la fuente administrativa del sistema eVisitor. La Oficina de Estadística de Croacia (CBS) se hace cargo de los datos de la fuente de datos administrativos de la Junta Nacional de Turismo de Croacia, eVisitor, y los procesa para conseguir las estadísticas correspondientes.

Desde 2017, la encuesta no incluye a las entidades comerciales para pernoctaciones en coche cama o literas ferroviarias, ni en transportes fluviales y marítimos (solo en líneas regulares).

Fuente: CBS, Encuesta mensual de llegadas y pernoctaciones de turistas;

- (2) Incluye pasajeros en tránsito que viajan por carretera;
- (3) Datos de la encuesta sobre el tráfico en aeropuertos, todas las llegadas internacionales;
- (4) Datos de la encuesta sobre tráfico en puertos de mar, todas las llegadas internacionales. Incluye pasajeros de cruceros;
- (5) Datos de la encuesta sobre transporte ferroviario de pasajeros, incluye todas las llegadas internacionales por ferrocarril;
- (6) Los datos incluyen el total de llegadas por carretera a las fronteras nacionales de pasajeros no residentes, incluidos los pasajeros en tránsito;
- (7) Fuente: “CBS, Survey on Tourist Activity of Population of Republic of Croatia”;
- (8) 2015: datos provisionales;
- (9) Turistas residentes albergados en todos los establecimientos de hospedaje turístico que prestan servicio de alojamiento de corta estancia como servicio de pago.
Desde 2010, los puertos náuticos son unidades que ya no se incluyen en los informes, ni se consideran tipos de instalaciones de alojamiento en la encuesta mensual sobre llegadas y pernoctaciones de turistas. Ello se debe a la aplicación de la nueva Ley de tasas por estancia, que determina las pautas para el registro de las estadias en embarcaciones. A raíz del cambio en la metodología, dimanante de la aplicación de la nueva base jurídica para el seguimiento de turistas, se revisaron los datos de 2005 a 2009, al objeto de poderlos comparar con los de 2010 (puertos náuticos excluidos).
Desde 2017, los datos sobre el tráfico turístico (número de llegadas y pernoctaciones de turistas) y la capacidad de alojamiento se sacan de la fuente administrativa del sistema eVisitor. La Oficina de Estadística de Croacia (CBS) se hace cargo de los datos de la fuente de datos administrativos de la Junta Nacional de Turismo de Croacia, eVisitor, y los procesa para conseguir las estadísticas correspondientes.
Desde 2017, la encuesta no incluye a las entidades comerciales para pernoctaciones en coche cama o literas ferroviarias, ni en transportes fluviales y marítimos (solo en líneas regulares).
Fuente: CBS, Encuesta mensual de llegadas y pernoctaciones de turistas;
- (10) Los datos no incluyen el número de viviendas y granjas familiares privadas que prestaron servicios de alojamiento;
- (11) La aplicación del Reglamento N° 692/2011 del Parlamento Europeo y del Consejo relativo a las estadísticas europeas sobre el turismo ha conllevado cambios en la metodología de recopilación de datos para los siguientes tipos de instalaciones de alojamiento: habitaciones alquiladas, apartamentos, apartamentos tipo estudio y casas de verano. Habida cuenta de que, desde 2012, las agencias de viajes son unidades que no

NOTAS DE LOS PAÍSES

se incluyen en los datos sobre servicios de alojamiento privado, los datos sobre capacidad de servicios de alojamiento privado no se pueden comparar con los de años anteriores. Estas unidades se han considerado como pensiones turísticas, independientemente de que las alquilen entidades jurídicas, comerciales o familias.

Hasta 2016, los datos sobre el tráfico turístico (número de llegadas y pernoctaciones de turistas) y la capacidad de alojamiento se habían recopilado en el Informe mensual sobre llegadas y pernoctaciones de turistas (formulario TU-11). En 2016, se han recabado a través de dos fuentes: el Informe mensual sobre llegadas y pernoctaciones de turistas y la fuente administrativa del sistema eVisitor (en el caso de las habitaciones de alquiler, los apartamentos, los apartamentos tipo estudio, las casas de verano y las cabañas de camping). Desde 2017, los datos sobre el tráfico turístico (número de llegadas y pernoctaciones de turistas) y la capacidad de alojamiento se han extraído de la fuente administrativa del sistema eVisitor. La Oficina de Estadística de Croacia (CBS) se hace cargo de los datos de la fuente de datos administrativos de la Junta Nacional de Turismo de Croacia, eVisitor, y los procesa para conseguir las estadísticas correspondientes;

- (12) Debido a un proceso de reclasificación, es posible que, en el transcurso del año, cambien los tipos o las categorías de establecimientos de hospedaje;
- (13) Según la ordenanza sobre clasificación, normas mínimas y categorización de los establecimientos de alojamiento, los datos para los hoteles y establecimientos asimilados no incluyen posadas ni "Bed and Breakfast" (habitación con desayuno) desde 2006;
- (14) Desde 2013, el método para presentar la capacidad ha sido modificado (ya no se hace el seguimiento en relación con la situación al 31 de agosto), lo cual concuerda con el Reglamento N° 692/2011 del Parlamento Europeo y del Consejo relativo a las estadísticas europeas sobre turismo. En virtud de la aplicación de dicho Reglamento, la capacidad de un establecimiento de alojamiento se estima en el mes en que ha alcanzado su valor máximo;
- (15) Tasa bruta de ocupación;
- (16) La clasificación utilizada es NACE Rev. 2.

ESTADOS UNIDOS DE AMÉRICA

- (1) A partir de 2014, se han modificado algunos elementos automatizados en la metodología de seguimiento de los visitantes recibidos que han permitido contabilizar con precisión las estancias con una pernoctación. Este cambio ha añadido posiblemente varios puntos porcentuales a los resultados, por lo que los datos de 2014 no son comparables con los de los años previos. Los cambios en 2015 (excepto Canadá y México) reflejan una combinación de registros adicionales contados y condiciones de mercado;
- (2) Incluye sólo los viajes del día procedentes de México y Canadá;
- (3) Ultramar únicamente; excluido México y Canadá (no disponible);
- (4) La redacción del cuestionario se modificó a principios de 2012;
- (5) Estimaciones preliminares;
- (6) La Oficina de Análisis Económico del Departamento de Comercio de los Estados Unidos llevó a cabo una revisión de gran alcance del sistema de cuentas comerciales en busca de una mayor confluencia con las directrices del Fondo Monetario Internacional. Entre los principales cambios figuran la inclusión de la educación, la atención médica y los trabajadores migrantes o estacionales en las cuentas de exportaciones e importaciones de viajes. Los datos se han ido revisando hasta 1999 y no son comparables con los datos de años anteriores;

1. Inbound tourism

Inbound tourism comprises the activities of a non-resident visitor within the country of reference on an inbound tourism trip. The corresponding expenditure of such a visitor is identified as inbound tourism expenditure.

Data

Arrivals

Arrivals data measure the flows of international visitors to the country of reference: each arrival corresponds to one inbound tourism trip. If a person visits several countries during the course of a single trip, his/her arrival in each country is recorded separately. In an accounting period, arrivals are not necessarily equal to the number of persons travelling (when a person visits the same country several times a year, each trip by the same person is counted as a separate arrival).

Arrivals data should correspond to *inbound visitors* by including both tourists and same-day non-resident visitors. All other types of travellers (such as border, seasonal and other short-term workers, long-term students and others) should be excluded, as they do not qualify as visitors.

Data are obtained from different sources: administrative records (immigration, traffic counts, and other possible types of controls), border surveys or a mix of them. If data are obtained from accommodation surveys, the number of guests is used as estimate of arrival figures; consequently, in this case, breakdowns by regions, main purpose of the trip, modes of transport used or forms of organization of the trip are based on complementary visitor surveys.

Arrivals are broken down by five characteristics; two of them deserve some comments:

- Type of visitors (**Compendium** items 1.1 to 1.4). If a country cannot distinguish between overnight visitors and same-day visitors, no breakdown is provided.
- Regions (**Compendium** items 1.5 to 1.13). The basic concept behind is that the country associated to the arrival should be the country of residence. Some countries do not accept UNWTO recommendations and classify nationals residing abroad instead of as residents in such countries as a separate category (**Compendium** item 1.13).

The *main purpose* of a trip is defined as the purpose in the absence of which the trip would not have taken place. The following classification applies:

1. Personal
 - 1.1. Holidays, leisure and recreation
 - 1.2. Visiting friends and relatives
 - 1.3. Education and training
 - 1.4. Health and medical care
 - 1.5. Religion/pilgrimages
 - 1.6. Shopping
 - 1.7. Transit
 - 1.8. Other
2. Business and professional

Complementary information is provided in the UNWTO Yearbook of Tourism Statistics that contains arrivals with a breakdown by country of origin:

- **Table 1:** Arrivals of non-resident overnight visitors (tourists) at national borders
- **Table 2:** Arrivals of non-resident visitors (overnight visitors – tourists – and same-day visitors – excursionists –) at national borders

Accommodation

The term “accommodation” refers to services provided by commercial establishments to visitors. Of these, the most important post is usually “hotels and similar establishments”, identified in ISIC, Rev.4 as 5510 “Short term accommodation activities”.

Overnights (or “guest nights”) refer to the number of nights spent by non-resident guests (inbound tourists).

Complementary information is provided in the UNWTO Yearbook of Tourism Statistics that contains data on guests with a breakdown by country of origin:

- **Table 3:** Arrivals of non-resident overnight visitors (tourists) in “hotels and similar establishments”
- **Table 4:** Arrivals of non-resident overnight visitors (tourists) in all types of establishments providing accommodation services for visitors

CONCEPTUAL REFERENCES and TECHNICAL NOTES

- **Table 5:**
Overnight stays of non-resident overnight visitors (tourists) in “hotels and similar establishments”
- **Table 6:**
Overnight stays of non-resident overnight visitors (tourists) in all types of establishments providing accommodation services for visitors

Expenditure

Expenditure associated with the activity of international visitors has been traditionally identified with the travel item of the Balance of Payments (BOP): in the case of inbound tourism, those expenditures associated with inbound visitors are registered as “credits” in the BOP and refers to “travel receipts”.

The 2008 *International Recommendations for Tourism Statistics* consider that “tourism industries and products” includes transport of passengers. Consequently, a better estimate of tourism-related expenditure by inbound and outbound visitors in an international scenario would be, in terms of the BOP, the value of the travel item plus that of the passenger transport item.

Nevertheless, users should be aware that BOP estimates include, in addition to expenditures associated to visitors, those related to other types of travellers (these might be substantial in some countries; for instance, long-term students or patients, border and seasonal workers, etc).

Also data on expenditure by *main purpose of the trip* are BOP data.

The data published correspond to those published by the International Monetary Fund (IMF) (and provided by the Central Banks). Expenditure data on inbound and outbound tourism is taken from the BOPS (Balance of Payments Statistics) CD-ROM of the IMF.

In the case of a significant difference with data provided to UNWTO by National Tourism Administrations (NTAs) for the preparation of this Compendium, the NTA data will be given separately in the “Country notes”.

Indicators

Average size of travel party

A travel party is defined as visitors travelling together on a trip and whose expenditures are pooled. The average size of travel parties allows for an estimate of the total number of trips by international visitors, which is useful for marketing and policy design purposes.

Average length of stay

All these indicators refer to the duration of inbound tourism trips by international visitors (expressed as number of days or nights).

Total average length of stay refers to both commercial and non commercial accommodation services provided to visitors, as well as to other types of stays.

Since a non-resident visitor might use different accommodation facilities during his / her stay, such total figures can only be estimated using border survey information or by checking dates from official arrival/departure cards for a sample (or the totality) of visitors.

Average expenditure per day

This indicator refers to total expenditure of overall visitors divided by the total number of days spent, estimated using visitors’ survey.

2. Domestic tourism

Domestic tourism comprises the activities of a resident visitor within the country of reference (either as part of a domestic tourism trip or part of an outbound tourism trip).

The corresponding expenditure in the economy of reference of such a visitor is identified as domestic tourism expenditure. Also, the expenditure of outbound visitors on products received from resident businesses is included in domestic expenditure.

Data

Trips taken by visitors are tourism trips. A domestic tourism trip refers to the travel of a visitor from the time of leaving his/ her usual residence until he/she returns: it refers to a roundtrip.

The term “accommodation” refers to services provided by commercial establishments to visitors. Of these, the most important post is usually “hotels and similar establishments”, identified in ISIC, Rev.4 as 5510 “Short term accommodation activities”.

Overnights (or “guest nights”) refer to the number of nights spent by resident guests (domestic tourists). Accommodation surveys (addressed to establishments) should be the preferred source of data.

Indicators

Average length of stay

Total average length of stay refers to both commercial and non commercial accommodation services provided to visitors, as well as to other types of stays.

Total data can only be estimated using household surveys.

Average expenditure per day

This indicator refers to total expenditure divided by the total number of days spent, estimated using visitors’ survey.

CONCEPTUAL REFERENCES and TECHNICAL NOTES

3. Outbound tourism

Outbound tourism comprises the activities of a resident visitor outside the country of reference (either as part of an outbound tourism trip or as part of a domestic tourism trip). The corresponding expenditure of such a visitor is identified as outbound tourism expenditure.

Data

Departures data measure the flows of resident visitors leaving the country of reference. Departures are not necessarily equal to the number of arrivals reported by international destinations for the country of reference.

Expenditure associated with the activity of visitors has been traditionally identified with the travel item of the Balance of Payments (BOP): in the case of outbound tourism, those expenditures associated with resident visitors are registered as “debits” in the BOP and refers to “travel expenditure”. As in the case of *inbound tourism*, BOP data are used.

The 2008 International Recommendations for Tourism Statistics consider that “tourism industries and products” includes transport of passengers. Consequently, a better estimate of tourism-related expenditures data by resident and non-resident visitors in an international scenario would be, in terms of the BOP, the value of the travel item plus that of the passenger transport item.

Nevertheless, users should be aware that BOP estimates include, in addition to expenditures associated with visitors, those related to other types of travellers.

Likewise, data on expenditure by *main purpose* of the trip are BOP data.

The data published correspond to those published by the International Monetary Fund (IMF) (and provided by the Central Banks); in the case of a significant difference with data provided to UNWTO by National Tourism Administrations (NTAs) for the preparation of this Compendium, the NTA data will be given separately in the “Country notes”. Please, refer to the paragraph on inbound expenditure for more information on IMF country notes.

Complementary information on “trips abroad by resident visitors to countries of destination” can be obtained through the website www.e-unwto.org/home/main.mpx. It is important to point out that the information presented is obtained on the basis of data supplied by each of the destination countries and therefore corresponds to arrivals in these countries.

Indicators

Average length of stay

This indicator refers to the duration of trips abroad by outbound visitors (expressed as number of days) and reflects the total average using border surveys and/or household information.

Average expenditure per day

This indicator refers to total expenditure divided by total days spent using border surveys and/or household information.

4. Tourism industries

The term *tourism industries* includes those industries that typically produce tourism characteristic products; it is equivalent to the more colloquial term “tourism sector”. The following list identifies such industries:

1. Accommodation for visitors
2. Food and beverage serving activities
3. Railway passenger transport
4. Road passenger transport
5. Water passenger transport
6. Air passenger transport
7. Transport equipment rental
8. Travel agencies and other reservation services activities
9. Cultural activities
10. Sports and recreational activities
11. Retail trade of country-specific tourism characteristic goods
12. Other country-specific tourism characteristic activities

The following explanatory notes refer to *Accommodation for visitors* and *Travel agencies and other reservation services activities* being the only two industries for which monetary and non-monetary data are published in this Compendium.

These notes can be consulted in Annex 4; they have been extracted from *International Standard Industrial Classification of All Economic Activities (ISIC), Rev. 4*. Statistical papers (Series M No. 4/Rev.4), United Nations. New York, 2008.

Accommodation for visitors

The number of establishments in the *Accommodation for visitors* industry (Compendium item 4.2) refers to all type of establishments providing accommodation services to visitors on a commercial (market) basis; that is, as a paid service. Consequently, data should include all the following ISIC classes:

5510 Short term accommodation activities

This class is labelled in the **Compendium** section 4 as “*Accommodation for visitors in hotels and similar establishments*” and includes the provision of accommodation, typically on a daily or weekly basis, principally for short stay by visitors. This includes the provision of furnished accommodation in guest rooms and suites or complete self-contained units with kitchens, with or without daily or other regular housekeeping services, and may often include a range of additional services such as food and beverage services, parking, laundry services, swimming pools and exercise rooms, recreational facilities and conference and convention facilities.

This class includes the provision of short-term accommodation provided by:

- hotels
- resort hotels
- suite / apartment hotels
- motels
- motor hotels
- guesthouses
- pensions
- bed and breakfast units
- visitor flats and bungalows
- time-share units

CONCEPTUAL REFERENCES and TECHNICAL NOTES

- holiday homes
- chalets, housekeeping cottages and cabins
- youth hostels and mountain refuges

This class excludes:

- provision of homes and furnished or unfurnished flats or apartments for more permanent use, typically on a monthly or annual basis, see division 68

5520 Camping grounds, recreational vehicle parks and trailer parks

This class includes:

- provision of accommodation in campgrounds, trailer parks, recreational camps and fishing and hunting camps for short stay visitors
- provision of space and facilities for recreational vehicles

This class also includes accommodation provided by:

- protective shelters or plain bivouac facilities for placing tents and/or sleeping bags

5590 Other accommodation

This class includes the provision of temporary or longer-term accommodation in single or shared rooms or dormitories for students, migrant (seasonal) workers and other individuals.

This class includes accommodation provided by:

- student residences
- school dormitories
- workers hostels
- rooming and boarding houses
- railway sleeping cars

6810 Real estate activities with own or leased property

This class includes:

- buying, selling, renting and operating of self-owned or leased real estate, such as:
 - apartment buildings and dwellings
 - non-residential buildings, including exhibition halls, self-storage facilities, malls and shopping centers
 - land
- provision of homes and furnished or unfurnished flats or apartments for more permanent
- use, typically on a monthly or annual basis

This class also includes:

- development of building projects for own operation, i.e. for renting of space in these buildings
- subdividing real estate into lots, without land improvement
- operation of residential mobile home sites

This class excludes:

- development of building projects for sale, see 4100
- subdividing and improving of land, see 4290
- operation of hotels, suite hotels and similar accommodation, see 5510
- operation of campgrounds, trailer parks and similar accommodation, see 5520

- operation of workers hostels, rooming houses and similar accommodation, see 5590

6820 Real estate activities on a fee or contract basis

This class includes the provision of real estate activities on a fee or contract basis including real estate related services.

This class includes:

- activities of real estate agents and brokers
- intermediation in buying, selling and renting of real estate on a fee or contract basis
- management of real estate on a fee or contract basis
- appraisal services for real estate
- activities of real estate escrow agents

This class excludes:

- legal activities, see 6910
- facilities support services, see 8110
- management of facilities, such as military bases, prisons and other facilities (except computer facilities management), see 8110

Travel agencies and other reservation service activities

7911 Travel agency activities

This class includes:

- activities of agencies primarily engaged in selling travel, tour, transportation and accommodation services to the general public and commercial clients

7912 Tour operator activities

This class includes:

- arranging and assembling tours that are sold through travel agencies or directly by tour operators. The tours may include any or all of the following:
 - transportation
 - accommodation
 - food
 - visits to museums, historical or cultural sites, theatrical, musical or sporting events

7990 Other reservation service and related activities

This class includes:

- provision of other travel-related reservation services:
 - reservations for transportation, hotels, restaurants, car rentals, entertainment and sport etc.
- provision of time-share exchange services
- ticket sales activities for theatrical, sports and other amusement and entertainment events
- provision of visitor assistance services:
 - provision of travel information to visitors
 - activities of tourist guides
- tourism promotion activities

This class excludes:

- activities of travel agencies and tour operators, see 7911, 7912
- organization and management of events such as meetings, conventions and conferences, see 8230

CONCEPTUAL REFERENCES and TECHNICAL NOTES

Data

Regarding the *number of establishments*, (Compendium item 4.3) includes establishments associated with classes 5520, 5590, 6810 and 6820 (see above explanatory notes for accommodation for visitors).

The number of *rooms* and *bed-places* refers to the capacity in “hotels and similar establishments” for providing temporary accommodation to visitors.

Indicators

All of the first three indicators are based on the overall number of overnights of both resident and non-residents tourists in hotels and similar establishments.

Occupancy rates refer to the relationship between existing capacity to provide accommodation services to visitors and the extent to which it is used. This rate may refer to the use of rooms or of bed-places.

Available capacity refers to the number of bed-places in hotels and similar establishments per 1000 inhabitants of the permanent resident population of the country of reference. Data are assigned by UNWTO if not provided by the country.

5. Employment

The category of persons employed in the tourism industries can be either *employees* (persons who work for an enterprise in return for remuneration in cash or in kind as agreed) or *self-employed* (own-account workers who hold the type of job defined as “self-employment job” and have not engaged on a continuous basis any “employees” during the reference period).

Some employed persons may have more than one job; consequently, the number of jobs (demand side) and the number of persons employed (supply side) are dissimilar categories and therefore usually do not match.

The intensity of work may vary from job to job, industry to industry and from period to period. Jobs may differ by working time of persons employed and therefore be expressed in terms of full- or part-time jobs. For this reason, it is not sufficient to have data on the number of jobs or persons employed in order to obtain information on the volume of labour performed during a specified period of time (for example, a month or a year). Data on the total number of working hours will be required. Finally, if all jobs are converted into full-time equivalent employment or annual total hours worked, the total volume of labour of a given tourism industry for a given period can be obtained.

Figures on “Number of jobs by status in employment” and “Number of full time equivalent jobs by status in employment” should refer to tourism industries.

6. Complementary indicators

These indicators are derived from the Balance of Payments, National Accounts and tourism statistics.

Demand

Gross travel propensity measures the number of outbound and domestic tourism trips in terms of total permanent resident population of the country of reference. Bigger values of the indicator mean greater frequency of such trips, indicating the present mobility of the population travelling.

The indicator “arrivals/population” provides an estimate of tourism intensity in the country of reference. This indicator is calculated by UNWTO based on the available basic data on inbound and domestic tourism, which can be either the number of visitors (code 1.1 for inbound tourism and 2.1 for domestic tourism) or the number of tourists (code 1.2 for inbound tourism and 2.2 for domestic tourism). The calculation is made according to the following formulas, listed in order of preference, and taking into account the basic data available for the country of reference:

$$\begin{aligned} & (1.2 \text{ inbound tourists} + 2.2 \text{ domestic tourists}) / \text{population} \\ & (1.2 \text{ inbound tourists} + 2.1 \text{ domestic visitors}) / \text{population} \\ & (1.2 \text{ inbound tourists}) / \text{population} \\ & (1.1 \text{ inbound visitors} + 2.1 \text{ domestic visitors}) / \text{population} \\ & (1.1 \text{ inbound visitors} + 2.2 \text{ domestic tourists}) / \text{population} \\ & (1.1 \text{ inbound visitors}) / \text{population} \end{aligned}$$

The population data correspond to those published by the International Monetary Fund (IMF), the World Bank or, in their absence, to those published by the National Statistical Office of the country of reference.

In each new edition of the Compendium, the formula will be adapted according to the basic data available for the reference period (5 years).

Macroeconomic international tourism related indicators

The indicators are based on the International Monetary Fund's *Balance of Payments Statistics* and *International Financial Statistics*.

These and other complementary indicators represent a preliminary and very basic evaluation of tourism's economic contribution to the national economy, valuable because they are largely available for most countries, internationally comparable, and comparable to other economic indicators.

It must be noted that the term ‘expenditure’ is used similarly for inbound as well as for outbound tourism to indicate “the amount paid for the acquisition of consumption goods and services, as well as valuables, for own use or to give away, for and during tourism trips”. Foreign visitors in the reference country generate inbound tourism expenditure (credits in the Balance of Payments), while resident visitors in foreign countries generate outbound tourism expenditure (debits in the Balance of Payments).

CONCEPTUAL REFERENCES and TECHNICAL NOTES

Inbound tourism expenditure over GDP

Reflects the weight of expenditure by inbound visitors as a part of the total value of economic activity in the economy of reference. From the perspective of international trade, this indicator captures the economic importance of foreign revenue inflow associated to expenditures by such visitors.

Outbound tourism expenditure over GDP

Reflects the importance of the spending abroad by outbound visitors, expressed in terms of the national economy. From the perspective of international trade, this indicator captures the economic importance of domestic revenue outflow by means of such visitors.

Tourism balance over GDP

Reflects the economic importance of net tourism (inbound minus outbound) expenditures relative to the economy of reference. A significant surplus or deficit affects the country's balance of trade, and thus its GDP.

Tourism openness

Reflects how important the sum of cross-border tourism expenditures (i.e. international tourism, the sum of inbound and outbound tourism expenditure) are relative to the economy of reference. It could be used as a measure of the free flow of tourism between the country of reference and the rest of the world.

Tourism coverage

Reflects the proportion between inbound tourism expenditure and outbound tourism expenditure to show in what degree foreign revenue inflow cover for domestic revenue outflow. A value higher than 100 % means that inbound tourism indirectly finances more than all the expenditure of outbound visitors; a value lower than 100 % means that inbound tourism does not cover the expenditure of such visitors abroad.

Inbound tourism expenditure over exports of goods, Inbound tourism expenditure over exports of services, and Inbound tourism expenditure over exports of goods and services

These three measures reflect the importance of tourism as an internationally traded service relative to other categories of exports. At the same time, such measures reveal the degree of tourism specialization in a country's export structure and the relative capability of tourism in generating foreign revenues.

Inbound tourism expenditure over current account credits

The current account credits of the Balance of Payments refer to all inflow of goods, services, income and current transfers into an economy. The larger the share of tourism in this aggregate, the larger is the importance of tourism activity in generating foreign revenue inflows.

Outbound tourism expenditure over imports of goods, Outbound tourism expenditure over imports of services, and Outbound tourism expenditure over imports of goods and services

These three measures reflect the importance of tourism as an internationally traded service relative to other categories of imports. At the same time, such measures reveal the predilection for tourism in a country's import structure and the relative degree of an economy's domestic revenue outflows due to international tourism.

Outbound tourism expenditure over current account debits

The current account debits of the Balance of Payments refer to all outflows of goods, services, income and current transfers from an economy to the rest of the world. The larger the share of tourism in this aggregate, the larger is the importance of tourism activity in the leakage of domestic revenue.

CONCEPTUAL REFERENCES and TECHNICAL NOTES

Annex 1 National System of Tourism Statistics and international comparability

The structure of the [Compendium of Tourism Statistics](#) is based on the following scheme referred to the basic information framework of national Systems of Tourism Statistics for international comparability purposes (http://statistics.unwto.org/sites/all/files/docpdf/ststext_0.pdf).

The conceptual background for such a basic core of data and indicators is the *International Recommendations for Tourism Statistics 2008* (IRTS 2008).

International comparability and tourism statistics : the basic information framework

I. Conceptual framework

Concepts	Observation units	Main related characteristics		
Visitor	Visitor	Classes (Overnight visitor-tourist-/same-day visitor-excursionist) Country of residence / regions		
	Travel party	Size		
Trip	Tourism trip	Main purpose		
		Duration		
		Main destination		
		Modes of transport		
		Types of accommodation used		
		Organization		
		Expenditure		
Tourism industries	Establishment	Monetary		
		Output		
		Intermediate consumption		
		Gross value added		
		Compensation of employees		
		Gross Fixed Capital Formation		
		Non-monetary		
		Non-monetary characteristics specific to each tourism industry		
		Employment	Establishment (in the tourism industries)	Persons
				Size
Status in employment				
Households	Jobs			
	Duration of work			
	Full-time equivalent jobs			

II. Classifications

1. Forms of tourism
2. Classification of consumption products acquired by visitors
3. Classification of productive activities serving visitors
4. Other classifications

III. Tables of results

1. Inbound tourism
2. Domestic tourism
3. Outbound tourism
4. Tourism industries
5. Employment
6. Complementary indicators

CONCEPTUAL REFERENCES and TECHNICAL NOTES

Annex 2 Understanding tourism: basic glossary

This Annex includes some key concepts and the corresponding definitions as in the *IRTS 2008*.
<http://statistics.unwto.org/content/irts2008>.

A complete and updated Glossary of Tourism Terms is available through:
<https://statistics.unwto.org/sites/all/files/docpdf/glossaryterms.pdf>

Domestic tourism	Comprises the activities of a resident <i>visitor</i> within the country of reference, either as part of a <i>domestic tourism trip</i> or part of an <i>outbound tourism trip</i> .
Domestic visitor	As a <i>visitor travels</i> within his/her country of residence, he/she is a <i>domestic visitor</i> and his/her activities are part of <i>domestic tourism</i> .
Employment in tourism industries	<i>Employment in tourism industries</i> may be measured as a count of the persons employed in <i>tourism industries</i> in any of their jobs, as a count of the persons employed in <i>tourism industries</i> in their main job, or as a count of the jobs in <i>tourism industries</i> .
Inbound tourism	Comprises the <i>activities</i> of a non-resident <i>visitor</i> within the country of reference on an <i>inbound tourism trip</i> .
Outbound tourism	Comprises the <i>activities</i> of a resident <i>visitor</i> outside the country of reference, either as an <i>outbound tourism trip</i> or as part of a <i>domestic tourism trip</i> .
Place of usual residence	The <i>place of usual residence</i> is the geographical place where the visitor usually resides, and is defined by the location of his/her principal dwelling (Principles and recommendations for population and housing censuses of the United Nations).
Purpose of a tourism trip (main)	The <i>main purpose</i> of a <i>tourism trip</i> is defined as the purpose in the absence of which the <i>trip</i> would not have taken place. Classification of <i>tourism trips</i> according to the <i>main purpose</i> refers to nine categories: this typology allows the identification of different subsets of <i>visitors</i> (business visitors, transit visitors, etc).
Tourism characteristic activities / products	<i>Tourism characteristic activities</i> are the activities that typically produce <i>tourism characteristic products</i> . <i>Tourism characteristic products</i> are those that satisfy one or both of the following criteria: <i>Tourism expenditure</i> on the product (either good or service) should represent a significant share of total <i>tourism expenditure</i> (share-of-expenditure/demand condition); <i>Tourism expenditure</i> on the product should represent a significant share of the supply of the product in the economy (share-of-supply condition). This criterion implies that the supply of a <i>tourism characteristic product</i> would cease to exist in meaningful quantity in the absence of visitors.
Tourism expenditure	<i>Tourism expenditure</i> refers to the amount paid for the acquisition of consumption goods and services, as well as valuables, for own use or to give away, for and during tourism trips.
Tourism industries	The <i>tourism industries</i> comprise all establishments for which the principal activity is a tourism characteristic activity.
Tourist (or overnight visitor) and Excursionist (or day visitor)	A visitor (domestic, inbound or outbound) is classified as a tourist (or overnight visitor) if his/her trip includes an overnight stay, or as a same-day visitor (or excursionist) otherwise.

CONCEPTUAL REFERENCES and TECHNICAL NOTES

Travel / tourism	<i>Travel</i> refers to the activities of travellers. A <i>traveller</i> is someone who moves between different geographic locations, for any purpose and any duration. The visitor is a particular type of traveller and consequently tourism is a subset of travel
Travel party	A <i>travel party</i> is defined as visitors travelling together on a trip and whose expenditures are pooled.
Trip	A <i>trip</i> refers to the travel by a person from the time of departure from his/her usual residence until he/she returns: it thus refers to a round trip. Trips taken by visitors are tourism trips.
Usual environment	The <i>usual environment</i> of an individual, a key concept in tourism, is defined as the geographical area (though not necessarily a contiguous one) within which an individual conducts his/her regular life routines.
Vacation home	A <i>vacation home</i> (sometimes also designated as a holiday home) is a secondary dwelling that is visited by the members of the household mostly for purposes of recreation, vacation or any other form of leisure.
Visit	A trip is made up of visits to different places. The term “tourism visit” refers to a stay in a place visited during a tourism trip.
Visitor	A <i>visitor</i> is a traveller taking a trip to a destination outside his/her usual environment, for less than a year, for any purpose (business, leisure or other personal purpose) other than to be employed by a resident entity in the country or place visited.

Annex 3 Finding tourism in International Standard Classifications

The importance of Tourism and the need to define and measure its significance as a part of the UN System of Statistics was recognized by the United Nations Statistical Commission with the approval in 1993 of “Recommendations on Tourism Statistics”. The revised version of these recommendations was approved by the UN Statistical Commission in 2008 as *International Recommendations for Tourism Statistics 2008* (IRTS 2008).

To study the economic contribution of Tourism to the national economy, there was a need to integrate the economic analysis of Tourism into the reference framework of the System of National Accounts (SNA '93), leading to the approval by the United Nations Statistical Commission in 2000 of the “Tourism Satellite Account: Recommended Methodological Framework”. This framework has been updated as *Tourism Satellite Account: Recommended Methodological Framework 2008* (TSA:RMF 2008).

The concepts, definitions and classifications in IRTS 2008 have been made consistent with TSA:RMF 2008 which in turn has been harmonized with the 2008 System of National Accounts, Balance of Payments and International Trade in Services.

For Tourism, there is an interest in identifying the products purchased by visitors, directly and indirectly, and the activities that produce them. The classifications used for the detailed activities and products required in the study of Tourism are drawn directly from and related to the United Nations reference classifications, ISIC and the CPC.

The focus of interest for Tourism analysis is the visitor. Initially, it is of interest to measure visitor expenditure and to identify the products, both goods and services, purchased by visitors, as well as the activities that produce those products. In a macroeconomic framework, such as the TSA, the concept of Tourism comprises both a demand perspective consisting of visitor consumption, tourism collective consumption, and tourism gross fixed capital formation and a supply perspective of tourism activities (a special issue being the share of their production that is purchased by visitors). Tourism, as such, is not identified in SNA 93 or in ISIC. For purposes of Tourism, activities from across the spectrum of ISIC, that produce goods and services that satisfy tourism demand are brought together and grouped as tourism activities.

The approach being from the demand side, the visitor is the basic unit of observation and analysis, and visitor expenditure is observed in terms of products (primarily services). On the supply side, related as it is to the System of National Accounts, Tourism statistics uses the “establishment” as the basic statistical unit as defined in the SNA, and uses “industry” as the unit of presentation and analysis, industry being defined as “groups of establishments engaged in the same kind of productive activities”.

In the first instance it is necessary to identify the products purchased by visitors. For purposes of data collection from a demand perspective, products are grouped into broad categories by purpose; however, Tourism requires the simultaneous analysis of consumption and production hence

the classification used for defining products is the Central Product Classification (CPC v 2.). The products purchased by visitors can be classified within the detailed classes of the CPC and the activities that produce them can be identified in terms of the detailed classes of ISIC.

Tourism defines certain of those products purchased by visitors and the activities that produce them, as Tourism characteristic products (those that satisfy certain criteria) and Tourism characteristic activities (those that typically produce tourism characteristic products). The IRTS 2008 explains in great detail the underlying concepts, definitions and classifications to be used in compiling Tourism statistics and the identification of Tourism characteristic products and activities. To facilitate international comparison, lists of these characteristic products and activities have been compiled. Annex 3 of the document provides a List of Tourism characteristic activities (tourism industries) grouped into main categories according to ISIC rev 4. Annex 4 provides a list of Tourism characteristic products grouped by main categories according to CPC ver 2. Even though the actual product purchased by the visitor may constitute only a portion of the CPC class or the activity producing it may constitute only a portion of the 4 digit ISIC class, by being expressed in terms of CPC classes and aggregations of ISIC classes, the lists provide a defined class within which each product or activity can be placed. Countries are advised to create more detailed classes below the lowest level of the CPC and ISIC for their own analytical purposes, if required.

The scope for analysis of Tourism statistics is widened when they are placed within the framework of the Tourism Satellite Account. Again in the core accounting framework, products and activities are expressed in terms of CPC v 2 and ISIC rev 4, including the products and activities associated with Tourism. The international product and activity classifications used to compile data for the TSA:RMF 2008 which in turn, establishes structural links with the System of National Accounts, make possible a deeper appreciation of tourism’s linkages to other economic areas.

CONCEPTUAL REFERENCES and TECHNICAL NOTES

Annex 4

List of tourism industries (characteristic activities) and grouping by main categories according to ISIC Rev. 4

Tourism industries	ISIC Rev. 4	Description
1. Accommodation for visitors	5510	Short term accommodation activities
	5520	Camping grounds, recreational vehicle parks and trailer parks
	5590	Other accommodation
	6810	Real estate activities with own or leased property*
	6820	Real estate activities on a fee or contract basis*
2. Food and beverage serving activities	5610	Restaurants and mobile food service activities
	5629	Other food service activities
	5630	Beverage serving activities
3. Railway passenger transport	4911	Passenger rail transport, interurban
4. Road passenger transport	4922	Other passenger land transport
5. Water passenger transport	5011	Sea and coastal passenger water transport
	5021	Inland passenger water transport
6. Air passenger transport	5110	Passenger air transport
7. Transport equipment rental	7710	Renting and leasing of motor vehicles
8. Travel agencies and other reservation service activities	7911	Travel agency activities
	7912	Tour operator activities
	7990	Other reservation service and related activities
9. Cultural activities	9000	Creative, arts and entertainment activities
	9102	Museums activities and operation of historical sites and buildings
	9103	Botanical and zoological gardens and nature reserves activities
10. Sports and Recreational activities	7721	Renting and leasing of recreational and sports goods
	9200	Gambling and betting activities
	9311	Operation of sports facilities
	9319	Other sports activities
	9321	Activities of amusement parks and theme parks
	9329	Other amusement and recreation activities n.e.c.
11. Retail trade of country-specific tourism characteristic goods		Duty free shops**
		Specialized retail trade of souvenirs**
		Specialized retail trade of handicrafts**
		Other specialized retail trade of tourism characteristic goods**
12. Other country-specific tourism characteristic activities		

* Part related to second homes and timeshare properties

** Not a 4 digit ISIC

CONCEPTUAL REFERENCES and TECHNICAL NOTES

Explanatory notes

These explanatory notes refer exclusively to internationally comparable tourism characteristic activities and follow the same order as in Annex 4 above.

They have been extracted from *International Standard Industrial Classification of All Economic Activities (ISIC), Rev. 4*. Statistical papers (Series M No. 4/Rev.4), United Nations. New York, 2008.

The complete document can be consulted in:
<https://unstats.un.org/unsd/publications/catalogue?selectID=318>.

Accommodation for visitors

5510 Short term accommodation activities

This class includes the provision of accommodation, typically on a daily or weekly basis, principally for short stay by visitors. This includes the provision of furnished accommodation in guest rooms and suites or complete self-contained units with kitchens, with or without daily or other regular housekeeping services, and may often include a range of additional services such as food and beverage services, parking, laundry services, swimming pools and exercise rooms, recreational facilities and conference and convention facilities.

- This class includes the provision of short-term accommodation provided by:
 - hotels
 - resort hotels
 - suite / apartment hotels
 - motels
 - motor hotels
 - guesthouses
 - pensions
 - bed and breakfast units
 - visitor flats and bungalows
 - time-share units
 - holiday homes
 - chalets, housekeeping cottages and cabins
 - youth hostels and mountain refuges

This class excludes:

- provision of homes and furnished or unfurnished flats or apartments for more permanent use, typically on a monthly or annual basis, see division 68

5520 Camping grounds, recreational vehicle parks and trailer parks

This class includes:

- provision of accommodation in campgrounds, trailer parks, recreational camps and fishing and hunting camps for short stay visitors
- provision of space and facilities for recreational vehicles

This class also includes accommodation provided by:

- protective shelters or plain bivouac facilities for placing tents and/or sleeping bags

5590 Other accommodation

This class includes the provision of temporary or longer-term accommodation in single or shared rooms or dormitories for students, migrant (seasonal) workers and other individuals.

This class includes accommodation provided by:

- student residences
- school dormitories
- workers hostels
- rooming and boarding houses
- railway sleeping cars

6810 Real estate activities with own or leased property

This class includes:

- buying, selling, renting and operating of self-owned or leased real estate, such as:
 - apartment buildings and dwellings
 - non-residential buildings, including exhibition halls, self-storage facilities, malls and shopping centers
 - land
- provision of homes and furnished or unfurnished flats or apartments for more permanent
- use, typically on a monthly or annual basis

This class also includes:

- development of building projects for own operation, i.e. for renting of space in these buildings
- subdividing real estate into lots, without land improvement
- operation of residential mobile home sites

This class excludes:

- development of building projects for sale, see 4100
- subdividing and improving of land, see 4290
- operation of hotels, suite hotels and similar accommodation, see 5510
- operation of campgrounds, trailer parks and similar accommodation, see 5520
- operation of workers hostels, rooming houses and similar accommodation, see 5590

6820 Real estate activities on a fee or contract basis

This class includes the provision of real estate activities on a fee or contract basis including real estate related services.

This class includes:

- activities of real estate agents and brokers
- intermediation in buying, selling and renting of real estate on a fee or contract basis
- management of real estate on a fee or contract basis
- appraisal services for real estate
- activities of real estate escrow agents

This class excludes:

- legal activities, see 6910
- facilities support services, see 8110
- management of facilities, such as military bases, prisons and other facilities (except computer facilities management), see 8110

CONCEPTUAL REFERENCES and TECHNICAL NOTES

Food and beverage serving activities

5610 Restaurants and mobile food service activities

This class includes the provision of food services to customers, whether they are served while seated or serve themselves from a display of items, whether they eat the prepared meals on the premises, take them out or have them delivered. This includes the preparation and serving of meals for immediate consumption from motorized vehicles or nonmotorized carts.

This class includes activities of:

- restaurants
- cafeterias
- fast-food restaurants
- pizza delivery
- take-out eating places
- ice cream truck vendors
- mobile food carts
- food preparation in market stalls

This class also includes:

- restaurant and bar activities connected to transportation, when carried out by separate units

This class excludes:

- concession operation of eating facilities, see 5629

5629 Other food service activities

This class includes industrial catering, i.e. the provision of food services based on contractual arrangements with the customer, for a specific period of time.

Also included is the operation of food concessions at sports and similar facilities. The food is often prepared in a central unit.

This class includes:

- activities of food service contractors (e.g. for transportation companies)
- operation of food concessions at sports and similar facilities
- operation of canteens or cafeterias (e.g. for factories, offices, hospitals or schools) on a concession basis

This class excludes:

- manufacture of perishable food items for resale, see 1079
- retail sale of perishable food items, see division 47

5630 Beverage serving activities

This class includes the preparation and serving of beverages for immediate consumption on the premises.

This class includes activities of:

- bars
- taverns
- cocktail lounges
- discotheques (with beverage serving predominant)
- beer parlors and pubs
- coffee shops
- fruit juice bars
- mobile beverage vendors

This class excludes:

- reselling packaged/prepared beverages, see 4711, 4722, 4781, 4799
- operation of discotheques and dance floors without beverage serving, see 9329

Railway passenger transport

4911 Passenger rail transport, interurban

This class includes:

- passenger transport by inter-urban railways
- operation of sleeping cars or dining cars as an integrated operation of railway companies

This class excludes:

- passenger transport by urban and suburban transit systems, see 4921
- passenger terminal activities, see 5221
- operation of sleeping cars or dining cars when operated by separate units, see 5590, 5610

Road passenger transport

4922 Other passenger land transport

This class includes:

- other passenger road transport:
 - scheduled long-distance bus services
 - charters, excursions and other occasional coach services
 - taxi operation
 - airport shuttles
- operation of telfers (téléphériques), funiculars, ski and cable lifts if not part of urban or suburban transit systems

This class also includes:

- other renting of private cars with driver
- operation of school buses and buses for transport of employees
- passenger transport by man- or animal-drawn vehicles

This class excludes:

- ambulance transport, see 8690

Water passenger transport

5011 Sea and coastal passenger water transport

This class includes:

- transport of passengers over seas and coastal waters, whether scheduled or not:
 - operation of excursion, cruise or sightseeing boats
 - operation of ferries, water taxis etc.

This class also includes:

- renting of pleasure boats with crew for sea and coastal water transport (e.g. for fishing cruises)

CONCEPTUAL REFERENCES and TECHNICAL NOTES

This class excludes:

- restaurant and bar activities on board ships, when provided by separate units, see 5610, 5630
- operation of “floating casinos”, see 9200

5021 Inland passenger water transport

This class includes:

- transport of passenger via rivers, canals, lakes and other inland waterways, including inside harbours and ports

This class also includes:

- renting of pleasure boats with crew for inland water transport

Air passenger transport

5110 Passenger air transport

This class includes:

- transport of passengers by air over regular routes and on regular schedules
- charter flights for passengers
- scenic and sightseeing flights

This class also includes:

- renting of air-transport equipment with operator for the purpose of passenger transportation
- general aviation activities, such as:
 - transport of passengers by aero clubs for instruction or pleasure

Transport equipment rental

7710 Renting and leasing of motor vehicles

This class includes:

- renting and operational leasing of the following types of vehicles:
 - passenger cars (without drivers)
 - trucks, utility trailers and recreational vehicles

This class excludes:

- renting or leasing of vehicles or trucks with driver, see 4922, 4923
- financial leasing, see 6491

Travel agencies and other reservation service activities

7911 Travel agency activities

This class includes:

- activities of agencies primarily engaged in selling travel, tour, transportation and accommodation services to the general public and commercial clients

7912 Tour operator activities

This class includes:

- arranging and assembling tours that are sold through travel agencies or directly by tour operators. The tours may include any or all of the following:
 - transportation
 - accommodation
 - food
- visits to museums, historical or cultural sites, theatrical, musical or sporting events

7990 Other reservation service and related activities

This class includes:

- provision of other travel-related reservation services:
 - reservations for transportation, hotels, restaurants, car rentals, entertainment and sport etc.
- provision of time-share exchange services
- ticket sales activities for theatrical, sports and other amusement and entertainment events
- provision of visitor assistance services:
 - provision of travel information to visitors
 - activities of tourist guides
- tourism promotion activities

This class excludes:

- activities of travel agencies and tour operators, see 7911, 7912
- organization and management of events such as meetings, conventions and conferences, see 8230

Cultural activities

9000 Creative, arts and entertainment activities

This class includes the operation of facilities and provision of services to meet the cultural and entertainment interests of their customers. This includes the production and promotion of, and participation in, live performances, events or exhibits intended for public viewing; the provision of artistic, creative or technical skills for the production of artistic products and live performances.

This class includes:

- production of live theatrical presentations, concerts and opera or dance productions and other stage productions:
 - activities of groups, circuses or companies, orchestras or bands
 - activities of individual artists such as authors, actors, directors, musicians, lecturers or speakers, stage-set designers and builders etc.
- operation of concert and theatre halls and other arts facilities
- activities of sculptors, painters, cartoonists, engravers, etchers etc.
- activities of individual writers, for all subjects including fictional writing, technical writing etc.
- activities of independent journalists
- restoring of works of art such as paintings etc.

CONCEPTUAL REFERENCES and TECHNICAL NOTES

This class also includes:

- activities of producers or entrepreneurs of arts live events, with or without facilities

This class excludes:

- restoring of stained glass windows, see 2310
- manufacture of statues, other than artistic originals, see 2396
- restoring of organs and other historical musical instruments, see 3319
- restoring of historical sites and buildings, see 4100
- motion picture and video production, see 5911, 5912
- operation of cinemas, see 5914
- activities of personal theatrical or artistic agents or agencies, see 7490
- casting activities, see 7810
- activities of ticket agencies, see 7990
- operation of museums of all kinds, see 9102
- sports and amusement and recreation activities, see division 93
- restoring of furniture (except museum type restoration), see 9524

9102 Museums activities and operation of historical sites and buildings

This class includes:

- operation of museums of all kinds:
 - art museums, museums of jewellery, furniture, costumes, ceramics, silverware
 - natural history, science and technological museums, historical museums, including military museums
 - other specialized museums
 - open-air museums
- operation of historical sites and buildings

This class excludes:

- renovation and restoration of historical sites and buildings, see section F
- restoration of works of art and museum collection objects, see 9000
- activities of libraries and archives, see 9101

9103 Botanical and zoological gardens and nature reserves activities

This class includes:

- operation of botanical and zoological gardens, including children's zoos
- operation of nature reserves, including wildlife preservation, etc.

This class excludes:

- landscape and gardening services, see 8130
- operation of sport fishing and hunting preserves, see 9319

Sports and recreational activities

7721 Renting and leasing of recreational and sports goods

This class includes:

- renting of recreational and sports equipment:
 - pleasure boats, canoes, sailboats,
 - bicycles
 - beach chairs and umbrellas
 - other sports equipment
 - skis

This class excludes:

- renting of video tapes and disks, see 7722
- renting of other personal and household goods n.e.c., see 7729
- renting of leisure and pleasure equipment as an integral part of recreational facilities, see 9329

9200 Gambling and betting activities

This class includes:

- bookmaking and other betting operations
- off-track betting
- operation of casinos, including “floating casinos”
- sale of lottery tickets
- operation (exploitation) of coin-operated gambling machines
- operation of virtual gambling web sites

This class excludes:

- operation (exploitation) of coin-operated games, see 9329

9311 Operation of sports facilities

This class includes:

- operation of facilities for indoor or outdoor sports events (open, closed or covered, with or without spectator seating):
 - football, hockey, cricket, baseball, jai-alai stadiums
 - racetracks for auto, dog, horse races
 - swimming pools and stadiums
 - track and field stadiums
 - winter sports arenas and stadiums
 - ice-hockey arenas
 - boxing arenas
 - golf courses
 - bowling lanes
 - fitness centers
- organization and operation of outdoor or indoor sports events for professionals or amateurs by organizations with own facilities

This class includes managing and providing the staff to operate these facilities.

This class excludes:

- renting of recreation and sports equipment, see 7721
- operation of ski hills, see 9329
- park and beach activities, see 9329

CONCEPTUAL REFERENCES and TECHNICAL NOTES

9319 Other sports activities

This class includes:

- activities of producers or promoters of sports events, with or without facilities
- activities of individual own-account sportsmen and athletes, referees, judges, timekeepers etc.
- activities of sports leagues and regulating bodies
- activities related to promotion of sporting events
- activities of racing stables, kennels and garages
- operation of sport fishing and hunting preserves
- activities of mountain guides
- support activities for sport or recreational hunting and fishing

This class excludes:

- breeding of racing horses, see 0142
- renting of sports equipment, see 7721
- activities of sport and game schools, see 8541
- activities of sports instructors, teachers, coaches, see 8541
- organization and operation of outdoor or indoor sports events for professionals or amateurs by sports clubs with/without own facilities, see 9311, 9312
- park and beach activities, see 9329

- separate renting of leisure and pleasure equipment, see 7721
- operation (exploitation) of coin-operated gambling machines, see 9200
- activities of amusement parks and theme parks, see 9321

9321 Activities of amusement parks and theme parks

This class includes:

- activities of amusement parks or theme parks, including the operation of a variety of attractions, such as mechanical rides, water rides, games, shows, theme exhibits and picnic grounds

9329 Other amusement and recreation activities n.e.c.

This class includes:

- activities of recreation parks, beaches, including renting of facilities such as bathhouses, lockers, chairs etc.
- operation of recreational transport facilities, e.g. marinas
- operation of ski hills
- renting of leisure and pleasure equipment as an integral part of recreational facilities
- operation of fairs and shows of a recreational nature
- operation of discotheques and dance floors
- operation (exploitation) of coin-operated games
- other amusement and recreation activities (except amusement parks and theme parks) not elsewhere classified

This class also includes:

- activities of producers or entrepreneurs of live events other than arts or sports events, with or without facilities

This class excludes:

- fishing cruises, see 5011, 5021
- provision of space and facilities for short stay by visitors in recreational parks and forests and campgrounds, see 5520
- beverage serving activities of discotheques, see 5630
- trailer parks, campgrounds, recreational camps, hunting and fishing camps, campsites and campgrounds, see 5520

<http://statistics.unwto.org/fr/content/recommandations-internationales-2008-sur-les-statistiques-du-tourisme-rist-2008>

1. Tourisme récepteur

Le tourisme récepteur comprend les activités d'un visiteur non résident dans les limites du pays de référence, dans le cadre d'un voyage de tourisme récepteur. Les dépenses correspondantes sont recensées comme dépenses du tourisme récepteur.

Données

Arrivées

Les données concernant les *arrivées* mesurent les flux de visiteurs internationaux dans le pays de référence: chaque arrivée correspond à un voyage de tourisme récepteur. Si une personne se rend dans plusieurs pays à l'occasion d'un seul voyage, chaque arrivée dans un pays est comptabilisée séparément. Sur une période comptable, le nombre d'arrivées n'est pas forcément égal au nombre de personnes qui voyagent (quand une personne se rend dans un même pays plusieurs fois par an, chacun de ses voyages est comptabilisé comme une arrivée).

Les données concernant les *arrivées* doivent correspondre aux *visiteurs du tourisme récepteur* et inclure aussi bien les touristes que les visiteurs de la journée non résidents. Tous les autres types de voyageurs (comme les travailleurs frontaliers, les saisonniers et les autres personnes ayant un contrat de travail à court terme, les étudiants à long terme, etc.) doivent être exclus étant donné qu'ils n'entrent pas dans la catégorie des visiteurs.

Les données proviennent de différentes sources: dossiers administratifs (immigration, comptage de la circulation et autres types de contrôles), enquêtes aux frontières, ou une combinaison de tout cela. Si l'on dispose de données provenant d'enquêtes sur l'hébergement, le nombre de clients est utilisé pour estimer le nombre d'arrivées; dans ce cas, la ventilation par région, motif principal du voyage, moyens de transport utilisés ou modes d'organisation du voyage se base sur des enquêtes complémentaires auprès des visiteurs.

Les arrivées sont ventilées en fonction de cinq caractéristiques dont deux appellent des commentaires :

- Type de visiteurs (points 1.1 à 1.4 du **Compendium**). Les données ne sont pas ventilées lorsqu'un pays ne peut distinguer un touriste d'un excursionniste.
- Régions (points 1.5 à 1.13 du **Compendium**). Le concept sous-jacent de base est que le pays associé à l'arrivée doit être le pays de résidence. Certains pays n'acceptent pas les recommandations de l'OMT et classent leurs ressortissants qui résident à l'étranger dans une catégorie distincte au lieu de les considérer comme résidents des pays en question (point 1.13 du **Compendium**).

Le *motif principal* d'un voyage se définit comme le motif en l'absence duquel le voyage n'aurait pas eu lieu. On applique la classification suivante :

1. Motifs personnels
 - 1.1. Vacances, loisirs et détente
 - 1.2. Visites aux amis et à la famille
 - 1.3. Éducation et formation
 - 1.4. Santé et soins médicaux
 - 1.5. Religion/pèlerinages
 - 1.6. Achats
 - 1.7. Transit
 - 1.8. Autres
2. Affaires et motifs professionnels

L'Annuaire des statistiques du tourisme de l'OMT contient des informations complémentaires et précise la répartition des arrivées par pays d'origine :

- **Tableau 1 :**
Arrivées aux frontières nationales de visiteurs non résidents qui passent la nuit (touristes)
- **Tableau 2 :**
Arrivées aux frontières nationales de visiteurs non résidents (visiteurs qui passent la nuit [touristes] et visiteurs de la journée [excursionnistes])

Hébergement

Le terme « hébergement » renvoie à des services fournis aux visiteurs par des établissements commerciaux. La catégorie la plus importante est généralement celle des « hôtels et établissements assimilés » recensée dans les CITI, Rev. 4, à la classe 5510: « Activités d'hébergement temporaire ».

Les nuitées renvoient au nombre de nuits passées par les visiteurs non résidents (voyageurs du tourisme récepteur).

RÉFÉRENCES CONCEPTUELLES et NOTES TECHNIQUES

L'Annuaire des statistiques du tourisme de l'OMT contient des informations complémentaires et précise la répartition des arrivées et des nuitées par pays d'origine :

- **Tableau 3 :**
Arrivées de visiteurs non résidents qui passent la nuit (touristes) dans des « hôtels et établissements assimilés »
- **Tableau 4 :**
Arrivées de visiteurs non résidents qui passent la nuit (touristes) dans tous les types d'établissements offrant des services d'hébergement pour les visiteurs
- **Tableau 5 :**
Nuitées de visiteurs non résidents (touristes) dans des « hôtels et établissements assimilés »
- **Tableau 6 :**
Nuitées de visiteurs non résidents (touristes) dans tous les types d'établissements offrant des services d'hébergement pour les visiteurs

Dépenses

Les dépenses associées à l'activité des visiteurs internationaux ont jusqu'à présent été tirées du poste voyages de la balance des paiements : pour le tourisme récepteur, les dépenses associées aux visiteurs du tourisme récepteur sont enregistrées comme « crédits » dans la balance des paiements et renvoient aux « recettes des voyages ».

Selon les *Recommandations internationales 2008 sur les statistiques du tourisme*, les « industries et produits touristiques » incluent le transport de passagers. Dans la balance des paiements, il faudrait donc, pour obtenir une estimation plus exacte des dépenses touristiques faites par les visiteurs du tourisme récepteur et du tourisme émetteur au niveau international, ajouter à la valeur du poste voyages celle du poste transport de passagers.

Toutefois, les utilisateurs devraient savoir que les estimations de la balance des paiements incluent, outre les dépenses associées aux visiteurs, celles liées à d'autres types de voyageurs (qui peuvent être importantes dans certains pays, par exemple dans ceux accueillant de nombreux étudiants ou patients de longue durée, travailleurs frontaliers ou saisonniers, etc.).

Les données relatives aux dépenses selon le *motif principal du voyage* sont également des données de la balance des paiements.

Les données publiées correspondent à celles diffusées par le Fonds monétaire international (FMI) (et fournies par les banques centrales). Les données relatives aux dépenses pour le tourisme récepteur et le tourisme émetteur proviennent du CD-ROM de statistiques de la balance des paiements du Fonds monétaire international (FMI).

En cas de divergence importante avec les données fournies à l'OMT par les administrations nationales du tourisme (ANT) pour la préparation du présent Compendium, les données des ANT figurent séparément dans les « notes du pays ».

Indicateurs

Taille moyenne du groupe de voyageurs

Un groupe de voyageurs se définit comme un ensemble de visiteurs qui réalisent ensemble un voyage et dont les dépenses sont mises en commun. La taille moyenne des groupes de voyageurs permet de procéder à une estimation du nombre total de voyages des visiteurs internationaux, estimation utile pour le marketing et la formulation de politiques.

Durée moyenne du séjour

Tous ces indicateurs renvoient à la durée des voyages à l'étranger des visiteurs internationaux (exprimés en nombre de jours ou de nuits).

La durée moyenne totale du séjour renvoie aux services d'hébergement commerciaux et non commerciaux fournis aux visiteurs, ainsi qu'à d'autres types de séjours.

Attendu qu'un visiteur non résident peut utiliser plusieurs installations d'hébergement pendant son séjour, le total ne peut être estimé qu'en utilisant les informations recueillies dans le cadre des enquêtes aux frontières ou en vérifiant les dates des cartes d'arrivée et de départ d'un échantillon (ou de l'ensemble) de visiteurs.

Dépenses moyennes par jour

Cet indicateur se réfère aux dépenses totales de l'ensemble des visiteurs divisées par le nombre total de jours passés, calculées sur la base d'enquêtes menées auprès des visiteurs.

2. Tourisme interne

Le tourisme interne comprend les activités d'un visiteur résident dans les limites du pays de référence (dans le cadre d'un voyage de tourisme interne ou d'un voyage de tourisme émetteur).

Les dépenses correspondantes de ce visiteur dans l'économie de référence sont recensées comme dépenses de tourisme interne. En outre, les dépenses des visiteurs du tourisme émetteur relatives aux produits fournis par des entreprises résidentes sont incluses dans les dépenses internes.

Données

Les voyages effectués par les visiteurs sont des voyages touristiques. Un voyage de tourisme interne désigne le voyage d'un visiteur à partir du moment où il quitte son lieu de résidence habituelle jusqu'à son retour : il s'agit d'un voyage aller-retour.

Le terme « hébergement » renvoie à des services fournis aux visiteurs par des établissements commerciaux. La catégorie la plus importante est généralement celle des « hôtels et établissements assimilés » recensée dans les CITI, Rev. 4, à la classe 5510 : « Activités d'hébergement temporaire ».

RÉFÉRENCES CONCEPTUELLES et NOTES TECHNIQUES

Les *nuitées* renvoient au nombre de nuits passées par les visiteurs résidents (voyageurs du tourisme interne). Il y a lieu de privilégier, comme source de données, les enquêtes sur l'hébergement (adressées aux établissements).

Indicateurs

Durée moyenne du séjour

La durée moyenne totale du séjour renvoie aux services d'hébergement commerciaux et non commerciaux fournis aux visiteurs, ainsi qu'à d'autres types de séjours.

Les données totales ne peuvent être estimées que grâce à des enquêtes menées auprès des ménages.

Dépenses moyennes par jour

Cet indicateur se réfère aux dépenses totales divisées par le nombre total de jours passés, calculées sur la base d'enquêtes menées auprès des visiteurs.

3. Tourisme émetteur

Le tourisme émetteur désigne les activités d'un visiteur résident hors du pays de référence (dans le cadre d'un voyage du tourisme émetteur ou d'un voyage de tourisme interne). Les dépenses correspondantes sont recensées comme dépenses du tourisme émetteur.

Données

Les données concernant les *départs* mesurent les flux de visiteurs résidents qui quittent le pays de référence. Le nombre de départs n'est pas forcément égal au nombre d'arrivées déclarées par les destinations internationales pour le pays de référence.

Les dépenses associées à l'activité des visiteurs ont jusqu'à présent été tirées du poste voyages de la balance des paiements : pour le tourisme émetteur, les dépenses associées aux visiteurs résidents sont enregistrées comme « débits » dans la balance des paiements et renvoient aux « dépenses de voyages ». Comme dans le cas du *tourisme récepteur*, on utilise les données de la balance des paiements.

Selon les *Recommandations internationales 2008 sur les statistiques du tourisme*, les « industries et produits touristiques » incluent le transport de passagers. Dans la balance des paiements, il faudrait donc, pour obtenir une estimation plus exacte des dépenses touristiques faites par les visiteurs résidents et non résidents au niveau international, ajouter à la valeur du poste voyages celle du poste transport de passagers.

Toutefois, les utilisateurs devraient savoir que les estimations de la balance des paiements incluent, outre les dépenses associées aux visiteurs, celles liées à d'autres types de voyageurs.

Les données relatives aux dépenses selon le *motif principal* du voyage sont également des données de la balance des paiements.

Les données publiées correspondent à celles diffusées par le Fonds monétaire international (FMI) (et fournies par les banques centrales) ; en cas de divergence importante avec les données fournies à l'OMT par les administrations nationales du tourisme (ANT) pour la préparation du présent Compendium, les données des ANT seront données séparément dans les « notes du pays ». Pour de plus amples informations sur les notes de pays du FMI, veuillez consulter le paragraphe concernant les dépenses pour le tourisme récepteur.

Des informations complémentaires sur « les voyages à l'étranger des visiteurs résidents vers les pays de destination » sont disponibles à l'adresse suivante : www.e-unwto.org/home/main.mpx. Il y a lieu de préciser que les informations données dans les tableaux sont basées sur les données fournies par chaque pays de destination et qu'elles correspondent donc aux arrivées dans ces pays.

Indicateurs

Durée moyenne du séjour

Cet indicateur renvoie à la durée des voyages à l'étranger des visiteurs du tourisme émetteur (exprimée en nombre de jours) et reflète la moyenne totale, établie sur la base d'enquêtes aux frontières et/ou d'informations fournies par les ménages.

Dépenses moyennes par jour

Cet indicateur se réfère aux dépenses totales divisées par le nombre total de jours passés, calculées sur la base d'enquêtes aux frontières et/ou d'informations fournies par les ménages.

4. Industries touristiques

L'expression *industries touristiques* désigne les industries qui produisent généralement des produits caractéristiques du tourisme ; elle équivaut à l'expression plus courante de « secteur touristique ». Ces industries sont recensées ci-dessous :

1. Hébergement des visiteurs
2. Activités de services de restauration et de consommation de boissons
3. Transport de voyageurs par chemin de fer
4. Transport routier de voyageurs
5. Transport de voyageurs par voies navigables
6. Transport de voyageurs par voie aérienne
7. Location de matériels de transport
8. Activités des agences de voyages et autres activités de services de réservation
9. Activités culturelles
10. Activités sportives et récréatives
11. Commerce de détail de biens caractéristiques du tourisme, propres à chaque pays
12. Autres activités caractéristiques du tourisme, propres à chaque pays

RÉFÉRENCES CONCEPTUELLES et NOTES TECHNIQUES

Les notes explicatives suivantes se réfèrent aux industries *Hébergement des visiteurs* et *Activités des agences de voyages et autres activités de services de réservation*, qui sont les deux seules industries pour lesquelles des données monétaires et non monétaires sont publiées dans le présent Compendium.

Ces notes, qui peuvent être consultées à l'annexe 4, sont tirées de la *Classification internationale type, par industrie, de toutes les branches d'activité économique (CITI), Rev. 4. Études statistiques (Série M, N° 4/Rev.4), Nations Unies. New York, 2008.*

Hébergement des visiteurs

Le nombre d'établissements de l'industrie d'*Hébergement des visiteurs* (point 4.2. du Compendium) renvoie à tous les types d'établissements qui offrent des services d'hébergement aux visiteurs sur une base commerciale (de marché), c'est-à-dire moyennant rémunération. Par conséquent, les données doivent comprendre toutes les classes suivantes de l'ISIC :

5510 Activités d'hébergement temporaire

Cette classe figure dans la section 4 du Compendium sous le titre « Hébergement des visiteurs dans des hôtels et des établissements assimilés » et couvre les activités d'hébergement, généralement assuré à la journée ou à la semaine, essentiellement à l'intention de visiteurs pour des séjours temporaires. Il s'agit d'hébergement dans des chambres d'hôtes meublées, ou de plusieurs pièces attenantes ou encore d'appartements avec cuisine, avec ou sans services quotidiens de ménage, et pouvant souvent comprendre une gamme de services complémentaires tels que des services de repas et de boissons, de garage, de lessive, de piscines et de gymnastique, ainsi que installations récréatives et des salles de réunions et de conférences.

Cette classe comprend la fourniture d'hébergement temporaire assuré par les établissements suivants :

- hôtels
- centres de villégiature
- hôtels offrant des suites/appartements
- motels
- hôtels pour automobilistes
- chambres d'hôtes
- pensions
- foyers assurant gîte et couvert
- appartements et bungalows
- établissements d'hébergement en multipropriété
- maisons de vacances
- chalets, cottages et maisonnettes
- auberges de jeunesse et refuges de montagne

Exclusions :

- fourniture de maisons ou d'appartements meublés ou non meublés pour de plus longues durées, généralement sur une base mensuelle ou annuelle, voir division 68

5520 Terrains de camping, parcs pour véhicules de loisirs et caravanes

Cette classe comprend les activités suivantes :

- fourniture d'installations d'hébergement telles que terrains de camping, terrains de caravanage, parcs de loisirs, d'espaces de chasse et de pêche à l'intention de visiteurs temporaires
- fourniture d'espaces et d'installations pour les véhicules de loisirs.

Cette classe couvre en outre des lieux d'hébergement tels que :

- abris protecteurs ou aires de campement pour dresser des tentes et/ou installer des sacs de couchage

5590 Autres activités d'hébergement

Cette classe comprend la fourniture d'hébergement temporaire ou à plus long terme dans une seule pièce ou en salles communes ou dortoirs pour étudiants, travailleurs migrants (saisonniers) et autres personnes.

Cette classe comprend la fourniture de logement assurée par les entités suivantes :

- résidences d'étudiants
- dortoirs de pensionnats
- foyers pour travailleurs
- pensions
- voitures-lits de chemins de fer

6810 Activités immobilières sur biens propres ou loués

Cette classe comprend les activités suivantes :

- achat, vente, location et exploitation de biens immobiliers propres ou loués :
 - immeubles résidentiels et habitations
 - bâtiments non résidentiels, y compris les halls d'exposition, les installations d'entreposage pour particuliers, les galeries marchandes et les centres commerciaux
 - terrains
- fourniture de maisons individuelles et d'appartements meublés et non meublés pour une utilisation plus permanente généralement sur une base mensuelle ou annuelle

Cette classe comprend en outre les activités suivantes :

- mise en œuvre de projets de construction immobilière pour compte propre en vue, par exemple, de locations dans ces immeubles
- subdivision de biens immobiliers en lotissements, sans viabilisation de terrains
- exploitation d'emplacements pour caravanes

Exclusions :

- mise en œuvre de projets de construction immobilière dans un but de vente, voir 4100
- subdivision et viabilisation de terrains, voir 4290
- exploitation d'hôtels, appartements en hôtel et lieux d'hébergement analogues, voir 5510
- exploitation de terrains de camping, de parcs pour caravanes et autres lieux d'hébergement, voir 5520
- exploitation de foyers de travailleurs, de maisons meublées et autres lieux d'hébergement, voir 5590

RÉFÉRENCES CONCEPTUELLES et NOTES TECHNIQUES

6820 Activités immobilières à forfait ou sous contrat

Cette classe couvre la prestation d'activités dans le domaine de l'immobilier, à forfait ou sous contrat, y compris les services connexes

Cette classe comprend les activités suivantes :

- activités des agents et courtiers immobiliers
- intermédiation en matière d'achat, vente et location immobilière à forfait ou sous contrat
- gestion de biens immobiliers à forfait ou sous contrat
- services d'évaluation pour l'immobilier
- activités des dépositaires légaux en matière immobilière

Exclusions :

- activités juridiques, voir 6910
- services d'appui aux installations, voir 8110
- gestion d'installations, par exemple les bases militaires, les prisons, etc. (sauf la gestion d'installations informatiques), voir 8110

Activités des agences de voyages et autres activités de services de réservation

7911 Activités des agences de voyages

Cette classe comprend les activités suivantes :

- activités d'agences dont le rôle principal est de vendre des voyages, des excursions, des services de transport et d'hébergement au grand public et à des clients commerciaux.

7912 Activités des voyagistes

Cette classe comprend les activités suivantes :

- organisation et groupement d'excursions vendues par l'intermédiaire d'agences de voyage ou directement par des voyagistes. Les excursions peuvent inclure toutes ou partie des activités suivantes :
 - transport
 - hébergement
 - restauration
 - visites de musées, de sites historiques ou culturels, théâtre, événements musicaux ou sportifs

7990 Autres activités de services de réservation et activités connexes

Cette classe comprend les activités suivantes :

- fourniture d'autres services de réservation relatifs aux voyages :
 - réservations dans les moyens de transport, les hôtels, les restaurants, location de voitures, spectacles et événements sportifs, etc.
- fourniture de services en multipropriété
- vente de billets pour le théâtre, les événements sportifs et spectacles divers
- fourniture de services d'assistance aux visiteurs :
 - fourniture de renseignements concernant les voyages
 - activités de guides touristiques
- activités de promotion du tourisme

Exclusions :

- activités d'agences de voyage et de voyagistes, voir 7911, 7912
- organisation et gestion d'événements tels que réunions, congrès et conférences, voir 8230

Données

Concernant le *nombre d'établissements*, le point 4.3 du Compendium inclut les établissements associés aux classes 5520, 5590, 6810 et 6820 (voir plus haut les notes explicatives pour l'hébergement des visiteurs).

Le nombre de *chambres* et de *places-lits* se réfère à la capacité des « hôtels et établissements assimilés » de fournir un hébergement temporaire aux visiteurs.

Indicateurs

Les trois premiers indicateurs se basent sur le nombre total de nuitées des touristes résidents et non résidents dans des hôtels et établissements assimilés.

Le *taux d'occupation* se réfère au rapport entre la capacité existante de fournir des services d'hébergement aux visiteurs et le degré d'utilisation de ces services. Ce taux peut se référer à l'utilisation soit des chambres soit des places-lits.

La *capacité disponible* renvoie au nombre de places-lits dans les hôtels et établissements similaires pour 1 000 habitants de la population résidente permanente du pays de référence. Les données sont attribuées par l'OMT lorsqu'elles ne sont pas fournies par le pays.

5. Emploi

Les personnes qui travaillent dans les industries touristiques peuvent être des *employés* (personnes qui travaillent pour une entreprise moyennant une rémunération en espèces ou en nature, selon ce qui a été convenu) ou des *travailleurs indépendants* (personnes qui travaillent à leur compte, ont un « travail indépendant » et n'ont engagé de manière continue aucun « employé » durant la période de référence).

Certains employés peuvent avoir plusieurs postes de travail ; par conséquent, le nombre de postes de travail (du côté de la demande) et le nombre de personnes employées (du côté de l'offre) ne sont pas des catégories similaires et en général elles ne coïncident pas.

L'intensité du travail peut varier selon le poste, l'industrie ou la période. Les postes de travail peuvent être différents selon le temps de travail des personnes employées et donc être exprimés en termes d'emplois à temps plein ou à temps partiel. C'est pourquoi il ne suffit pas de disposer de données sur le nombre de postes de travail ou de personnes employées pour avoir des informations sur le volume du travail accompli durant une période déterminée (par exemple, un mois ou un an). Des données sur le nombre total d'heures de travail seront nécessaires. Enfin, si l'on convertit tous les postes de travail en emploi à plein temps équivalent ou en nombre total

RÉFÉRENCES CONCEPTUELLES et NOTES TECHNIQUES

d'heures travaillées par an, on pourra obtenir le volume total du travail d'une industrie touristique donnée pour une période donnée.

Les chiffres concernant le « Nombre d'emplois par situation dans la profession » et le « Nombre d'emplois équivalents plein temps par situation dans la profession » doivent renvoyer aux industries touristiques.

6. Indicateurs complémentaires

Ces indicateurs proviennent de la balance des paiements, des comptes nationaux et des statistiques du tourisme.

Demande

La propension brute à voyager mesure le nombre de voyages du tourisme émetteur et du tourisme interne au regard du total de la population résidente permanente du pays de référence. Des valeurs élevées de cet indicateur indiquent une grande fréquence des voyages et traduisent la mobilité actuelle de la population voyageant.

L'indicateur « arrivées/population » donne une estimation de l'intensité touristique dans le pays de référence. Cet indicateur est calculé par l'OMT d'après les données de base disponibles concernant le tourisme récepteur et le tourisme interne, pouvant être le nombre de visiteurs (code 1.1 pour le tourisme récepteur et 2.1 pour le tourisme interne) ou le nombre de touristes (code 1.2 pour le tourisme récepteur et 2.2 pour le tourisme interne). Le calcul est fait à l'aide des formules suivantes, indiquées par ordre de préférence, en tenant compte des données de base disponibles pour le pays de référence :

- (1.2 touristes d'entrée + 2.2 touristes internes) / population
- (1.2 touristes d'entrée + 2.1 visiteurs internes) / population
- (1.2 touristes d'entrée) / population
- (1.1 Visiteurs d'entrée + 2.1 Visiteurs internes) / population
- (1.1 Visiteurs d'entrée + 2.2 touristes internes) / population
- (1.1 Visiteurs d'entrée) / population

Les données relatives à la population correspondent à celles publiées par le Fonds monétaire international (FMI), la Banque mondiale ou, à défaut, par le bureau national de statistique du pays de référence.

À chaque nouvelle édition du Compendium, la formule sera adaptée en fonction des données de base disponibles pour la période de référence (5 ans).

Indicateurs macroéconomiques liés au tourisme international

Les indicateurs se fondent sur les *Statistiques de la balance des paiements* et les *Statistiques financières internationales* du Fonds monétaire international.

Ces indicateurs, et d'autres indicateurs complémentaires, constituent un système préliminaire très simple d'évaluation de la contribution économique du tourisme à l'économie nationale. Ils sont précieux du fait qu'ils sont généralement disponibles dans la plupart des pays, que l'on peut les

comparer sur le plan international et les rapprocher d'autres indicateurs économiques.

Il y a lieu de remarquer que le terme « dépenses » est utilisé de la même manière dans le tourisme récepteur et le tourisme émetteur pour indiquer la somme payée pour l'acquisition de biens et de services de consommation, mais aussi de biens de valeur, en vue de leur usage personnel ou pour les offrir, pour et durant des voyages touristiques. Les visiteurs étrangers dans le pays de référence réalisent des dépenses de tourisme récepteur (crédits dans la balance des paiements), tandis que les visiteurs résidents présents dans des pays étrangers réalisent des dépenses du tourisme émetteur (débits dans la balance des paiements).

Dépenses du tourisme récepteur sur PIB

Elles reflètent le poids des dépenses des visiteurs du tourisme récepteur en tant qu'élément de la valeur totale de l'activité économique dans l'économie de référence. Du point de vue du commerce international, cet indicateur rend compte de l'importance économique des rentrées de devises associées aux dépenses de ces visiteurs.

Dépenses du tourisme émetteur sur PIB

Elles reflètent l'importance des dépenses à l'étranger des visiteurs du tourisme émetteur au regard de l'économie nationale. Du point de vue du commerce international, cet indicateur rend compte de l'importance économique des sorties de revenus nationaux attribuables à ces visiteurs.

Balance des paiements du tourisme sur PIB

Elle rend compte de l'importance économique des dépenses nettes du tourisme (récepteur moins émetteur) pour l'économie de référence. Un excédent ou un déficit important affecte la balance commerciale du pays, et par conséquent son PIB.

Ouverture touristique

Elle montre l'importance de la somme des dépenses touristiques transfrontalières (c'est-à-dire du tourisme international, la somme des dépenses du tourisme récepteur et émetteur) pour l'économie de référence. Cet indicateur pourrait également être utilisé pour mesurer le flux libre de tourisme entre le pays de référence et le reste du monde.

Couverture touristique

Elle rend compte de la proportion entre les dépenses du tourisme récepteur et les dépenses du tourisme émetteur pour montrer dans quelle mesure les influx de revenus étrangers couvrent les sorties de revenus nationaux. Une valeur supérieure à 100 signifie que le tourisme récepteur finance indirectement plus que toutes les dépenses des visiteurs du tourisme émetteur, tandis qu'une valeur inférieure à 100 signifie que le tourisme récepteur ne couvre pas les dépenses que font les visiteurs résidents à l'étranger.

RÉFÉRENCES CONCEPTUELLES et NOTES TECHNIQUES

Dépenses du tourisme récepteur sur exportations de biens

Dépenses du tourisme récepteur sur exportations de services

Dépenses du tourisme récepteur sur exportations de biens et de services

Ces trois indicateurs reflètent l'importance du tourisme en tant que service dont le commerce s'effectue à l'échelle internationale par rapport à d'autres catégories d'exportations. En même temps, ils révèlent le degré de spécialisation touristique de la structure des exportations d'un pays, et la capacité relative du tourisme de générer des devises.

Dépenses du tourisme récepteur sur crédits du compte courant

Les crédits du compte courant de la balance des paiements se réfèrent à tous les afflux de biens et de services, de revenus et de transferts courants dans une économie. Plus la part occupée par le tourisme dans cet ensemble est grande, plus l'activité touristique est importante en tant que génératrice d'afflux de devises.

Dépenses du tourisme émetteur sur importations de biens

Dépenses du tourisme émetteur sur importations de services

Dépenses du tourisme émetteur sur importations de biens et de services

Ces trois indicateurs reflètent l'importance du tourisme en tant que service dont le commerce s'effectue à l'échelle internationale par rapport à d'autres catégories d'importations. En même temps, ils montrent la prédilection pour le tourisme de la structure des importations d'un pays et le degré relatif de sorties de revenus nationaux d'une économie résultant du tourisme international.

Dépenses du tourisme émetteur sur débits des comptes courants

Les débits du compte courant de la balance des paiements se réfèrent à toutes les sorties de biens, de services, de revenus et de transferts courants d'un pays vers le reste du monde. Plus la part du tourisme dans cet ensemble est grande, plus l'activité touristique occupe une place importante dans la fuite de revenus nationaux.

RÉFÉRENCES CONCEPTUELLES et NOTES TECHNIQUES

Annexe 1 Système national de statistiques du tourisme et comparabilité internationale

La structure du [Compendium des statistiques du tourisme](#) se fonde sur le système suivant qui renvoie au cadre d'informations de base des systèmes nationaux de statistiques du tourisme à des fins de comparabilité internationale (<http://statistics.unwto.org/sites/all/files/docpdf/ststext.pdf>).

Les *Recommandations internationales 2008 sur les statistiques du tourisme* (RIST 2008) constituent le cadre conceptuel de ce noyau essentiel de données et d'indicateurs.

Comparabilité internationale et statistiques du tourisme : le cadre d'informations de base

I. Cadre conceptuel

Concepts	Unités d'observation	Principales caractéristiques connexes		
Visiteur	Visiteur	Classes : Visiteur qui passe la nuit (touriste), visiteur de la journée (excursionniste) Pays de résidence/régions		
	Groupe de voyageurs	Taille		
Voyage	Voyage touristique	Motif principal		
		Durée		
		Destination principale		
		Modes de transport		
		Types d'hébergement utilisés

4. Autres classifications

III. Tableaux de résultats

1. Tourisme récepteur
2. Tourisme interne
3. Tourisme émetteur
4. Industries touristiques
5. Emploi
6. Indicateurs complémentaires

Annexe 2 Comprendre le tourisme : glossaire de base

Cette annexe reprend certains concepts clés qu'elle définit conformément aux nouvelles *RIST 2008*.
<http://statistics.unwto.org/en/content/international-recommendations-tourism-statistics-2008-irts-2008>

Un glossaire plus complet et récemment actualisé des termes touristiques est disponible uniquement en anglais :
<https://statistics.unwto.org/sites/all/files/docpdf/glossaryterms.pdf>

Activités/produits caractéristiques du tourisme

Les *activités* caractéristiques du tourisme désignent les activités productives dont la production principale est caractéristique du tourisme.
Les *produits caractéristiques du tourisme* sont ceux qui remplissent au moins une des deux conditions suivantes :
Les dépenses touristiques concernant le produit (bien ou service) doivent représenter une part importante des dépenses touristiques totales (condition relative à la part correspondant aux dépenses/demande);
Les dépenses touristiques concernant le produit doivent représenter une part importante de l'offre du produit dans l'économie (condition relative à la part correspondant à l'offre). Cette condition suppose que la fourniture d'un produit caractéristique du tourisme serait susceptible de cesser d'exister en quantité significative en cas d'absence de visiteurs.

Dépenses touristiques

Les *dépenses touristiques* renvoient à la somme payée pour l'acquisition de biens et de services de consommation, mais aussi de biens de valeur, en vue de leur usage personnel ou pour les offrir, pour et durant des voyages touristiques.

Emploi dans les industries touristiques

L'*emploi dans les industries touristiques* peut être mesuré en effectuant le dénombrement des personnes employées dans les industries touristiques, quel que soit leur poste de travail, le dénombrement des personnes ayant leur emploi principal dans les industries touristiques, ou le dénombrement des postes de travail dans les industries touristiques.

Environnement habituel

L'*environnement habituel* d'une personne, concept clé du tourisme, se définit comme la zone géographique (pas forcément contiguë) à l'intérieur de laquelle une personne mène ses activités quotidiennes habituelles.

Groupe de voyageurs

Un *groupe de voyageurs* se définit comme un ensemble de visiteurs qui réalisent ensemble un voyage et dont les dépenses sont mises en commun.

Industries touristiques

Les *industries touristiques* désignent tous les établissements dont l'activité productive principale est une activité caractéristique du tourisme.

Lieu de résidence habituelle

Le *lieu de résidence habituelle* est le lieu géographique où le visiteur réside habituellement, et se définit par l'endroit de son lieu d'habitation principal (Principes et recommandations pour les recensements de la population et de l'habitation, Nations Unies).

Maison de vacances

Une *maison de vacances* est une habitation secondaire où se rendent les membres du ménage essentiellement à des fins récréatives, pour des vacances ou toute autre forme de loisir.

Motif (principal) d'un voyage touristique

Le *motif principal d'un voyage touristique* se définit comme le motif en l'absence duquel le voyage n'aurait pas eu lieu. La classification des voyages touristiques en fonction du motif principal du voyage se réfère à neuf catégories : cette typologie permet d'identifier différents sous-ensembles de visiteurs (visiteurs en voyages d'affaires, visiteurs en transit, etc.).

Tourisme émetteur

Comprend les activités d'un visiteur résident hors du pays de référence, dans le cadre d'un voyage du tourisme émetteur ou d'un voyage de tourisme interne.

RÉFÉRENCES CONCEPTUELLES et NOTES TECHNIQUES

Tourisme interne	Comprend les activités d'un visiteur résident dans les limites du pays de référence, dans le cadre d'un voyage de <i>tourisme interne</i> ou d'un voyage du tourisme émetteur.
Tourisme récepteur	Comprend les activités d'un visiteur non résident dans les limites du pays de référence, dans le cadre d'un voyage du <i>tourisme récepteur</i> .
Touriste (ou visiteur qui passe la nuit) et excursionniste (visiteur de la journée)	Un <i>visiteur</i> (du tourisme interne, récepteur ou émetteur) est qualifié de <i>touriste</i> (ou visiteur qui passe la nuit) s'il passe une nuit sur place, et de <i>touriste de la journée</i> (ou excursionniste) dans le cas contraire.
Visite	Un voyage se compose de <i>visites</i> effectuées à différents endroits. L'expression « visite touristique » fait référence à un séjour dans un endroit visité durant un voyage touristique.
Visiteur	Un <i>visiteur</i> est une personne qui se déplace vers une destination située en dehors de son environnement habituel, pour une durée inférieure à un an, et dont le motif de la visite (affaires, loisirs ou autre motif personnel) est autre que celui d'exercer une activité rémunérée dans le pays ou le lieu visité.
Visiteur interne	Une personne qui se rend dans un lieu situé dans son pays de résidence est un <i>visiteur interne</i> et ses activités s'inscrivent dans le cadre du tourisme interne.
Voyage	Un <i>voyage</i> désigne le déplacement d'une personne depuis le moment où elle quitte son lieu de résidence habituelle jusqu'à son retour: il s'agit donc d'un voyage aller-retour. Les voyages des visiteurs sont des voyages touristiques.
Voyage / Tourisme	Le terme « voyage » désigne les activités des voyageurs. Un voyageur est une personne qui se déplace entre différents lieux géographiques pour quelque motif et durée que ce soit. Le visiteur est un type particulier de voyageur, de sorte que le <i>tourisme</i> est un sous-ensemble des voyages.

Annexe 3

Trouver le tourisme dans les classifications internationales types

L'importance du tourisme et la nécessité de définir et de mesurer son importance au sein du système de statistique des Nations Unies a été reconnue par la Commission de statistique de l'ONU avec l'approbation en 1993 des Recommandations sur les statistiques du tourisme. Ladite Commission a approuvé en 2008 la version révisée de ces recommandations, intitulée *Recommandations internationales 2008 sur les statistiques du tourisme* (RIST 2008).

Pour étudier la contribution économique du tourisme à l'économie nationale, il était nécessaire d'intégrer l'analyse économique du tourisme dans le cadre de référence du Système de comptabilité nationale (le SCN 1993). Cela a conduit à l'approbation, en 2000, par la Commission de statistique de l'ONU du « Compte satellite du tourisme: Recommandations concernant le cadre conceptuel », qui a été actualisé par la suite en tant que « Compte satellite du tourisme: Recommandations concernant le cadre conceptuel 2008 » (CST: RCC 2008).

Les concepts, définitions et classifications contenus dans les RIST 2008 ont été harmonisés avec le CST:RCC 2008, lequel a été harmonisé à son tour avec le Système de comptabilité nationale de 2008, la balance des paiements et le commerce international de services.

Pour le tourisme, il est intéressant de recenser les produits achetés par les visiteurs, directement et indirectement, et les activités qui en sont à l'origine. Les classifications utilisées pour les activités et les produits détaillés requis dans l'étude du tourisme sont tirées directement des classifications de référence des Nations Unies, et y sont liées: CITI et CPC.

L'analyse du tourisme est axée sur le visiteur. Dans un premier temps, il est intéressant de mesurer les dépenses des visiteurs et de recenser les produits, tant les biens que les services, achetés par les visiteurs, ainsi que les activités qui sont à l'origine de ces produits. Dans un cadre macroéconomique, comme celui du CST, le concept de tourisme englobe aussi bien la perspective de la demande, qui consiste en la consommation du visiteur, la consommation touristique collective et la formation brute de capital fixe du tourisme, que la perspective de l'offre d'activités touristiques (en s'intéressant en particulier à la part de leur production achetée par les visiteurs). Le tourisme en tant que tel n'est pas mentionné dans le SCN 1993 ni dans la CITI. S'agissant du tourisme, les activités couvertes par la CITI qui produisent des biens et des services satisfaisant la demande touristique sont réunies et regroupées en tant qu'activités touristiques.

Si l'on se place du point de vue de la demande, le visiteur est l'unité basique d'observation et d'analyse, et les dépenses des visiteurs sont observées en termes de produits (essentiellement des services). Du point de vue de l'offre, vu leur relation avec le système de comptabilité nationale, les statistiques du tourisme utilisent « l'établissement » comme unité statistique de base, ainsi qu'il est défini dans le SCN, et « l'industrie » comme unité de présentation et d'analyse, l'industrie étant définie comme un « groupe d'établissements exerçant le même type d'activités de production ».

Au premier chef, il y a lieu de recenser les produits achetés par les visiteurs. Pour la compilation des données du point de vue de la demande, les produits sont regroupés en grandes catégories en fonction du motif; cependant, le tourisme exige une analyse simultanée de la consommation et de la production, d'où la classification utilisée pour définir les produits dans la Classification centrale de produits (CPC ver. 2.). Les produits achetés par les visiteurs peuvent être regroupés dans les classes détaillées de la CPC et les activités qui en sont à l'origine recensées sur la base des classes détaillées de la CITI.

Le tourisme définit certains des produits achetés par les visiteurs et les activités qui en sont à l'origine comme des « produits caractéristiques du tourisme » (ceux qui réunissent certaines conditions) et des « activités caractéristiques du tourisme » (celles qui produisent normalement des produits caractéristiques du tourisme). Les RIST 2008 expliquent de manière détaillée les concepts sous-jacents, les définitions et les classifications qui doivent être utilisés pour compiler les statistiques du tourisme et recenser les produits et activités caractéristiques du tourisme. Pour faciliter la comparaison au niveau international, des listes de ces produits et activités caractéristiques ont été dressées. L'annexe 3 du présent document fournit une liste des activités caractéristiques du tourisme (industries touristiques) regroupées en grandes catégories d'après la CITI rev. 4. L'annexe 4 quant à elle fournit une liste des produits caractéristiques du tourisme regroupés par grandes catégories d'après la CPC ver. 2. Même dans le cas où le produit acheté par le visiteur ne constitue qu'une partie de la classe de la CPC ou lorsque l'activité qui en est à l'origine ne constitue qu'une partie d'une classe à quatre chiffres de la CITI, les listes étant exprimées en termes de classes de la CPC et d'agrégats des classes de la CITI, elles fournissent une classe définie dans laquelle chaque produit ou activité peut être placé. Il est recommandé aux pays qui en auraient besoin pour leur propre analyse de créer des classes plus détaillées en dessous du niveau le plus bas de la CPC et de la CITI.

La portée de l'analyse des statistiques du tourisme est plus large quand on place celles-ci dans le cadre du compte satellite du tourisme. Dans le cadre de la comptabilité, les produits et les activités sont exprimés au regard de la CPC ver. 2 et de la CITI rev. 4, notamment ceux et celles associés au tourisme. Les classifications internationales de produits et d'activités utilisées pour compiler les données pour le CST:RCC 2008, lequel établit des liens structurels avec le système de comptabilité nationale, permettent une meilleure appréciation des liens qui unissent le tourisme à d'autres secteurs économiques.

RÉFÉRENCES CONCEPTUELLES et NOTES TECHNIQUES

Annexe 4

Liste des industries touristiques (activités caractéristiques) regroupées par principales catégories conformément à la CITI Rev. 4

Industries touristiques	CITI Rev.4	Description
1. Hébergement des visiteurs	5510	Activités d'hébergement temporaire
	5520	Terrains de camping, parcs pour véhicules de loisirs et caravanes
	5590	Autres activités d'hébergement
	6810	Activités immobilières sur biens propres ou loués*
	6820	Activités immobilières à forfait ou sous contrat*
2. Activités de services de restauration et de consommation de boissons	5610	Activités de restaurants et de services de restauration mobiles
	5629	Autres activités de services de restauration
	5630	Activités de consommation de boissons
3. Transport de voyageurs par chemin de fer	4911	Transport de voyageurs par chemin de fer interurbain
4. Transport routier de voyageurs	4922	Autres transports terrestres de voyageurs
5. Transport de voyageurs par voies navigables	5011	Transports maritimes et côtiers de voyageurs
	5021	Transport de voyageurs par voies navigables intérieures
6. Transport de voyageurs par voie aérienne	5110	Transport aérien de voyageurs
7. Location de matériels de transport	7710	Location de véhicules automobiles
8. Activités des agences de voyages et autres activités de services de réservation	7911	Activités des agences de voyages
	7912	Activités des voyagistes
	7990	Autres activités de services de réservation et activités connexes
9. Activités culturelles	9000	Activités créatives, arts et spectacles
	9102	Activités des musées et exploitation des sites et monuments historiques
	9103	Activités des jardins botaniques et zoologiques et des réserves naturelles
10. Activités sportives et récréatives	7721	Location d'articles pour le sport et les loisirs
	9200	Activités de jeux de hasard et de pari
	9311	Exploitation d'installations sportives
	9319	Autres activités sportives
	9321	Activités des parcs d'attraction et à thèmes
	9329	Autres activités récréatives et de loisirs, n.c.a.
11. Commerce de détail de biens caractéristiques du tourisme, propres à chaque pays		Boutiques hors taxes** Commerce de détail de souvenirs dans des établissements spécialisés** Commerce de détail d'artisanat dans des établissements spécialisés** Autre commerce de détail de biens caractéristiques du tourisme dans des établissements spécialisés**
12. Autres activités caractéristiques du tourisme, propres à chaque pays		

* partie relative aux résidences secondaires et multipropriétés

** pas d'indice CITI à quatre chiffres

RÉFÉRENCES CONCEPTUELLES et NOTES TECHNIQUES

Notes explicatives

Ces notes explicatives font référence uniquement à des activités caractéristiques du tourisme comparables au plan international et suivent l'ordre donné ci-dessus à l'annexe 4.

Elles sont tirées de la *Classification internationale type, par industrie, de toutes les branches d'activité économique (CITI), Rev. 4. Études statistiques (Série M, N° 4/Rev.4), Nations Unies, New York, 2008.*

Le document complet est disponible à l'adresse suivante :
<https://unstats.un.org/unsd/publications/catalogue?selectID=318>

Hébergement des visiteurs

5510 Activités d'hébergement temporaire

Cette classe couvre les activités d'hébergement, généralement assuré à la journée ou à la semaine, essentiellement à l'intention de visiteurs pour des séjours temporaires. Il s'agit d'hébergement dans des chambres d'hôtes meublées, ou de plusieurs pièces attenantes ou encore d'appartements avec cuisine, avec ou sans services quotidiens de ménage, et pouvant souvent comprendre une gamme de services complémentaires tels que des services de repas et de boissons, de garage, de lessive, de piscines et de gymnastique, ainsi que des salles de réunions et de conférences et des installations récréatives.

- Cette classe comprend la fourniture d'hébergement temporaire assuré par les établissements suivants :
- hôtels
- centres de villégiature
- hôtels offrant des suites/appartements
- motels
- hôtels pour automobilistes
- chambres d'hôtes
- pensions
- foyers assurant gîte et couvert
- appartements et bungalows
- établissements d'hébergement en multipropriété
- maisons de vacances
- chalets, cottages et maisonnettes
- auberges de jeunesse et refuges de montagne

Exclusions :

- fourniture de maisons ou d'appartements meublés ou non meublés pour de plus longues durées, généralement sur une base mensuelle ou annuelle, voir division 68

5520 Terrains de camping, parcs pour véhicules de loisirs et caravanes

Cette classe comprend les activités suivantes :

- fourniture d'installations d'hébergement telles que terrains de camping, terrains de caravanage, parcs de loisirs, d'espaces de chasse et de pêche à l'intention de visiteurs temporaires
- fourniture d'espaces et d'installations pour les véhicules de loisirs.

Cette classe couvre en outre des lieux d'hébergement tels que :

- abris protecteurs ou aires de campement pour dresser des tentes et/ou installer des sacs de couchage

5590 Autres activités d'hébergement

Cette classe comprend la fourniture d'hébergement temporaire ou à plus long terme dans une seule pièce ou en salles communes ou dortoirs pour étudiants, travailleurs migrants (saisonniers) et autres personnes.

Cette classe comprend la fourniture de logement assurée par les entités suivantes :

- résidences d'étudiants
- dortoirs de pensionnats
- foyers pour travailleurs
- pensions
- voitures-lits de chemins de fer

6810 Activités immobilières sur biens propres ou loués

Cette classe comprend les activités suivantes :

- achat, vente, location et exploitation de biens immobiliers propres ou loués :
- immeubles résidentiels et habitations
- bâtiments non résidentiels, y compris les halls d'exposition, les installations d'entreposage pour particuliers, les galeries marchandes et les centres commerciaux
- terrains
- fourniture de maisons individuelles et d'appartements meublés et non meublés pour une utilisation plus permanente généralement sur une base mensuelle ou annuelle

Cette classe comprend en outre les activités suivantes :

- mise en œuvre de projets de construction immobilière pour compte propre en vue, par exemple, de locations dans ces immeubles
- subdivision de biens immobiliers en lotissements, sans viabilisation de terrains
- exploitation d'emplacements pour caravanes

Exclusions :

- mise en œuvre de projets de construction immobilière dans un but de vente, voir 4100
- subdivision et viabilisation de terrains, voir 4290
- exploitation d'hôtels, appartements en hôtel et lieux d'hébergement analogues, voir 5510
- exploitation de terrains de camping, de parcs pour caravanes et autres lieux d'hébergement, voir 5520
- exploitation de foyers de travailleurs, de maisons meublées, etc., voir 5590

6820 Activités immobilières à forfait ou sous contrat

Cette classe couvre la prestation d'activités dans le domaine de l'immobilier, à forfait ou sous contrat, y compris les services connexes.

Cette classe comprend les activités suivantes :

- activités des agents et courtiers immobiliers
- intermédiation en matière d'achat, vente et location immobilière à forfait ou sous contrat

RÉFÉRENCES CONCEPTUELLES et NOTES TECHNIQUES

- gestion de biens immobiliers à forfait ou sous contrat
- services d'évaluation pour l'immobilier
- activités des dépositaires légaux en matière immobilière

Exclusions :

- activités juridiques, voir 6910
- services d'appui aux installations, voir 8110
- gestion d'installations, par exemple les bases militaires, les prisons, etc. (sauf la gestion d'installations informatiques), voir 8110

Activités de services de restauration et de consommation de boissons

5610 Activités de restaurants et de services de restauration mobiles

Cette classe couvre la fourniture de services de restauration à des clients, que ces derniers soient servis à table ou se servent eux-mêmes, choisissant parmi un assortiment de plats qu'ils peuvent manger sur place, ou emporter ou se faire livrer. Est également comprise dans cette classe la préparation et le service de repas destinés à une consommation immédiate, vendus à bord de véhicules automobiles ou non.

Cette classe comprend les activités des entités suivantes :

- restaurants
- cafétérias
- établissements de restauration rapide
- pizzerias
- restaurants servant des plats à emporter
- marchands ambulants (motorisés) de crème glacée
- marchands ambulants de produits alimentaires
- préparation d'aliments sur des éventaires de marché

Cette classe comprend également :

- les activités des restaurants et bars liés aux transports lorsqu'ils sont exploités par des unités distinctes

Exclusions :

- exploitation de concessions de restauration dans diverses installations, voir 5629

5629 Autres activités de services de restauration

Cette classe couvre les activités des restaurants d'entreprises, à savoir la fourniture de services de restauration sur la base d'arrangements contractuels passés avec le client pour une période déterminée.

Elle porte également sur les concessions de restauration dans les installations sportives ou installations similaires. Les plats sont souvent confectionnés dans une unité de préparation centrale.

Cette classe comprend les activités suivantes :

- activités de sous-traitants en restauration (par exemple pour les compagnies de transports)
- exploitation de concessions de restauration dans les installations sportives et installations similaires
- exploitation de cantines ou de cafétérias (par exemple dans les usines, bureaux, hôpitaux ou écoles) au titre d'une concession.

Exclusions :

- fabrication de produits alimentaires périssables destinés à la revente, voir 1079
- commerce de détail de denrées périssables, voir division 47

5630 Activités de consommation de boissons

Cette classe comprend la préparation et le service de boissons à consommer sur place immédiatement.

Cette classe comprend les activités des établissements suivants :

- bars
- cafés
- salons pour apéritifs
- discothèques (où prédomine le service de boissons)
- brasseries, bars à bière
- cafétérias
- bars à jus de fruits
- distributeurs mobiles de boissons

Exclusions :

- revente de boissons sous emballage/préparées, voir 4711, 4722, 4781, 4799
- exploitation de discothèques et de pistes de danse, sans service de boissons, voir 9329

Transport de voyageurs par chemin de fer

4911 Transport de voyageurs par chemin de fer interurbain

Cette classe comprend les activités suivantes :

- transport de voyageurs par chemin de fer interurbain
- exploitation de voitures-lits et de voitures-restaurants en tant qu'exploitation intégrée des compagnies de chemin de fer

Exclusions :

- transport de voyageurs par des réseaux de transport urbain et suburbain, voir 4921
- exploitation de gares de voyageurs, voir 5221
- exploitation de voitures-lits et de voitures-restaurants par des unités distinctes, voir 5590, 5610

Transport routier de voyageurs

4922 Autres transports terrestres de voyageurs

Cette classe comprend les activités suivantes :

- autres transports routiers de voyageurs :
 - services réguliers d'autocars sur de longues distances
 - transports à demande, excursions et autres services occasionnels de transports par autocar
- exploitation de taxis
- navettes desservant les aéroports
- exploitation de téléphériques, de funiculaires, de télésièges et remonte-pentes s'ils ne font pas partie des réseaux suburbains de transit

RÉFÉRENCES CONCEPTUELLES et NOTES TECHNIQUES

Cette classe comprend en outre les activités suivantes :

- autres locations de voitures particulières avec chauffeur
- exploitation d'autocars scolaires et d'autobus pour le transport d'employés
- transport de personnes par véhicules à traction humaine ou animale

Exclusions :

- transport par ambulance, voir 8690

Transport maritime de voyageurs

5011 Transports maritimes et côtiers de voyageurs

Cette classe comprend les activités suivantes :

- transports maritimes et côtiers de voyageurs, même réguliers :
 - exploitation de bateaux d'excursion, de croisière et de tourisme
 - exploitation de bacs, bateaux-taxis, etc.

Cette classe comporte aussi les activités suivantes :

- location de bateaux de plaisance avec équipage pour le transport maritime et côtier de voyageurs (par exemple : pour des croisières de pêche)

Exclusions :

- activités de restauration et de bar à bord de bateaux lorsqu'elles sont fournies par des unités séparées, voir 5610, 5630
- exploitation de « casinos flottants », voir 9200

5021 Transport de voyageurs par voies navigables intérieures

Cette classe comprend les activités suivantes :

- transport de voyageurs sur les cours d'eau, les canaux, lacs et autres voies d'eau intérieures, y compris les zones portuaires

Cette classe comporte en outre les activités suivantes :

- location de bateaux de plaisance avec équipage pour le transport sur les voies navigables intérieures

Transport aérien de voyageurs

5110 Transport aérien de voyageurs

Cette classe comprend les activités suivantes :

- transport aérien de voyageurs sur des lignes régulières avec des horaires réguliers
- vols affrétés pour voyageurs
- vols d'excursion

Cette classe comporte également les activités suivantes :

- location d'équipements de transport aérien avec pilote en vue de transporter des voyageurs
- activités générales d'aviation, par exemple :
 - transport de voyageurs par des aéroclubs pour apprendre à piloter ou pour le plaisir

Location de matériels de transport

7710 Location de véhicules automobiles

Cette classe comprend les activités suivantes :

- location et location-exploitation des types suivants de véhicules :
 - voitures particulières (sans chauffeur)
 - camions, remorques utilitaires et véhicules de loisirs

Exclusions :

- location de véhicules avec chauffeur, voir 4922, 4923
- crédit-bail, voir 6491

Activités des agences de voyages et autres activités de services de réservation

7911 Activités des agences de voyages

Cette classe comprend les activités suivantes :

- activités d'agences dont le rôle principal est de vendre des voyages, des excursions, des services de transport et d'hébergement au grand public et à des clients commerciaux.

7912 Activités des voyagistes

Cette classe comprend les activités suivantes :

- organisation et groupement d'excursions vendues par l'intermédiaire d'agences de voyage ou directement par des voyagistes. Les excursions peuvent inclure toutes ou partie des activités suivantes :
 - transport
 - hébergement
 - restauration
 - visites de musées, de sites historiques ou culturels, théâtre, événements musicaux ou sportifs

7990 Autres activités de services de réservation et activités connexes

Cette classe comprend les activités suivantes :

- fourniture d'autres services de réservation relatifs aux voyages :
 - réservations dans les moyens de transport, les hôtels, les restaurants; location de voitures, spectacles et événements sportifs, etc.
- fourniture de services en multipropriété
- vente de billets pour le théâtre, les événements sportifs et spectacles divers
- fourniture de services d'assistance aux touristes :
 - fourniture de renseignements concernant les voyages
 - activités de guides touristiques
 - activités de promotion du tourisme

Exclusions :

- activités d'agences de voyage et de voyagistes, voir 7911, 7912
- organisation et gestion d'événements tels que réunions, congrès et conférences, voir 8230

RÉFÉRENCES CONCEPTUELLES et NOTES TECHNIQUES

Activités culturelles

9000 Activités créatives, arts et spectacles

Cette classe couvre l'exploitation d'installations et la fourniture de services pour répondre aux besoins des clients dans les domaines de la culture et des spectacles. Ces activités comprennent la production et la promotion de spectacles en direct, d'événements et d'expositions pour le public, et la participation de celui-ci à ces activités; la promotion de talents artistiques, de compétences créatrices ou techniques pour la production d'œuvres artistiques et de spectacles en direct.

Cette classe comprend les activités suivantes :

- production de représentations théâtrales, de concerts et d'opéras ou de ballets et autres productions de scène :
- activités de groupes, de compagnies de cirque, d'orchestres symphoniques ou autres formations musicales
- activités individuelles d'artistes, tels que les auteurs, acteurs, metteurs en scène, musiciens, conférenciers ou orateurs, décorateurs de théâtre, etc.
- exploitation de salle de théâtre et de concerts et d'autres installations pour la production de spectacles
- activités des sculpteurs, peintres, caricaturistes, graveurs d'art au burin et à l'eau forte, etc.
- activités d'écrivains sur tous les sujets, y compris les ouvrages de fiction, les ouvrages techniques, etc.
- activités de journalistes indépendants
- restauration d'œuvres d'art telles que les tableaux, etc.

Cette classe comporte aussi les activités suivantes :

- réalisations de producteurs ou d'organiseurs de manifestations artistiques en direct avec ou sans installations

Exclusions :

- restauration de vitraux, voir 2310
- fabrication de statues autres que les originaux d'artistes, voir 2396
- restauration d'orgues et autres instruments de musiques historiques, voir 3319
- restauration de sites et monuments historiques, voir 4100
- production de films cinématographiques et vidéo, voir 5911, 5912
- exploitation de salles de cinéma, voir 5914
- activités des agences de professionnels du théâtre et d'artistes, voir 7490
- activités de distribution des rôles, voir 7810
- activités des billetteries, voir 7990
- exploitation de musées de types divers, voir 9102
- activités de sports et de loisirs et activités récréatives, voir division 93
- restauration de meubles (à l'exception des meubles de musées), voir 9524

9102 Activités des musées et exploitation des sites et monuments historiques

Cette classe comprend les activités suivantes :

- exploitation de tous types de musées :
 - musées d'art, d'orfèvrerie, de meubles, de costumes, de céramique, d'argenterie
 - musées d'histoire naturelle, des sciences et des techniques, musées d'histoire, y compris les musées militaires
 - autres musées spécialisés
 - musées en plein air
- gestion et préservation de sites et monuments historiques

Exclusions :

- rénovation et restauration de sites et monuments historiques, voir section F
- restauration d'œuvres d'art et d'objets appartenant à des collections de musées, voir 9000
- activités des bibliothèques et des archives, voir 9101

9103 Activités des jardins botaniques et zoologiques et des réserves naturelles

Cette classe couvre les activités suivantes :

- administration des jardins botaniques et zoologiques, y compris les zoos pour enfants
- administration de réserves naturelles, y compris la protection de la flore et de la faune sauvages, etc.

Exclusions :

- services d'entretien des espaces verts, voir 8130
- exploitation des réserves consacrées à la chasse et à la pêche sportives, voir 9319

Activités sportives et récréatives

7721 Location d'articles pour le sport et les loisirs

Cette classe couvre les activités suivantes :

- location d'articles pour le sport et les loisirs :
 - bateaux de plaisance, canoës, bateaux à voile
 - bicyclettes
 - chaises de plage et parasols
 - autres articles de sport
- skis

Exclusions :

- location de vidéocassettes et de vidéodisques, voir 7722
- location d'articles personnels et ménagers, n.c.a., voir 7729
- locations d'articles pour les activités récréatives et les loisirs en tant que parties intégrantes des installations récréatives, voir 9329

RÉFÉRENCES CONCEPTUELLES et NOTES TECHNIQUES

9200 Activités de jeux de hasard et de pari

Cette classe couvre les activités suivantes :

- activités de bookmakers et autres opérations de pari
- pari sur les courses de chevaux
- activités des casinos, y compris les casinos à bord de navires de croisière
- vente de billets de loterie
- exploitation de machines de jeu automatiques (à pièces de monnaie)
- exploitation de sites Web de jeux virtuels

Exclusions :

- exploitation de machines à sous, voir 9329

9311 Exploitation d'installations sportives

Cette classe comprend les activités suivantes :

- exploitation d'installations pour les activités sportives en plein air ou en salle (ouverte, fermée ou couverte avec ou sans places assises) :
 - terrains de football, de hockey, de cricket, de baseball, de jai alai
 - champs de courses pour les courses d'automobiles, de chiens, de chevaux, etc.
 - piscines et stades
 - stades d'athlétisme
 - arènes et stades de sports d'hiver
 - arènes de hockey sur glace
 - arènes de boxe
 - terrains de golfe
 - pistes de quilles
 - centres de mise en forme physique
- Mise en place et exploitation de manifestations sportives en plein air ou en salle pour les sportifs professionnels ou amateurs par des organisations dotées de leurs propres installations.

Les activités rangées dans cette classe comprennent la gestion et la fourniture du personnel chargé du fonctionnement de ces installations.

Exclusions :

- location de matériel de sport et de loisirs, voir 7721
- exploitation de pistes de ski, voir 9329
- activités de parcs et de plages, voir 9329

9319 Autres activités sportives

Cette classe comprend les activités suivantes :

- activités des producteurs ou promoteurs de manifestations sportives même sans installations
- activités des sportifs individuels pour compte propre et des athlètes, arbitres, juges, chronométrateurs, etc.
- activités des ligues sportives et d'organismes régulateurs
- activités relatives à la promotion de manifestations sportives
- activités des écuries de course, des chenils et des garages
- exploitation des réserves de pêche et de chasse sportives
- activités des guides de montagne
- activités d'appui à la chasse ou à la pêche sportive ou de loisir

Exclusions :

- élevage de chevaux de courses, voir 0142
- location de matériel de sport, voir 7721
- activités des écoles de sport ou de jeu, voir 8541
- activités des moniteurs, instructeurs, entraîneurs, voir 8541
- organisation et réalisation de manifestations sportives en plein air ou en salle pour professionnels ou amateurs par des clubs sportifs dotés ou non de leurs propres installations, voir 9311, 9312
- activités de parcs et de plages, voir 9329

9321 Activités des parcs d'attractions et à thèmes

Cette classe comprend les activités suivantes :

- activités de parcs d'attractions ou de parcs à thèmes, y compris l'exploitation d'attractions foraines, manèges, tours aquatiques, jeux, spectacles, expositions à thèmes et terrains de pique-nique.

9329 Autres activités récréatives et de loisirs, n.c.a.

Cette classe comprend :

- activités de parcs d'attraction et de plages, y compris la location d'installations telles que les cabines de bain, de vestiaires, de sièges, etc.
- exploitation d'installations de transport à des fins récréatives, par exemple les marinas
- exploitation des pistes de ski
- location de matériel pour l'amusement et le divertissement en tant que partie intégrante d'équipements récréatifs
- organisation de foires et expositions à des fins récréatives
- exploitation de discothèques et de salles de bal
- exploitation de jeux électroniques payants
- autres activités d'amusement et de divertissement (sauf les parcs d'attractions et les parcs à thèmes), n.c.a.

Cette classe comprend aussi :

- activités de producteurs et d'organiseurs de manifestations en direct autres que des manifestations relatives aux arts ou aux sports même sans installations.

Exclusions :

- croisières de pêche, voir 5011, 5021
- fourniture d'espace et d'installations pour de courts séjours de visiteurs dans des parcs et forêts de loisirs et les terrains de camping, voir 5520
- services de boissons dans les discothèques, voir 5630
- parcs de stationnement de caravanes, terrains de camping, camps de loisirs, réserves de chasse et de pêche, campings, campements, voir 5520
- location séparée de matériel pour les activités de divertissement et de loisirs, voir 7721

<http://statistics.unwto.org/es/content/recomendaciones-internacionales-para-estadisticas-de-turismo-2008-riet-2008-0>

1. Turismo receptor

El turismo receptor comprende las actividades de un visitante no residente dentro del país de referencia en un viaje de turismo receptor. El gasto de ese visitante se identifica como gasto del turismo receptor.

Datos

Llegadas

Los datos de *llegadas* miden la afluencia de visitantes internacionales al país de referencia: cada llegada corresponde a un viaje de turismo receptor. Si una persona visita varios países en el transcurso de un solo viaje, cada llegada a un país se registra separadamente. En un ejercicio contable, la cifra de llegadas no es necesariamente igual a la del número de personas que viajan (cuando una persona visita el mismo país varias veces al año, cada viaje de esa misma persona se contabiliza como una llegada distinta).

Los datos de *llegadas* deben corresponder a los *visitantes recibidos* (no residentes en el país visitado) incluidos tanto los turistas como los visitantes del día no residentes. Deben excluirse todos los demás tipos de viajeros (trabajadores fronterizos, estacionales y con contratos de corta duración, estudiantes por periodos largos, etc.), ya que no pueden calificarse de visitantes.

Los datos se obtienen de diversas fuentes: registros administrativos (inmigración, censos de tránsito y otros posibles tipos de control), encuestas de fronteras o una combinación de todos ellos. Si se obtienen datos de encuestas sobre alojamiento, el número de huéspedes sirve para estimar las cifras de llegadas; por consiguiente, en este caso, los desgloses por regiones, motivo principal del viaje, medio de transporte utilizado o formas de organización del viaje se basan en encuestas de visitantes complementarias.

Las llegadas se dividen en función de cinco características, de las cuales dos merecen algunos comentarios:

- Tipo de visitantes (del punto 1.1 al 1.4 del **Compendio**). Por consiguiente, si un país no puede distinguir entre visitantes que pernoctan y visitantes del día, no se proporciona ningún desglose.

- Regiones (del punto 1.5 al 1.13 del **Compendio**). El concepto básico subyacente es que el país asociado a la llegada debe ser el país de residencia. Algunos países no aceptan las recomendaciones de la OMT y clasifican a los nacionales del país residentes en el extranjero en lugar de como residentes en esos países como una categoría separada (punto 1.13 del **Compendio**).

El *motivo principal* de un viaje se define como el motivo en ausencia del cual el viaje no habría tenido lugar. La clasificación aplicada es la siguiente:

1. Motivos personales
 - 1.1. Vacaciones, recreo y ocio
 - 1.2. Visitas a familiares y amigos
 - 1.3. Educación y formación
 - 1.4. Salud y atención médica
 - 1.5. Religión/peregrinaciones
 - 1.6. Compras
 - 1.7. Tránsito
 - 1.8. Otros motivos
2. Negocios y motivos profesionales

En el Anuario de estadísticas de turismo de la OMT se incluye información complementaria sobre llegadas, desglosadas por país de origen.

- **Cuadro 1:**
Llegadas a las fronteras nacionales de visitantes no residentes que pernoctan (turistas).
- **Cuadro 2:**
Llegadas a las fronteras nacionales de visitantes no residentes (que pernoctan – turistas – y visitantes del día – excursionistas –).

Alojamiento

El término « alojamiento » se refiere a los servicios prestados por establecimientos comerciales a los visitantes, siendo normalmente la categoría más importante la de « hoteles y establecimientos asimilados », identificada en la CIIU, Rev.4 como 5510 « Actividades de alojamiento para estancias cortas ».

Las *pernoctaciones* (o « noches de huéspedes ») se refieren al número de noches que pasan los huéspedes no residentes (turistas recibidos).

REFERENCIAS CONCEPTUALES y NOTAS TÉCNICAS

En el Anuario de estadísticas de turismo de la OMT se incluye información complementaria sobre los huéspedes, desglosada por país de origen.

- **Cuadro 3:**
Llegadas de visitantes no residentes que pernoctan (turistas) a « hoteles y establecimientos asimilados »
- **Cuadro 4:**
Llegadas de visitantes no residentes que pernoctan (turistas) a todo tipo de establecimientos que ofrezcan servicios de alojamiento para visitantes.
- **Cuadro 5:**
Pernoctaciones de visitantes no residentes (turistas) a « hoteles y establecimientos asimilados »
- **Cuadro 6:**
Pernoctaciones de visitantes no residentes (turistas) a todo tipo de establecimientos que ofrezcan servicios de alojamiento para visitantes.

Gasto

El *gasto* asociado con la actividad de los visitantes internacionales se ha identificado tradicionalmente con la partida de viajes en la balanza de pagos: en el caso del turismo receptor, estos gastos asociados con los visitantes recibidos se registran como « crédito » en la balanza de pagos y se denominan « ingresos por viajes ».

Las *Recomendaciones internacionales para estadísticas de turismo de 2008* consideran que en las « industrias y productos turísticos » se incluye el transporte de pasajeros. Por lo tanto, en términos de balanza de pagos, sería mejor para la estimación de los datos de gastos relacionados con el turismo, efectuados por los visitantes recibidos y emitidos en un contexto internacional, contar el valor de la partida de viajes más el de la partida de transporte de pasajeros.

No obstante, los usuarios deberían ser conscientes de que las estimaciones de la balanza de pagos incluyen, además de los gastos asociados a los visitantes, los relativos a otros tipos de viajeros (que pueden ser sustanciales en algunos países, por ejemplo, estudiantes o pacientes por periodos largos, trabajadores fronterizos y estacionales, etc.).

También los datos de gastos *por motivo principal del viaje* son datos de la balanza de pagos.

Los datos publicados corresponden a los que publica el Fondo Monetario Internacional (FMI) (y que proporcionan los bancos centrales). Los datos de gasto del turismo receptor y emisor proceden del CD-ROM de estadísticas de balanza de pagos del Fondo Monetario Internacional (FMI).

En el caso de detectarse una diferencia significativa con los datos suministrados a la OMT por las administraciones nacionales de turismo (ANT) para la preparación del Compendio, los datos de las ANT se facilitarán separadamente en las « notas de los países ».

Indicadores

Tamaño medio del grupo de viaje

Un grupo de viaje se define como un conjunto de visitantes que realizan juntos un viaje y comparten los gastos. El tamaño medio de los grupos de viaje permite la estimación del número

total de viajes de visitantes internacionales, una estimación útil para labores de marketing y formulación de políticas.

Duración media de la estancia

Todos estos indicadores se refieren a la duración de los viajes de turismo receptor realizados por visitantes internacionales (expresados como número de días o de noches).

La duración media de la estancia se refiere a los servicios de alojamiento tanto comerciales como no comerciales suministrados a los visitantes, así como a otros tipos de estancias.

Puesto que un visitante no residente podría alojarse en diferentes instalaciones durante su estancia, esas cifras totales solo pueden estimarse utilizando la información de las encuestas de fronteras o comprobando las fechas en las tarjetas oficiales de llegada/partida para una muestra de visitantes (o para todos ellos).

Gasto medio por día

Este indicador se refiere al gasto total de los visitantes en general, dividido por el número total de días empleados, estimado mediante la encuesta de visitantes.

2. Turismo interno

El turismo interno comprende las actividades de un visitante residente dentro del país de referencia (como parte de un viaje de turismo interno o como parte de un viaje de turismo emisor).

El gasto correspondiente de ese visitante en la economía de referencia se identifica como gasto turístico interno. Además, el gasto de los visitantes emitidos en productos recibidos de empresas residentes se incluye en el gasto interno.

Datos

Los *viajes* de los visitantes son viajes turísticos. Un viaje de turismo interno se refiere al viaje de un visitante desde el momento de dejar su residencia habitual hasta que regresa; se refiere a un viaje de ida y vuelta.

El término « alojamiento » se refiere a los servicios prestados por establecimientos comerciales a los visitantes, siendo normalmente la categoría más importante la de « hoteles y establecimientos asimilados », identificada en la CIU, Rev.4 como 5510 « Actividades de alojamiento para estancias cortas ».

Las *pernoctaciones* (o « noches de huéspedes ») se refieren al número de noches que pasan los huéspedes residentes (turistas internos). Las encuestas sobre alojamiento (dirigidas a los establecimientos) deberían ser la fuente de datos preferida.

REFERENCIAS CONCEPTUALES y NOTAS TÉCNICAS

Indicadores

Duración media de la estancia

La duración media de la estancia se refiere a los servicios de alojamiento tanto comerciales como no comerciales suministrados a los visitantes, así como a otros tipos de estancias.

Los datos totales solo pueden estimarse utilizando las encuestas de hogares.

Gasto medio por día

Este indicador se refiere al gasto total, dividido por el número total de días empleados, estimado mediante la encuesta de visitantes.

3. Turismo emisor

El turismo emisor comprende las actividades de un visitante residente fuera del país de referencia (como parte de un viaje de turismo emisor o como parte de un viaje de turismo interno). El gasto correspondiente de ese visitante se identifica como gasto del turismo emisor.

Datos

Los datos de *salidas* miden el flujo de visitantes residentes que salen del país de referencia. Las salidas no coinciden necesariamente con el número de llegadas notificadas por los destinos internacionales para el país de referencia.

El *gasto* asociado con la actividad de los visitantes se ha identificado tradicionalmente con la partida de viajes en la balanza de pagos: en el caso del turismo emisor, estos gastos asociados con los visitantes no residentes se registran como « débito » en la balanza de pagos y se denominan « gastos por viajes ». Como en el caso del *turismo receptor*, se utilizan los datos de la balanza de pagos.

Las Recomendaciones internacionales para estadísticas de turismo de 2008 consideran que en las « industrias y productos turísticos » se incluye el transporte de pasajeros. Por lo tanto, en términos de balanza de pagos, sería mejor para la estimación de los datos de gastos relacionados con el turismo, efectuados por los visitantes residentes y no residentes en un contexto internacional, contar el valor de la partida de viajes más el de la partida de transporte de pasajeros.

No obstante, los usuarios deberían ser conscientes de que las estimaciones de la balanza de pagos incluyen, además de los gastos asociados a los visitantes, los relativos a otros tipos de viajeros.

De igual forma, los datos de gastos por *motivo principal* del viaje son datos de la balanza de pagos.

Los datos publicados corresponden a los que publica el Fondo Monetario Internacional (FMI) (y que proporcionan los bancos centrales); en el caso de detectarse una diferencia significativa con los datos suministrados a la OMT por

las administraciones nacionales de turismo (ANT) para la preparación del Compendio, los datos de las ANT se facilitarán separadamente en las « notas de los países ». Para más información sobre las notas de los países del FMI, refiéranse al párrafo sobre el gasto del turismo receptor.

Puede obtenerse información complementaria sobre « viajes al extranjero de visitantes residentes a países de destino » en la página web: www.e-unwto.org/home/main.mpx. Es importante indicar que la información presentada se basa en los datos suministrados por cada país de destino y corresponde por lo tanto a las llegadas a esos países.

Indicadores

Duración media de la estancia

Este indicador se refiere a la duración de los viajes de visitantes emitidos (expresada en número de días) y refleja la media total utilizando las encuestas de fronteras o la información de los hogares.

Gasto medio por día

Este indicador se refiere al gasto total dividido por el número total de días empleados, calculado a partir de las encuestas de fronteras o la información de los hogares.

4. Industrias turísticas

El término *industrias turísticas* incluye aquellas industrias que producen normalmente productos característicos del turismo; equivale al más coloquial de « sector turístico ». En la siguiente lista se especifican esas industrias:

1. Alojamiento para visitantes
2. Actividades de provisión de alimentos y bebidas
3. Transporte de pasajeros por ferrocarril
4. Transporte de pasajeros por carretera
5. Transporte de pasajeros por agua
6. Transporte aéreo de pasajeros
7. Alquiler de equipos de transporte
8. Actividades de agencias de viajes y de otros servicios de reservas
9. Actividades culturales
10. Actividades deportivas y recreativas
11. Comercio al por menor de bienes característicos del turismo, específicos de cada país
12. Otras actividades características del turismo, específicas de cada país

Las siguientes notas explicativas se refieren al *alojamiento para visitantes* y a *agencias de viajes y otros servicios de reservas*, que son las dos únicas industrias para las que se publican datos monetarios y no monetarios en este **Compendio**.

Estas notas pueden consultarse en el Anexo 4: Se han extraído del documento *Clasificación Industrial Internacional Uniforme de todas las actividades económicas (CIIU), Rev.4*. Informes estadísticos (serie M, No. 4/Rev.4), Naciones Unidas. Nueva York, 2008.

REFERENCIAS CONCEPTUALES y NOTAS TÉCNICAS

Alojamiento para visitantes

El número de establecimientos en la industria de *Alojamiento para visitantes* (punto 4.2 del Compendio se refiere a todos los tipos de establecimientos que ofrecen servicios de alojamiento a los visitantes con carácter comercial (de mercado), es decir, mediante pago. Por consiguiente, los datos deberían incluir las siguientes clases de la CIU:

5510 Actividades de alojamiento para estancias cortas

Esta clase figura en la sección 4 del Compendio como « *alojamiento para visitantes en hoteles y establecimientos asimilados* » e incluye el suministro de alojamiento, normalmente por días o semanas, sobre todo para estancias cortas de visitantes. Abarca el suministro de alojamiento amueblado en habitaciones y apartamentos o unidades totalmente independientes con cocina, con o sin servicio diario o regular de limpieza, y que incluyen a menudo diversos servicios adicionales, como los de comidas y bebidas, aparcamiento, lavandería, piscina y gimnasio, instalaciones de recreo e instalaciones para conferencias y convenciones.

Esta clase comprende el suministro de alojamiento por estancias cortas en:

- hoteles
- centros vacacionales
- hoteles de suites/apartamentos
- moteles
- hoteles para automovilistas
- casas de huéspedes
- pensiones
- unidades de alojamiento y desayuno
- pisos y bungalows
- unidades utilizadas en régimen de tiempo compartido
- casas de vacaciones
- chalets y cabañas con servicio de mantenimiento y limpieza
- albergues juveniles y refugios de montaña

No se incluyen las siguientes actividades:

- suministro de viviendas y de pisos o apartamentos amueblados o sin amueblar para períodos más largos, en general por meses o por años; véase la división 68

5520 Actividades de campamentos, parques de vehículos de recreo y parques de caravanas

Esta clase comprende las siguientes actividades:

- suministro de alojamiento en campamentos, parques para caravanas, campamentos recreativos y campamentos de caza y de pesca para estancias cortas
- suministro de espacio e instalaciones para vehículos de recreo

Se incluyen también los servicios de alojamiento de:

- refugios o simples instalaciones de acampada para plantar tiendas o pernoctar en sacos de dormir

5590 Otras actividades de alojamiento

Esta clase comprende el suministro de alojamiento temporal o a largo plazo en habitaciones individuales o compartidas o dormitorios para estudiantes, trabajadores migrantes (estacionales) y otras categorías de personas.

Se incluyen los servicios de alojamiento proporcionados por:

- residencias de estudiantes
- dormitorios escolares
- albergues para trabajadores
- casas de huéspedes e internados
- coches cama ferroviarios

6810 Actividades inmobiliarias realizadas con bienes propios o arrendados

Esta clase comprende las siguientes actividades:

- compra, venta, alquiler y explotación de bienes inmuebles propios o arrendados, como:
 - edificios de apartamentos y viviendas
 - edificios no residenciales, incluso salas de exposiciones, instalaciones de autoalmacenamiento y centros comerciales
 - terrenos
- alquiler de casas y pisos o apartamentos amueblados o sin amueblar por períodos largos, en general por meses o por años

Se incluyen también las siguientes actividades:

- promoción de proyectos de construcción para su posterior explotación, es decir, para alquilar espacio en esos edificios
- subdivisión de propiedades inmobiliarias en lotes, sin mejora de los terrenos
- explotación de campamentos residenciales para casas móviles

No se incluyen las siguientes actividades:

- promoción de proyectos de construcción para la venta; véase la clase 4100
- subdivisión y mejora de terrenos; véase la clase 4290
- explotación de hoteles, hoteles de apartamentos e instalaciones de alojamiento similares; véase la clase 5510
- explotación de campamentos, parques de caravanas e instalaciones de alojamiento similares; véase la clase 5520
- explotación de albergues para trabajadores, casas de huéspedes e instalaciones de alojamiento similares; véase la clase 5590

6820 Actividades inmobiliarias realizadas a cambio de una retribución o por contrata

Esta clase comprende las actividades inmobiliarias que se realizan a cambio de una retribución o por contrata, incluidos los servicios inmobiliarios.

Esta clase comprende las siguientes actividades:

- actividades de agentes y corredores inmobiliarios
- intermediación en la compra, la venta y el alquiler de bienes inmuebles a cambio de una retribución o por contrata
- administración de bienes inmuebles a cambio de una retribución o por contrata

REFERENCIAS CONCEPTUALES y NOTAS TÉCNICAS

- servicios de tasación inmobiliaria
- actividades de agentes depositarios de plicas inmobiliarias

No se incluyen las siguientes actividades:

- actividades jurídicas; véase la clase 6910
- servicios de apoyo a instalaciones; véase la clase 8110
- administración de instalaciones, como bases militares, prisiones y otras instalaciones (excepto administración de instalaciones informáticas); véase la clase 8110

Actividades de agencias de viajes y de otros servicios de reservas

7911 Actividades de agencias de viajes

Esta clase comprende las siguientes actividades:

- actividades de agencias dedicadas principalmente a vender servicios de viajes, de viajes organizados, de transporte y de alojamiento al público en general y a clientes comerciales

7912 Actividades de operadores turísticos

Esta clase comprende las siguientes actividades:

- organización de paquetes de servicios de viajes para su venta a través de agencias de viajes o por los propios operadores turísticos. Esos viajes organizados pueden incluir uno o varios de los elementos siguientes:
 - transporte
 - alojamiento
 - comidas
 - visitas a museos, lugares históricos o culturales y asistencia a espectáculos teatrales, musicales o deportivos

7990 Otros servicios de reservas y actividades conexas

Esta clase comprende las siguientes actividades:

- prestación de otros servicios de reservas relacionados con los viajes:
 - reservas de transporte, hoteles, restaurantes, alquiler de automóviles, entretenimiento y deporte, etcétera
- prestación de servicios de intercambio en régimen de tiempo compartido o multipropiedad
- actividades de venta de billetes para obras de teatro, competiciones deportivas y otras actividades de diversión y entretenimiento
- prestación de servicios de asistencia a los visitantes:
 - suministro a los clientes de información sobre los viajes
 - actividades de guías de turismo
- actividades de promoción turística

No se incluyen las siguientes actividades:

- actividades de agencias de viajes y operadores turísticos, véanse las clases 7911 y 7912
- organización y gestión de reuniones, convenciones, conferencias y acontecimientos similares; véase la clase 8230

Datos

Respecto al *número de establecimientos* (punto 4.3 del **Compendio**) incluye los establecimientos asimilados a las clases 5520, 5590, 6810 y 6820 (véanse las notas explicativas anteriores sobre alojamiento para visitantes).

El número de *habitaciones* y *plazas-cama* se refiere a la capacidad de « hoteles y establecimientos asimilados » de proporcionar alojamiento temporal a los visitantes.

Indicadores

Los tres primeros indicadores se basan en el número global de pernoctaciones de turistas residentes y no residentes en hoteles y establecimientos asimilados.

Las *tasas de ocupación* se refieren a la relación entre la capacidad existente de prestar servicios de alojamiento a los visitantes y la medida en que se utilizan. Esta tasa puede referirse al uso de habitaciones o de plazas-cama.

La *capacidad disponible* se refiere al número de plazas-cama en hoteles y establecimientos asimilados por cada 1000 habitantes de la población residente permanente del país de referencia. Cuando el país no aporta los datos, lo hace la OMT.

5. Empleo

La categoría de personas empleadas en las industrias turísticas puede ser de *asalariados* (personas que trabajan para una empresa a cambio de una remuneración en efectivo o en especie según lo convenido) o de *autoempleados* (trabajadores por cuenta propia que tienen el tipo de trabajo definido como « empleo independiente » y no han contratado de manera continua a ningún « asalariado » durante el periodo de referencia).

Algunas personas empleadas pueden tener más de un puesto de trabajo; por consiguiente el número de puestos de trabajo (por el lado de la demanda) y el número de personas empleadas (por el lado de la oferta) son categorías diferentes y por lo general no suelen coincidir.

La intensidad del trabajo puede variar de un puesto a otro, de una industria a otra y de un periodo a otro. Los puestos de trabajo pueden diferir en el horario laboral de las personas empleadas y, por lo tanto, pueden expresarse en términos de empleos a tiempo completo o a tiempo parcial. Por esta razón, no es suficiente con tener datos sobre el número de puestos de trabajo o personas empleadas para obtener información sobre el volumen del trabajo efectuado durante un determinado periodo de tiempo (por ejemplo, un mes o un año). Harán falta datos sobre el número total de horas de trabajo. Finalmente, si todos los puestos de trabajo se convierten en empleo equivalente a tiempo completo o total de horas trabajadas al año, podrá obtenerse el volumen total del trabajo de una determinada industria por un periodo determinado.

Las cifras sobre « número de puestos de trabajo por situación en el empleo » y « número de puestos de trabajo equivalentes a empleos de jornada completa por situación en el empleo » deben referirse a las industrias turísticas.

REFERENCIAS CONCEPTUALES y NOTAS TÉCNICAS

6. Indicadores complementarios

Estos indicadores se derivan de la balanza de pagos, las cuentas nacionales y las estadísticas de turismo.

Demanda

La *propensión bruta a viajar* mide el número de viajes de turismo emisor e interno en términos de población residente permanente total del país de referencia. Los valores más altos del indicador implican la mayor frecuencia de estos viajes e indican la movilidad presente de la población que viaja.

El indicador « llegadas/población » ofrece una estimación de la intensidad turística del país de referencia. La OMT calcula dicho indicador a partir de los datos básicos disponibles del turismo receptor y del turismo interno, pudiendo ser el número de visitantes (código 1.1 para el turismo receptor y 2.1 para el turismo interno) o el número de turistas (código 1.2 para el turismo receptor y 2.2 para el turismo interno). El cálculo se realiza según las fórmulas relacionadas a continuación, por orden de preferencia, y teniendo en cuenta los datos básicos disponibles para el país de referencia:

- (1.2 turistas receptores + 2.2 turistas internos) / población
- (1.2 turistas receptores + 2.1 visitantes internos) / población
- (1.2 turistas receptores) / población
- (1.1 visitantes receptores + 2.1 visitantes internos) / población
- (1.1 visitantes receptores + 2.2 turistas internos) / población
- (1.1 visitantes receptores) / población

Los datos de población proceden del Fondo Monetario Internacional (IMF), del Banco Mundial, o en su defecto de la oficina nacional de estadísticas del país de referencia.

Para cada nueva edición del Compendio, la fórmula se adaptará según los datos básicos disponibles para el periodo de referencia (5 años).

Indicadores macroeconómicos relacionados con el turismo internacional

Los indicadores se basan en las *estadísticas de balanza de pagos* y las *estadísticas financieras internacionales* del Fondo Monetario Internacional.

Estos y otros indicadores complementarios representan un sistema preliminar muy básico de evaluación de la contribución económica del turismo a la economía nacional, y son valiosos porque disponen de ellos la mayoría de los países, son comparables internacionalmente y pueden compararse también con otros indicadores económicos.

Cabe observar que el término « gasto » se utiliza del mismo modo para el turismo receptor que para el emisor a fin de indicar « el importe pagado para la adquisición de bienes de consumo y servicios, así como de objetos de valor, para uso propio o para regalo, para y durante los viajes turísticos ». Los visitantes extranjeros en el país de referencia generan un gasto de turismo receptor (crédito en la balanza de pagos), mientras que los visitantes residentes que se encuentran en países extranjeros generan un gasto de turismo emisor (débito en la balanza de pagos).

Gasto turístico receptor sobre el PIB

Refleja el peso del gasto de los visitantes recibidos como parte del valor total de la actividad económica en la economía de referencia. Desde la perspectiva del comercio internacional, este indicador capta la importancia económica de la afluencia de ingresos procedentes del extranjero asociada al gasto de estos visitantes.

Gasto turístico emisor sobre el PIB

Refleja la importancia del gasto en el extranjero de los visitantes emitidos, expresada en términos de la economía nacional. Desde la perspectiva del comercio internacional, este indicador capta la importancia económica de la salida de ingresos nacionales a través de estos visitantes.

Balanza turística sobre el PIB

Refleja la importancia económica del gasto turístico neto (turismo receptor menos turismo emisor) en relación con la economía de referencia. Un superávit o un déficit significativo afecta a la balanza comercial del país y, por lo tanto, a su PIB.

Apertura turística

Refleja la importancia de la suma del gasto del turismo transfronterizo (es decir, el turismo internacional, la suma del gasto del turismo receptor y el emisor) en relación con la economía de referencia. También podría utilizarse como medida del flujo libre de turismo bilateral entre el país de referencia y el resto del mundo.

Cobertura turística

Refleja la proporción entre el gasto del turismo receptor y el gasto del turismo emisor para mostrar en qué grado la afluencia de ingresos procedentes del extranjero cubre la salida de ingresos nacionales. Un valor superior al 100% significa que el turismo receptor financia indirecta y sobradamente el gasto de los visitantes emitidos; un valor inferior al 100% significa que el turismo receptor no cubre el gasto de estos visitantes en el extranjero.

Gasto turístico receptor sobre las exportaciones de bienes

Gasto turístico receptor sobre las exportaciones de servicios

Gasto turístico receptor sobre las exportaciones de bienes y servicios

Estas tres medidas reflejan la importancia del turismo como servicio con el que se comercia internacionalmente en relación con otras categorías de exportaciones. Al mismo tiempo, estas medidas revelan el grado de especialización turística de la estructura exportadora de un país y la capacidad relativa del turismo de generar ingresos procedentes del extranjero.

REFERENCIAS CONCEPTUALES y NOTAS TÉCNICAS

Gasto turístico receptor sobre los créditos de la cuenta corriente

Los créditos de la cuenta corriente de la balanza de pagos se refieren a toda la afluencia de bienes, servicios, ingresos y transferencias corrientes a la economía. Cuanto mayor es la cuota del turismo en este agregado, mayor es la importancia de la actividad turística en la generación de una afluencia de ingresos procedentes del extranjero.

Gasto turístico emisor sobre las importaciones de bienes Gasto turístico emisor sobre las importaciones de servicios

Gasto turístico emisor sobre las importaciones de bienes y servicios

Estas tres medidas reflejan la importancia del turismo como servicio con el que se comercia internacionalmente en relación con otras categorías de importaciones. Al mismo tiempo, estas medidas revelan la predilección por el turismo de la estructura importadora de un país y el grado relativo de salida de ingresos nacionales de una economía a causa del turismo internacional.

Gasto turístico emisor sobre los débitos de la cuenta corriente

Los débitos de la cuenta corriente de la balanza de pagos se refieren a toda la salida de bienes, servicios, ingresos y transferencias corrientes de una economía al resto del mundo. Cuanto mayor es la cuota del turismo en este agregado, mayor es la importancia de la actividad turística en la fuga de ingresos nacionales.

REFERENCIAS CONCEPTUALES y NOTAS TÉCNICAS

Anexo 1 Sistema nacional de estadísticas de turismo y comparabilidad internacional

La estructura del [Compendio de estadísticas de turismo](#) se basa en el siguiente esquema, referido al marco de información básico de los sistemas nacionales de estadísticas de turismo con fines de comparabilidad internacional (<http://statistics.unwto.org/sites/all/files/docpdf/ststext.pdf>).

El marco conceptual para este núcleo básico de datos e indicadores está constituido por las *Recomendaciones internacionales para estadísticas de turismo 2008* (RIET 2008).

Comparabilidad internacional y estadísticas de turismo: el marco de información básico

I. Marco conceptual

Conceptos	Unidades de observación	Principales características relacionadas		
Visitante	Visitante	Clases: visitante que pernocta (turista), visitante del día (excursionista) País de residencia / regiones		
	Grupo de viaje	Tamaño		
Viaje	Viaje por turismo	Motivo principal		
		Duración		
		Destino principal		
		Medio de transporte		
		Tipos de alojamiento utilizado		
		Organización		
		Gasto		
Industrias turísticas	Establecimiento	Monetarios		
		Producción		
		Consumo intermedio		
		Valor añadido bruto		
		Remuneración de los trabajadores asalariados		
		Formación bruta de capital fijo		
		No-monetarios		
		Características específicas no monetarias para cada industria turística		
		Empleo	Establecimiento (en las industrias turísticas)	Personas
				Tamaño
Situación en el empleo				
Puestos de trabajo				
Duración del trabajo				
Puestos de trabajo equivalentes a tiempo completo				

II. Clasificaciones

1. Formas de turismo
2. Clasificación de los productos de consumo adquiridos por los visitantes
3. Clasificación de las actividades productivas que dan servicio a los visitantes
4. Otras clasificaciones

III. Tablas de resultados

1. Turismo receptor
2. Turismo interno
3. Turismo emisor
4. Industrias turísticas
5. Empleo
6. Indicadores complementarios

Anexo 2 Comprender el turismo: glosario básico

En este Anexo se incluyen algunos conceptos fundamentales y las definiciones correspondientes según las *RIET 2008*.
<http://statistics.unwto.org/en/content/international-recommendations-tourism-statistics-2008-irts-2008>

Un glosario de términos turísticos más completo y recién actualizado está disponible en inglés únicamente:
<https://statistics.unwto.org/sites/all/files/docpdf/glossaryterms.pdf>

Actividades / productos característicos del turismo

Las *actividades características del turismo* son aquellas que generan principalmente *productos característicos del turismo*.

Los *productos característicos del turismo* son aquellos que cumplen uno o ambos de los siguientes criterios:

El *gasto turístico* en el producto debería representar una parte importante del *gasto total turístico* (condición de la proporción que corresponde al gasto/demanda).

El *gasto turístico* en el producto debería representar una parte importante de la oferta del producto en la economía (condición de la proporción que corresponde a la oferta). Este criterio supone que la oferta de un *producto característico del turismo* se reduciría considerablemente si no hubiera visitantes.

Empleo en las industrias turísticas

El *empleo en las industrias turísticas* puede medirse como un recuento de las personas empleadas en las *industrias turísticas*, en cualquiera de sus empleos, como un recuento de las personas que desempeñan su empleo principal en las *industrias turísticas*, o como un recuento de los empleos en las *industrias turísticas*.

Entorno habitual

El *entorno habitual* de una persona, concepto clave en turismo, se define como la zona geográfica (aunque no necesariamente contigua) en la que una persona realiza sus actividades cotidianas habituales.

Gasto turístico

El *gasto turístico* hace referencia a la suma pagada por la adquisición de bienes y servicios de consumo, y de objetos valiosos, para uso propio o para regalar, durante los viajes turísticos y para los mismos.

Grupo de viaje

Un grupo de viaje se define como visitantes que realizan juntos un viaje y comparten los gastos vinculados con el mismo.

Industrias turísticas

Las industrias turísticas incluyen todos los establecimientos en los cuales la actividad principal es una actividad característica del turismo.

Lugar de residencia habitual

El *lugar de residencia habitual* es el lugar geográfico en que el visitante reside habitualmente, y se define por la ubicación de su vivienda principal (Principios y recomendaciones para los censos de población y habitación de las Naciones Unidas).

Motivo (principal) de un viaje turístico

El *motivo principal* de un *viaje turístico* se define como el motivo sin el cual el *viaje* no habría tenido lugar. La clasificación de los *viajes turísticos* con arreglo al *motivo principal* hace referencia a nueve categorías: esta tipología permite identificar diferentes subconjuntos de *visitantes* (visitantes de negocios, visitantes en tránsito, etc.).

Turismo emisor

El *turismo emisor* abarca las *actividades* realizadas por un *visitante* residente fuera del país de referencia, como parte de un *viaje turístico emisor* o de un *viaje turístico interno*.

Turismo interno

El *turismo interno* incluye las *actividades* realizadas por un *visitante residente* en el *país de referencia*, como parte de un *viaje turístico interno* o de un *viaje turístico emisor*.

Turismo receptor

Engloba las *actividades* realizadas por un *visitante* no residente en el *país de referencia*, como parte de un *viaje turístico receptor*.

REFERENCIAS CONCEPTUALES y NOTAS TÉCNICAS

Turista (o visitante que pernocta y excursionista (o visitante del día))	<i>Un visitante</i> (interno, receptor o emisor) se clasifica como turista (o visitante que pernocta), si su viaje incluye una pernoctación, o como visitante del día (o excursionista) en caso contrario.
Viaje / turismo	El término <i>viaje</i> designa la actividad de los viajeros. Un viajero es toda persona que se desplaza entre dos lugares geográficos distintos por cualquier motivo y duración. El visitante es un tipo particular de viajero y, por lo tanto, el turismo es un subconjunto de viaje.
Viaje turístico	El término <i>viaje turístico</i> designa todo desplazamiento de una persona a un lugar fuera de su lugar de residencia habitual, desde el momento de su salida hasta su regreso. Por lo tanto, se refiere a un viaje de ida y vuelta. Los viajes de los visitantes son viajes turísticos.
Visita	Un viaje se compone de visitas a diferentes lugares. El término « visita turística » hace referencia a una estancia en un lugar visitado durante un viaje turístico.
Visitante	Un <i>visitante</i> es una persona que viaja a un destino principal distinto al de su entorno habitual, por una duración inferior a un año, con cualquier finalidad principal (ocio, negocios u otro motivo personal) que no sea la de ser empleado por una entidad residente en el país o lugar visitados.
Visitante interno	Cuando un visitante viaja dentro de su propio país de residencia, se trata de un <i>visitante interno</i> y sus actividades forman parte del turismo interno.
Vivienda de vacaciones	Una <i>vivienda de vacaciones</i> (también conocida como casa u hogar de vacaciones) es una vivienda secundaria visitada por los miembros del hogar, fundamentalmente con fines de ocio, vacaciones o cualquier otra forma de esparcimiento.

Anexo 3 Cómo encontrar el turismo en las clasificaciones internacionales uniformes

La importancia del turismo y la necesidad de definir y medir su significación dentro del sistema de estadísticas de las Naciones Unidas fueron reconocidas por la Comisión de Estadística de las Naciones Unidas con la aprobación en 1993 de las *Recomendaciones sobre estadísticas del turismo*. La versión revisada de estas recomendaciones fue aprobada por la Comisión de Estadística de las Naciones Unidas en 2008 bajo el título de *Recomendaciones internacionales para estadísticas de turismo 2008* (RIET 2008).

Para estudiar la contribución del turismo a la economía nacional, era necesario integrar el análisis económico del turismo en el marco de referencia del Sistema de Cuentas Nacionales (SCN 93), lo cual condujo a la aprobación por parte de la Comisión de Estadística de las Naciones Unidas en 2000 de *Cuenta satélite de turismo: Recomendaciones sobre el marco conceptual*. Este marco se actualizó posteriormente como *Cuenta satélite de turismo: Recomendaciones sobre el marco conceptual 2008* (CST:RMC 2008).

Los conceptos, las definiciones y las clasificaciones de las RIET 2008 son coherentes con los de CST:RMC 2008, que a su vez se habían armonizado con el Sistema de Cuentas Nacionales de 2008, la balanza de pagos y el comercio internacional de servicios.

Para el turismo, es interesante identificar los productos que compran los visitantes, directa e indirectamente, y las actividades que los producen. Las clasificaciones utilizadas para las actividades y los productos detallados que se piden en el estudio del turismo se extraen directamente y se relacionan con las clasificaciones de referencia de las Naciones Unidas: la CIIU y la CCP.

El foco de interés para el análisis del turismo es el visitante. En un principio, resulta interesante medir el gasto de los visitantes y localizar los productos, tanto bienes como servicios, que compran los visitantes, así como las actividades que producen estos productos. En un marco macroeconómico, como el de la CST, el concepto de turismo engloba tanto la perspectiva de la demanda, consistente en el consumo de los visitantes, el consumo colectivo turístico y la formación bruta de capital fijo del turismo, como la perspectiva de la oferta de las actividades turísticas (siendo un punto especial la cuota de su producción que es adquirida por los visitantes). El turismo, como tal, no se identifica en la SCN 93 o en la CIIU. A efectos de turismo, las actividades de todo el espectro de la CIIU que producen bienes y servicios que satisfacen la demanda turística se reúnen y agrupan como actividades turísticas.

Si se adopta el enfoque de la demanda, el visitante es la unidad básica de observación y análisis y el gasto de los visitantes se estudia en términos de productos (primordialmente servicios). Desde el punto de vista de la oferta, teniendo en cuenta su relación con el Sistema de Cuentas Nacionales, las estadísticas de turismo utilizan el « establecimiento » como unidad estadística básica, tal como se define en el SCN y utilizan « industria » como la unidad de presentación y análisis, definida como « grupos de establecimientos dedicados a la misma clase de actividad productiva ».

En primera instancia, es preciso reconocer qué productos compran los visitantes. A efectos de recopilación de datos desde la perspectiva de la demanda, los productos se agrupan en categorías amplias en función del motivo; no obstante, el turismo requiere el análisis simultáneo del consumo y de la producción y, por tanto, la clasificación utilizada para definir los productos es la Clasificación Central de Productos (CCP ver. 2.). Los productos adquiridos por los visitantes pueden agruparse en clases detalladas de la CCP y las actividades que los producen pueden identificarse en los términos de las clases detalladas en la CIIU.

El turismo define algunos de los productos que compran los visitantes y las actividades que los producen como « productos característicos del turismo » (los que satisfacen ciertos criterios) y « actividades características del turismo » (las que normalmente producen productos característicos del turismo). Las RIET 2008 explican en todo detalle los conceptos subyacentes, las definiciones y las clasificaciones que deben utilizarse para compilar estadísticas de turismo e identificar los productos y actividades característicos del turismo. A fin de facilitar la comparación internacional, se han preparado listas de estos productos y actividades característicos. En el anexo 3 de este documento figura la lista de las actividades características del turismo (industrias turísticas) agrupadas en categorías principales según la CIIU rev 4. El anexo 4 muestra una lista de productos característicos del turismo agrupados por categorías principales según la CCP ver 2. Aun cuando el verdadero producto adquirido por el visitante pueda constituir solo una porción de la clase de la CCP o la actividad productora pueda ser solo una parte de la clase de cuatro dígitos de la CIIU, al expresarse en términos de clases de la CCP y agregados de clases de la CIIU, las listas ofrecen una clase definida en la que es posible incluir cada uno de los productos o actividades. Se aconseja a los países que, en caso de que lo requieran para sus propios análisis, creen clases más detalladas por debajo del nivel inferior de la CCP y la CIIU.

El alcance del análisis de las estadísticas de turismo se amplía cuando se sitúan en el marco de la cuenta satélite de turismo. De nuevo, en el marco esencial de contabilidad, los productos y las actividades se expresan en los términos de la CCP ver. 2 y la CIIU ver. 4, incluyendo los productos y las actividades asociados con el turismo. Las clasificaciones internacionales de productos y actividades empleadas para compilar los datos para CST:RMC 2008 que, a su vez, establecen vínculos estructurales con el Sistema de Cuentas Nacionales, hacen posible una apreciación más profunda de los vínculos del turismo con otros ámbitos económicos.

REFERENCIAS CONCEPTUALES y NOTAS TÉCNICAS

Anexo 4 Lista de industrias turísticas (actividades características) y agrupadas por categorías principales según la CIIU, rev.4

Industrias turísticas	CIIU Rev. 4	Descripción
1. Alojamiento para visitantes	5510	Actividades de alojamiento para estancias cortas
	5520	Actividades de campamentos, parques de vehículos recreativos y parques de caravanas
	5590	Otras actividades de alojamiento
	6810	Actividades inmobiliarias realizadas con bienes propios o arrendados*
	6820	Actividades inmobiliarias realizadas a cambio de una retribución o por contrata*
2. Actividades de provisión de alimentos y bebidas	5610	Actividades de restaurantes y de servicio móvil de comidas
	5629	Otras actividades de servicio de comidas
	5630	Actividades de servicio de bebidas
3. Transporte de pasajeros por ferrocarril	4911	Transporte interurbano de pasajeros por ferrocarril
4. Transporte de pasajeros por carretera	4922	Otras actividades de transporte por vía terrestre
5. Transporte de pasajeros por agua	5011	Transporte de pasajeros marítimo y de cabotaje
	5021	Transporte de pasajeros por vías de navegación interiores
6. Transporte aéreo de pasajeros	5110	Transporte de pasajeros por vía aérea
7. Alquiler de equipos de transporte	7710	Alquiler y arrendamiento de vehículos automotores
8. Actividades de agencias de viajes y de otros servicios de reservas	7911	Actividades de agencias de viajes
	7912	Actividades de operadores turísticos
	7990	Otros servicios de reservas y actividades conexas
9. Actividades culturales	9000	Actividades creativas, artísticas y de entretenimiento
	9102	Actividades de museos y conservación de lugares y edificios históricos
	9103	Actividades de jardines botánicos y zoológicos y de reservas naturales
10. Actividades deportivas y recreativas	7721	Alquiler y arrendamiento de equipo recreativo y deportivo
	9200	Actividades de juegos de azar y apuestas
	9311	Gestión de instalaciones deportivas
	9319	Otras actividades deportivas
	9321	Actividades de parques de atracciones y parques temáticos
	9329	Otras actividades de esparcimiento y recreativas n.c.p.
11. Comercio al por menor de bienes característicos del turismo, específicos de cada país		Comercios libres de impuestos** Comercio al por menor de recuerdos en establecimientos especializados** Comercio al por menor de artesanía en establecimientos especializados** Otro comercio al por menor de bienes característicos del turismo en establecimientos especializados**
12. Otras actividades características del turismo, específicas de cada país		

* Parte relacionada con segundos hogares y multipropiedades

** No es una categoría de cuatro cifras de la CIIU

REFERENCIAS CONCEPTUALES y NOTAS TÉCNICAS

Notas explicativas

Estas notas explicativas hacen referencia exclusivamente a actividades características del turismo internacionalmente comparables, y siguen el mismo orden que en el anexo 4 que figura más arriba.

Se han extraído del documento *Clasificación Industrial Internacional Uniforme de todas las actividades económicas (CIIU), Rev.4*. Informes estadísticos (serie M, No. 4/Rev.4), Naciones Unidas. Nueva York, 2008.

El documento completo puede consultarse en el sitio Web: <http://unstats.un.org/unsd/cr/registry/regdntransfer.asp?f=135>

Alojamiento para visitantes

5510 Actividades de alojamiento para estancias cortas

Esta clase comprende el suministro de alojamiento, en general por días o por semanas, principalmente para estancias cortas de los visitantes. Abarca el suministro de alojamiento amueblado en habitaciones y apartamentos o unidades totalmente independientes con cocina, con o sin servicio diario o regular de limpieza, y que incluyen a menudo diversos servicios adicionales, como los de comidas y bebidas, aparcamiento, lavandería, piscina y gimnasio, instalaciones de recreo e instalaciones para conferencias y convenciones.

- Esta clase comprende el suministro de alojamiento por estancias cortas en:
- hoteles
- centros vacacionales
- hoteles de suites/apartamentos
- moteles
- hoteles para automovilistas
- casas de huéspedes
- pensiones
- unidades de alojamiento y desayuno
- pisos y bungalows
- unidades utilizadas en régimen de tiempo compartido
- casas de vacaciones
- chalets y cabañas con servicio de mantenimiento y limpieza
- albergues juveniles y refugios de montaña

No se incluyen las siguientes actividades:

- suministro de viviendas y de pisos o apartamentos amueblados o sin amueblar para períodos más largos, en general por meses o por años; véase la división 6868

5520 Actividades de campamentos, parques de vehículos de recreo y parques de caravanas

Esta clase comprende las siguientes actividades:

- suministro de alojamiento en campamentos, parques para caravanas, campamentos recreativos y campamentos de caza y de pesca para estancias cortas
- suministro de espacio e instalaciones para vehículos de recreo

Se incluyen también los servicios de alojamiento de:

- refugios o simples instalaciones de acampada para plantar tiendas o pernoctar en sacos de dormir

5590 Otras actividades de alojamiento

Esta clase comprende el suministro de alojamiento temporal o a largo plazo en habitaciones individuales o compartidas o dormitorios para estudiantes, trabajadores migrantes (estacionales) y otras categorías de personas.

Se incluyen los servicios de alojamiento proporcionados por:

- residencias de estudiantes
- dormitorios escolares
- albergues para trabajadores
- casas de huéspedes e internados
- coches cama ferroviarios

6810 Actividades inmobiliarias realizadas con bienes propios o arrendados

Esta clase comprende las siguientes actividades:

- compra, venta, alquiler y explotación de bienes inmuebles propios o arrendados, como:
- edificios de apartamentos y viviendas
- edificios no residenciales, incluso salas de exposiciones, instalaciones de autoalmacenamiento y centros comerciales
- terrenos
- alquiler de casas y pisos o apartamentos amueblados o sin amueblar por
- períodos largos, en general por meses o por años

Se incluyen también las siguientes actividades:

- promoción de proyectos de construcción para su posterior explotación, es decir, para alquilar espacio en esos edificios
- subdivisión de propiedades inmobiliarias en lotes, sin mejora de los terrenos
- explotación de campamentos residenciales para casas móviles

No se incluyen las siguientes actividades:

- promoción de proyectos de construcción para la venta; véase la clase 4100
- subdivisión y mejora de terrenos; véase la clase 4290
- explotación de hoteles, hoteles de apartamentos e instalaciones de alojamiento similares; véase la clase 5510
- explotación de campamentos, parques de caravanas e instalaciones de alojamiento similares; véase la clase 5520
- explotación de albergues para trabajadores, casas de huéspedes e instalaciones de alojamiento similares; véase la clase 5590

6820 Actividades inmobiliarias realizadas a cambio de una retribución o por contrata

Esta clase comprende las actividades inmobiliarias que se realizan a cambio de una retribución o por contrata, incluidos los servicios inmobiliarios.

REFERENCIAS CONCEPTUALES y NOTAS TÉCNICAS

Esta clase comprende las siguientes actividades:

- actividades de agentes y corredores inmobiliarios
- intermediación en la compra, la venta y el alquiler de bienes inmuebles a cambio de una retribución o por contrata
- administración de bienes inmuebles a cambio de una retribución o por contrata
- servicios de tasación inmobiliaria
- actividades de agentes depositarios de plicas inmobiliarias

No se incluyen las siguientes actividades:

- actividades jurídicas; véase la clase 6910
- servicios de apoyo a instalaciones; véase la clase 8110
- administración de instalaciones, como bases militares, prisiones y otras instalaciones (excepto administración de instalaciones informáticas); véase la clase 8110

Actividades de provisión de alimentos y bebidas

5610 Actividades de restaurantes y de servicio móvil de comidas

Esta clase comprende el servicio de comidas a los clientes, ya se les sirvan en mesas o se sirvan ellos mismos de un surtido de platos expuestos, y ya se trate de comida para consumir en el local, para llevar o para entrega a domicilio. Abarca la preparación y el servicio de comidas para su consumo inmediato desde vehículos, sean o no motorizados

Esta clase comprende las actividades de:

- restaurantes
- cafeterías
- restaurantes de comida rápida
- reparto de pizza a domicilio
- restaurantes de comida para llevar
- vendedores ambulantes de helados
- puestos ambulantes de comida
- preparación de alimentos en puestos de mercado

Se incluyen también las siguientes actividades:

- actividades de restaurantes y bares vinculadas a actividades de transporte, si las realizan unidades separadas

No se incluyen las siguientes actividades:

- explotación de instalaciones de comedor en régimen de concesión; véase la clase 56290

5629 Otras actividades de servicio de comidas

Esta clase comprende el suministro industrial de comidas por encargo, es decir, el suministro de comidas basado en acuerdos contractuales con los clientes, durante un período convenido.

Abarca también la explotación de concesiones de servicio de comida en instalaciones deportivas e instalaciones similares. La comida se prepara a menudo en una unidad central.

Esta clase comprende las siguientes actividades:

- actividades de contratistas de servicio de comidas (p. ej., para compañías de transporte)
- explotación de concesiones de servicio de comidas en instalaciones deportivas e instalaciones similares
- explotación de cantinas o cafeterías (p. ej., para fábricas, oficinas, hospitales o escuelas) en régimen de concesión

No se incluyen las siguientes actividades:

- elaboración de productos alimenticios perecederos para su reventa; véase la clase 1079
- venta al por menor de productos alimenticios perecederos; véase la división 47

5630 Actividades de servicio de bebidas

Esta clase comprende la preparación y el servicio de bebidas para su consumo inmediato en el local.

Esta clase comprende las actividades de:

- bares
- tabernas
- coctelerías
- discotecas (con predominio del servicio de bebidas)
- cervecerías y pubs
- cafeterías
- tiendas de jugos de frutas
- vendedores ambulantes de bebidas

No se incluyen las siguientes actividades:

- reventa de bebidas envasadas o preparadas; véanse las clases 4711, 4722, 4781 y 4799
- explotación de discotecas y salas de baile sin servicio de bebidas; véase la clase 9329

Transporte de pasajeros por ferrocarril

4911 Transporte interurbano de pasajeros por ferrocarril

Esta clase comprende las siguientes actividades:

- transporte de pasajeros por ferrocarriles interurbanos
- servicios de coches cama y coches restaurante integrados en los servicios de las compañías de ferrocarril

No se incluyen las siguientes actividades:

- transporte de pasajeros por los sistemas de transporte urbano y suburbano; véase la clase 4921
- actividades de terminales de pasajeros; véase la clase 5221
- servicios de coches cama y coches restaurante cuando los suministran unidades separadas, véanse las clases 5590 y 5610

REFERENCIAS CONCEPTUALES y NOTAS TÉCNICAS

Transporte de pasajeros por carretera

4922 Otras actividades de transporte de pasajeros por vía terrestre

Esta clase comprende las siguientes actividades:

- otras actividades de transporte de pasajeros por carretera:
 - servicios regulares de autobuses de larga distancia
 - servicios de viajes contratados, excursiones y otros servicios ocasionales de transporte en autobús
 - servicios de taxis
 - servicios de enlace con aeropuertos
- servicios de teleféricos, funiculares, telesillas y telecabinas, si no forman parte de sistemas de transporte urbano o suburbano

Se incluyen también las siguientes actividades:

- otras actividades de alquiler de automóviles privados con conductor
- servicios de autobuses escolares y autobuses para el transporte de empleados
- transporte de pasajeros en vehículos de tracción humana o animal

No se incluyen las siguientes actividades:

- transporte en ambulancia; véase la clase 8690

Transporte de pasajeros por agua

5011 Transporte de pasajeros marítimo y de cabotaje

Esta clase comprende las siguientes actividades:

- transporte marítimo y de cabotaje, regular y no regular, de pasajeros y carga:
 - explotación de embarcaciones de excursión, de crucero o de turismo
 - explotación de transbordadores, taxis acuáticos, etcétera

Se incluyen también las siguientes actividades:

- alquiler de embarcaciones de placer con tripulación para el transporte marítimo y de cabotaje (p. ej., cruceros de pesca)

No se incluyen las siguientes actividades:

- actividades de servicios de bar y de restaurante a bordo de embarcaciones, si las realizan unidades separadas; véanse las clases 5610 y 5630
- explotación de « casinos flotantes »; véase la clase 9200

5021 Transporte de pasajeros por vías de navegación interiores

Esta clase comprende las siguientes actividades:

- transporte de pasajeros por ríos, canales, lagos y otras vías de navegación interiores, incluidos puertos interiores

Se incluyen también las siguientes actividades:

- alquiler de embarcaciones de placer con tripulación para el transporte por vías de navegación interiores

Transporte aéreo de pasajeros

5110 Transporte de pasajeros por vía aérea

Esta clase comprende las siguientes actividades:

- transporte aéreo de pasajeros con itinerarios y horarios establecidos
- vuelos contratados (charter) para pasajeros
- vuelos panorámicos y turísticos

Se incluyen también las siguientes actividades:

- alquiler de equipo de transporte aéreo con operadores para el transporte de pasajeros
- actividades generales de aviación, como:
 - transporte de pasajeros por clubes aéreos con fines de instrucción o de recreo

Alquiler de equipos de transporte

7710 Alquiler y arrendamiento de vehículos automotores

Esta clase comprende las siguientes actividades:

- alquiler y arrendamiento con fines operativos de los siguientes tipos de vehículos:
 - automóviles de pasajeros (sin conductor)
 - camiones, remolques y vehículos de recreo

No se incluyen las siguientes actividades:

- alquiler o arrendamiento de vehículos o camiones con conductor; véanse las clases 4922 y 4923
- arrendamiento financiero; véase la clase 6491

Actividades de agencias de viajes y de otros servicios de reservas

7911 Actividades de agencias de viajes

Esta clase comprende las siguientes actividades:

- actividades de agencias dedicadas principalmente a vender servicios de viajes, de viajes organizados, de transporte y de alojamiento al público en general y a clientes comerciales

7912 Actividades de operadores turísticos

Esta clase comprende las siguientes actividades:

- organización de paquetes de servicios de viajes para su venta a través de agencias de viajes o por los propios operadores turísticos. Esos viajes organizados pueden incluir uno o varios de los elementos siguientes:
 - transporte
 - alojamiento
 - comidas
 - visitas a museos, lugares históricos o culturales y asistencia a espectáculos teatrales, musicales o deportivos

REFERENCIAS CONCEPTUALES y NOTAS TÉCNICAS

7990 Otros servicios de reservas y actividades conexas

Esta clase comprende las siguientes actividades:

- prestación de otros servicios de reservas relacionados con los viajes:
 - reservas de transporte, hoteles, restaurantes, alquiler de automóviles, entretenimiento y deporte, etcétera
- prestación de servicios de intercambio en régimen de tiempo compartido o multipropiedad
- actividades de venta de billetes para obras de teatro, competiciones deportivas y otras actividades de diversión y entretenimiento
- prestación de servicios de asistencia a los visitantes:
 - suministro a los clientes de información sobre los viajes
 - actividades de guías de turismo
- actividades de promoción turística

No se incluyen las siguientes actividades:

- actividades de agencias de viajes y operadores turísticos, véanse las clases 7911 y 7912
- organización y gestión de reuniones, convenciones, conferencias y acontecimientos similares; véase la clase 8230

Actividades culturales

9000 Actividades creativas, artísticas y de entretenimiento

Esta clase comprende la explotación de instalaciones y la prestación de servicios para atender a los intereses culturales y de entretenimiento de los clientes. Abarca la producción y promoción de espectáculos, actos o exposiciones destinados al público, y la participación en ellos; y la aportación de conocimientos y aptitudes artísticos, creativos o técnicos para la creación de productos artísticos y espectáculos.

Esta clase comprende las siguientes actividades:

- producción de obras de teatro, conciertos, espectáculos operísticos o de danza y otras producciones escénicas:
 - actividades de grupos, circos o compañías, orquestas o bandas
 - actividades de artistas individuales, como escritores, directores, músicos, conferenciantes, escenógrafos y constructores de decorados, etcétera
- gestión de salas de conciertos, teatros y otras instalaciones similares
- actividades de escultores, pintores, dibujantes, grabadores, etcétera
- actividades de escritores de todo tipo; por ejemplo, de obras de ficción, de obras técnicas, etcétera
- actividades de periodistas independientes
- restauración de obras de arte, como cuadros, etcétera

Se incluyen también las siguientes actividades:

- actividades de productores o empresarios de espectáculos artísticos en vivo, aporten o no ellos mismos las instalaciones correspondientes

No se incluyen las siguientes actividades:

- restauración de vidrieras de colores; véase la clase 2310
- fabricación de estatuas, excepto originales artísticos; véase la clase 2396
- restauración de órganos y otros instrumentos musicales históricos; véase la clase 3319
- restauración de lugares y edificios históricos; véase la clase 4100
- producción de películas cinematográficas y vídeos; véanse las clases 5911 y 5912
- explotación de cines; véase la clase 5914
- actividades de agentes o agencias de actores y artistas; véase la clase 7490
- actividades de selección de actores; véase la clase 7810
- actividades de venta de entradas; véase la clase 7990
- gestión de museos de todo tipo; véase la clase 9102
- actividades deportivas, de esparcimiento y recreativas; véase la división 93
- restauración de muebles (excepto la del tipo realizado en museos); véase la clase 9524

9102 Actividades de museos y gestión de lugares y edificios históricos

Esta clase comprende las siguientes actividades:

- actividades de todo tipo de museos:
 - museos de arte, orfebrería, muebles, trajes, cerámica, platería
 - museos de historia natural y de ciencias, museos tecnológicos y museos históricos, incluidos los museos militares
 - otros museos especializados
 - museos al aire libre
- gestión de lugares y edificios históricos

No se incluyen las siguientes actividades:

- renovación y restauración de lugares y edificios históricos; véase la sección F
- restauración de obras de arte y piezas de museo; véase la clase 9000
- actividades de bibliotecas y archivos; véase la clase 9101

9103 Actividades de jardines botánicos y zoológicos y reservas naturales

Esta clase comprende las siguientes actividades:

- gestión de jardines botánicos y zoológicos, incluidos zoológicos infantiles
- gestión de reservas naturales, incluidas las actividades de preservación de la flora y la fauna silvestres, etcétera

No se incluyen las siguientes actividades:

- servicios de paisajismo y jardinería; véase la clase 8130
- explotación de reservas de pesca y de caza deportivas; véase la clase 9319

REFERENCIAS CONCEPTUALES y NOTAS TÉCNICAS

Actividades deportivas y recreativas

7721 Alquiler y arrendamiento de equipo recreativo y deportivo

Esta clase comprende las siguientes actividades:

- alquiler de equipo recreativo y deportivo;
- embarcaciones de recreo, canoas, veleros
- bicicletas
- hamacas de playa y sombrillas
- otros tipos de equipo de deporte
- esquíes

No se incluyen las siguientes actividades:

- alquiler de cintas de vídeo y discos; véase la clase 7722
- alquiler de otros efectos personales y enseres domésticos n.c.p.; véase la clase 7729
- alquiler de equipo de esparcimiento y recreo como parte integral de servicios de esparcimiento; véase la clase 9329

9200 Actividades de juegos de azar y apuestas

Esta clase comprende las siguientes actividades:

- apuestas sobre carreras de caballos en el propio hipódromo y otros servicios de apuestas
- apuestas sobre carreras de caballos fuera del hipódromo
- explotación de casinos, incluidos « casinos flotantes »
- venta de boletos de lotería
- gestión (explotación) de máquinas de juegos de azar accionadas con monedas
- gestión de sitios web de juegos de azar virtuales

No se incluyen las siguientes actividades:

- gestión (explotación) de juegos accionados con monedas; véase la clase 9329

9311 Gestión de instalaciones deportivas

Esta clase comprende las siguientes actividades:

- gestión de instalaciones para actividades deportivas bajo techo o al aire libre (abiertas, cerradas o techadas, con o sin asientos para espectadores):
 - campos y estadios de fútbol, hockey, cricket, béisbol, canchas de frontón
 - circuitos de carreras de automóviles, canódromos, hipódromos
 - piscinas y estadios
 - estadios de atletismo
 - pistas y estadios para deportes de invierno
 - pistas de hockey sobre hielo
 - pabellones de boxeo
 - campos de golf
 - boleras
 - gimnasios
- organización y gestión de competiciones deportivas al aire libre o bajo techo, con participación de deportistas profesionales o aficionados, por parte de organizaciones con instalaciones propias

Se incluyen la gestión de esas instalaciones y la dotación del personal necesario para su funcionamiento.

No se incluyen las siguientes actividades:

- alquiler de equipo recreativo y deportivo; véase la clase 7721
- gestión de estaciones de esquí; véase la clase 9329
- actividades realizadas en parques y playas; véase la clase 9329

9319 Otras actividades deportivas

Esta clase comprende las siguientes actividades:

- actividades de productores o promotores de competiciones deportivas, con o sin instalaciones
- actividades por cuenta propia de deportistas y atletas, árbitros, jueces, cronometradores, etcétera
- actividades de ligas y órganos reguladores
- actividades relacionadas con la promoción de competiciones deportivas
- actividades relacionadas con carreras de caballos, galgos y automóviles
- gestión de reservas de pesca y caza deportivas
- actividades de guías de montaña
- actividades de apoyo para la caza y la pesca deportivas o recreativas

No se incluyen las siguientes actividades:

- cría de caballos de carreras; véase la clase 0142
- alquiler de equipo de deporte; véase la clase 7721
- actividades de escuelas de deportes y de juegos; véase la clase 8541
- actividades de instructores, profesores y entrenadores; véase la clase 8541
- organización y explotación de competiciones deportivas al aire libre o bajo techo, con participación de deportistas profesionales o aficionados, por parte de clubes deportivos con o sin instalaciones propias, véanse las clases 9311 y 9312
- actividades realizadas en parques y playas; véase la clase 9329

9321 Actividades de parques de atracciones y parques temáticos

Esta clase comprende las siguientes actividades:

- actividades de parques de atracciones y parques temáticos, incluida la explotación de diversas atracciones mecánicas y acuáticas, juegos, espectáculos, exposiciones temáticas y lugares para picnics

9329 Otras actividades de esparcimiento y recreativas n.c.p.

Esta clase comprende las siguientes actividades:

- actividades de parques recreativos y playas, incluido el alquiler de casetas, taquillas, hamacas, etcétera
- gestión de instalaciones de transporte recreativo;
- gestión de estaciones de esquí
- alquiler de equipo de esparcimiento y recreo como parte integral de servicios de esparcimiento
- explotación de ferias y exposiciones de carácter recreativo
- explotación de discotecas y pistas de baile
- operación (explotación) de juegos accionados por monedas

REFERENCIAS CONCEPTUALES y NOTAS TÉCNICAS

- otras actividades de esparcimiento y recreativas (excepto las de parques de atracciones y parques temáticos) no clasificadas en otra parte

Se incluyen también las siguientes actividades:

- actividades de productores o empresarios de espectáculos en vivo, que no sean ni artísticos ni deportivos, aporten o no ellos mismos las instalaciones correspondientes

No se incluyen las siguientes actividades:

- cruceros de pesca, véanse las clases 5011 y 5021
- suministro de espacio e instalaciones para estancias cortas en parques recreativos, parques forestales y campamentos; véase la clase 5520
- actividades de servicio de bebidas en discotecas; véase la clase 5630
- parques de caravanas, campamentos, campamentos recreativos, campamentos de caza y de pesca; véase la clase 5520
- alquiler por separado de equipo recreativo; véase la clase 7721
- gestión (explotación) de máquinas de juegos accionadas con monedas; véase la clase 9200
- actividades de parques de atracciones y parques temáticos; véase la clase 9321

Statistical information on tourism's multiple facets is pivotal in advancing knowledge of the sector, monitoring progress, promoting results-focused management, and highlighting strategic issues for policy decisions.

Deriving from the most comprehensive statistical database available on the tourism sector, the Compendium of Tourism Statistics provides statistical data and indicators on inbound, outbound and domestic tourism, as well as on the number and types of tourism industries, the number of employees by tourism industries, and macroeconomic indicators related to international tourism.

The 2019 edition presents data for 203 countries from 2013 to 2017.

The **World Tourism Organization (UNWTO)**, a United Nations specialized agency, is the leading international organization with the decisive and central role in promoting the development of responsible, sustainable and universally accessible tourism. It serves as a global forum for tourism policy issues and a practical source of tourism know-how. Its membership includes 158 countries, 6 territories, 2 permanent observers and over 500 Affiliate Members.

World Tourism Organization (UNWTO) www.unwto.org
